A NEW DEPOT REFUSED.

Southern Notifies Statesville That It Cannot at This Time Build the Much-Needed Depot at That Place— Matter Will Be Taken Before Cor-

Special to The Observer. Statesville, June 25 .- The Southern Railway Company "hands Statesville a lemon" in the shape of a letter from Mr. C. H. Ackert, vice president and general manager of the Southern, regarding the building of a new passenger station at Statesville, which is sorely needed. Statesville began an active fight for a new station several months age and about two months ago Mr. Ackert and other officials of the road visited Statesville and heard the complaints, which they practically admitted were all just and right. On leaving Stateswille Mr. Ackert promised a definite answer within sixty days and the following letter to Mayor Grier, which explains itself, is the answer:

"Referring to the question of a new passenger station at Statesville, and my visit there, will say I have had a conference with our people in re-

While it is our desire at all times to meet the wishes of the patrons of our railroad, upon looking over the list of improvements to be made, we find it will be practically impossible to appropriate money for a new pas-eenger station at Statesville at this

"You can well appreciate that there are a great many calls on us for improvements, such as additional tracks, better facilities for handling business, etc., and that it is to the interest of all patrens to have facilities adequate to properly handle the business offered, and we are trying to work it out on this basis, using our money where we think the greatest advantage will result to the public

While the depot at your city is not what we feel you want, we trust that you will bear with us in this matter until such time as we feel conditions will warrant our spending money for this purpose.

Statesville business men will probabby take action at once and see what virtue there is in the Corporation Commission. The new passenger station must be forthcoming if there is any way by which it can be secured. It is a necessity.
