What Do You Want on the Job?

Let us assume the roof leaks. It must be stopped. Two men apply for the job. One has been at it all his life-he knows how. 'The other doesn't -but is willing. Who would get the job?

That applies to clothing. The tailor-men who fashion our clothing know how. They have the capacity and the ability to tailor the most costly clothing in the States.

It is not logical to suppose that the same tailor-men can and will invest in an expensive suit which is wholly foreign to garments produced by tailormen who do nothing else.

You are certain to find the ear-marks of distinctiveness and impressiveness in every one of our suits and overcoats.
