my back hurt me all the while.

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the hones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S. S. S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health S. S. S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S. S. Quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S. S. S. has thoroughly purified the circulation no trace of the disease is left. S. S. S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years.
