PERUNA EDITORIAL NO. 2

Dr. Hartman has claimed for many years that Peruna is an EXCELLENT CATARRH REMEDY. Son : of the doctor's critics have disputed the doctor's

Since the ingredients of Peruna are no longer a secret, what do the medical authorities say concerning the remedies of which Peruna is composed ?

Take, for instance, the ingredient HYDRASTIS CANADENSIS, OR GOLDEN SEAL. The United States Dispensatory says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes. chronic rhinitis (nasal catarrh), atomic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar is women.

Another ingredient of Peruna, CORYDALIS FORMOSA, is classed in the United States Dispensatory as a tonic. From olden times corydalis formosa, commonly called wild hyacinth, has been valued as a constitutional remedy, correcting old cases of skin diseases and chronic catarrhal conditions, depending on systemic contaminations of long standing.

CEDRON SEEDS is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. THE SEEDS ARE TO BE FOUND IN VERY FEW DRUG STORES. The United States Dispensatory says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and intermittent diseases as a SUBSTITUTE FOR QUININE.

OF HYDRASTIS, BARTHOLOW SAYS it is applicable to stomatitis catarrh of the mucous surfaces of the mouth), follicular pharyngitis (catarrh

of the pharynx), chronic coryga (catarrh of the head). This writer classes Those Who Object to Fluid Medicines Can Now Obtain the Peruna Tablet.

hydrastis as a stomachic tonic, useful in atonic dyspepsia (chronic gastric catarrh) catarrh of the duodenum, catarrh of the gall duct, catarrh of the intestines, catarrh of the kidneys (chronic Bright's disease), catarrh of the bladder, and catarrh of other pelvic organs.

In all these forms of catarrh (or catarrh affecting different mucous membranes) hydrastis or golden seal is a

BARTHOLOW STATES THAT CUBEB. an ingredient of Peruna, promotes the appetite and digestion, increases the circulation of the blood. Useful in chronic nasal catarrh, follicular pharyngitis (catarrh of the pharynz), increasing the tonicity of the mucous membranes of the throat. It also relieves hoarseness. Useful in atonic dyspepsia (catarrh of the stomach), and in chronic catarrh of the colon and rectum, catarrh of the bladder, prostatorrhea, and chronic bronchial affections.

MILLSPAUGH, MEDICINAL PLANTS, one of the most authoritative works on medicinal herbs in the English language, in commenting upon COLLINSONIA CANADENSIS, says that it acts on the pneumogastric and vaso motor nerves. It increases the secretions of the mucous membranes in general. In the mountains of Virginia, Kentucky, Tennessee and Carolina. collinsonia canadensis is considered a panacea for many disorders, including headache, colie, cramp, dropsy and indigestion. DR. SCUDDER regards at highly as a remedy in chronic diseases of the lungs, heart disease and asthma.

These citations ought to be sufficient to show to any candid mind that Peruna is a catarrh remedy. Surely, such herbal remedies, that command the enthusiastic confidence of the highest authorities obtainable, brought together in proper combination, ought to make a catarrh remedy of the highest efficacy.

This is our claim, and we are able to substantiate this claim by ample quotations from the HIGHEST MEDICAL AUTHORITIES IN THE WORLD
