Springfield, Ill., Feb. 12.—Amid a scene of unrivaled brilliancy at the State Armory to-night three nations paid their tribute to Lincoln and to each other. French Ambassador Jusserand brought the message from France, British Ambassador Bryce that of England, while William J. Bryan, United States Senator from Iowa, laid America's wreath of respect at the feet of Lincoln.

BY LINCOLN'S EXAMPLE.

We of this day must try to solve many social and industrial problems, requiring to an especial degree the combination of indomitable resolution with good sense. We can profit by both these traits as he strove for reform. We can learn much of value from the very acts which followed that course brought upon his head the anathema of the extremists of reaction...

HIS FIGHT FOR RIGHT

Yet perhaps the most wonderful thing of all, and from the standpoint of the America of to-day and of the future, the most vitally important event to-night, and tributes to Lincoln were delivered. Rev. L. M. Magee criticized the banquet of the centennial association, saying: "I would rather be one of the blackest negroes than a white man."

SALE OF THE INDUSTRIAL NEWS.

The sale of the suspended Daily Industrial News, which is advertised to take place at auction next Monday at noon, appears to be attracting very little attention on the part of the men who backed the paper loyally during its existence of a little more than three years. Mr. W. J. Hines, who is one of the friends of the undertaking through thick and thin, and who bid \$15,000 for the property January 29th, has given no intimation that he will bid at the public auction. The physical plant is one of the best to be found anywhere, the equipment having been installed almost without regard to expense. There is a promise of a reduction in the price of gas and electricity. The public is highly interested in this enterprise, and future developments will be watched with interest. REGRET OVER FAILURE OF JUDICIAL DISTRICT BILL.

There is general regret here over the failure of Senator Barringer's bill to create a new judicial district, or to divide the United States into judicial districts, the regret keenest on the part of numerous aspiring lawyers who had their eyes fixed on the offices of judge and solicitor of the proposed district. The defeat of the measure means there is no prospect in sight for an improved material disposal of the Guilford Superior Court docket except it come through the establishment of a county court, and it is probable now that all efforts will be directed toward the creation of this tribunal. In the creation of the county court of Greensboro, giving the new court enlarged jurisdiction in criminal cases and jurisdiction in civil actions where the amount involved is not in excess of \$1,000. As an illustration of the present unsatisfactory condition of the Superior Court docket, it may be stated that with the exception of one case, no trial in a short length of time than from two to three years from the time the case is placed on the docket.
