New Orleans Cotton. New Orleans, June 22.- Spot cotton

steady % cent higher; middling 11%. Sales on the spot 2.525 bales; to arrive 400. Futures opened steady at an advance of three to four points on favorable Liverpool cables. Later the market became very steady on continued bad weather reports which sent shorts to cover and caused much fresh buying among buils. In the early hours a considerable selling out movement on the part of Wall Street owners of cotton contracts held the advance down, but later the demand became greater than offerings with the resuit that the active months were sent up to a level 17 to 22 points above yesterday's final prices. On the closing the tone was steady and prices stood at a net advance of 16 to 20 points. Futures closed steady. Closing bids:

HE DEFENDS VIVISECTION.

Doctor Declares Dogs Are Quite Haps

py Under Experiments.

Dr. James P. Warbasse read a pa

per recently before the New York

Academy of Medicine on animal exper-

imentation. He said that such experi-

mentation, from the medical point of

animals for the purpose of discovering

curative, or diagnostic sera; discover-

ing antidotal remedies, practicing sur-

gical operations, experimenting with a

view to finding means for accom-plishing the extermination of harmful

animals, and studying the nature of

discuses which were common to both

"Do animal experimenters inflict

unnecessary and wanton pain? If au

operation has been done that would

have a painful result the animal was

usually killed while unconscious. In

the physiological laboratory the con-

dition of dogs after operation was not

unlike that of their human brethren,

they were comfortable and happy, playing about their kennels and enjoy-

ing better care than had before been

"Of all the destruction of animals

which was now in progress on the face

of this earth he knew of none which

was giving greater returns to human-

ity in contributing to man's health,

'mal, than that practiced in the inter-

culture, and happiness, animal for an-

est of advancing the medical and bin-

owed its best development to animal

experimentation. Typhoid fever, tuber-

culosis, the plaugue, cholera, diphtheria yellow fever, malaria, cerebro-spi-

nal meningetis, smallpox. myxoedema, cretinism and snake bite were but a few of the maladies that had been

and, in consequence, rendered more

were useful to man, the nature

of Pasteur that his discoveries

due to Pasteur more than to any other

man. His experiments were carried on

King Menelik's Collection.

The mania for collecting seems to

attack most people at some period or other. An odd collection of curios is

that amassed by the Abys7inian mon-arch. Menelik H., who is said to have

in his possession more than 2,000 locks of human hair of every shade of color and texture; each of these is

carefully labeled with the date and

The same monarch has also a pretty
