THE BURKE COUNTY NEWS THE MORGANTON HERALD Consolidated Nov. 29, 1901

Subscription Price, \$1 Per Year In Advance

VOL. XXI.

MORGANTON, N. C., MARCH 1, 1906.

No 46.

THE NEWS OF THE NEIGHBORHOOD.

A Batch of Live Items Culled from the Papers of the Adjoining Counties.

CATAWBA.

Newton Enterprise, Feb. 22nd.
Mr. John Howard, of Caldwell township, says there were six tea children at one house on his place Sunday afternoon and every one had the whooping cough. As soon as one would pitch the tune all would join in the music, and such a coughing you never heard.

Dr. Charles Lowe, son of Mr. and Mrs. G. W. Lowe of this place, who is a resident of Oregon, has recently taken the 33rd degree in Free Masonry. He will be 40 years old in November, and the Ore. papers say he is the youngest 33rd degree Mason in the United States.

CALDWELL.

Lenoir News, Feb. 23rd.
The Lenoir Pressed Brick Co. expect to organize next week.

Last Tuesday at noon, Mr. Jessie Ingle, of Monroe, N. C., was married to Miss Dora Nelson, of Patterson, N. C., at the home of the bride's mother, Rev. Albert Sherrill, of Lenoir Circuit, officiating. Mr. Ingle is a son of Rev. John Ingle, of Blowing Rock, and has been in business for some time at Monroe. Miss Nelson is a daughter of the late W. R. Nelson and is an estimable young woman. The newly wedded pair took the afternoon train here Tuesday for their home in Monroe.

What was Sampson's wife's name? That is the all-absorbing and unanswered question. It has brought many a dust-covered table from its hiding place and there has been more searching of the scriptures since last Thursday than in any other week in the history of the county.

One of Capt. P. W. Carpenter's hens one day last week laid a remarkable curiosity in the shape of an egg. It is a twin egg, or rather two regular size eggs, joined together by a small cartilage. They have only a thin transparent covering, and the interior of one is all white and that of the other all yellow.

The Methodist congregation has grown so large in Lenoir that the Stewards of the church have been forced to buy 50 folding chairs to be used in the aisles. A new church for this growing congregation is a necessity of the near future.

Mr. Andrew McAnse, of Chicago, has been in Lenoir for a few days looking over the furniture industries of the town. Mr. McAnse is of the firm of McAnse, Duger & Co., who handle the output of the Kent Furniture Co. and the Lenoir Table Works. He would like to contract for the output of at least two more factories at this place if he can.

Other Caldwell Items.

Lenoir Topics, Feb. 21st.
Mr. and Mrs. J. G. Hall left Thursday for Richmond, where Mrs. Hall will take a course of treatment in the hospital.

Messrs. Robert and William Farthing, of Gameville, left Tuesday on their way to Garfield, Wash., where they will make their future home.

Rev. Geo. Church received by express Thursday from Valle Crucis farm three fine white Wyandott chickens. He intends to make a specialty of this kind of chicken.

Minerva school house in Hickory township was burned down last Friday morning. About nine o'clock a man, who was passing called out that the house was on fire, and rode on. The teacher, Mr. Baxter Baker, and the scholars did all they could to stop the fire, but was unsuccessful. It caught between the ceiling and roof from a spark from a stove-flue, and was well under way when discovered. The school has been running about three months. It will not be resumed this year.

The money remaining to the district from the apportionment will be used in the building of a new house for next winter's school.

The Piedmont Grocery Co. will wind up their affairs here by the last of the month and discontinue this branch. The stock will be moved to the home concern at Hickory, from which place this territory will be worked.

The "linemen" who are to put up the lines for the electric light plant, arrived in the city Tuesday and will begin immediately to string wire. The men are also busy setting up the boiler and engine for the plant, and all work is progressing rapidly.

Capt. Jones, of Alabama, son-in-law of our countryman, Mr. Joe Hayes, is at Rhodiss now and will rebuild the bridge at that place.

In the spring time you renovate your house. Why not your body? Hollister's Rocky Mountain Tea drives out impurities, cleanses and enriches the blood and purifies the entire system. 35 cents. W. A. Leslie.

A Better Test.

"I've just learned a new charm to tell whether or not a man loves you," says the girl with the bulging pompadour.

"What is it?" asks the girl with the new diamond ring.

"Why, you take four or five apple seeds and name each of them after a particular man, and place them—the apple seeds, I mean—on the stove, and the first one that pops is the one that loves you."

"Hump!" mused the girl with the new diamond ring, absent-mindedly twisting that piece of jewelry about her finger. "I know a surer way than that."

"You do?"

"Yes, indeed. You take one particular man and place him on the sofa in the parlor, and sit close to him with the light a little low, and look up to him very attentively, and if he doesn't pop you know it's time to put another man on the sofa."

ECZEMA, TETTER, SALT RHEUM, ITCH, RING WORM, HERPES, BARBER'S ITCH.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that had resisted all other treatment. Price 25 cents per box. For sale by W. A. Leslie.

McDOWELL.

Marion News, Feb. 22nd.
The town aldermen have bought water meters, which they propose to put in all places where water is used.

On last Thursday morning a box car standing on the siding near the Western furniture factory was discovered to be on fire. The fire had gained such headway that it was impossible to put it out. The car was transferred to the track near the 3 C's depot where all of the car, except the floor, and all the contents were destroyed. The car was loaded with merchandise. It is not known how the fire originated but it is thought that some matches, which were in the car, were ignited in shifting the car around the yard.

On last Thursday J. L. C. Bird, esq., and his son Fred were returning from Asheville and while the train was at Old Fort Mr. Bird went out to buy some apples and was standing on the steps. After purchasing the apples he turned to go back into the car and the train started. He lost his balance and having his hands full of apples he could not use them and he fell to the ground and the train came on leaving him there with its little boy with it. Upon examination it was found that the extent of Mr. Bird's injuries were a broken rib on the left side and a severely skinned arm and shin. Mr. Bird was of course, very much shaken up and suffered a good deal. He is able to be out.

Other McDowell Items.

Marion Democrat, Feb. 23rd.
The water was turned into the mains Thursday and Engineer Cassidy and the foreman went around to try all the hydrants. It looked interesting to see the water pouring forth from the hydrants. All the hydrants were tested to get the air out before making the hose tests for pressure.

Edwin Guy, of the First National Bank returned Wednesday from Spruce Pine, where he had been to put the new bank there in operation. Mr. Guy reports the outlook as exceedingly favorable to a good business and says the new bank's quarters are cozy and well furnished. The fittings for the bank were made here by Mr. Hassler.

For Over Thirty Years.
Mrs. Winslow's Soothing Syrup has been used for over 30 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Fireman Grabbed Flying Eagle.

The fireman and engineer who took the Rocky Mountain Limited out of here last Sunday morning captured an immense American eagle as it was flying in the air. The experience is probably unique in railroading.

The unfortunate king of birds will spend the remainder of his days in satiating the wondering gaze of the crowds at City Park. The eagle measures 7 feet and 4 inches from tip to tip.

It was about 1 o'clock Saturday afternoon when nearing Limon that the engine crew noticed the bird flying low and straight ahead of the train. The train was then traveling at from sixty to sixty-five miles an hour, and if it did not change it course it was evident that the eagle would be overtaken. The bird was on the left side and as the engine flashed by the fireman reached out and grabbed the bird by the leg and pulled it into the cab. With the aid of the engineer the big fellow was downed and tied, but it took quite a fight.

STRIKES HIDDEN ROCKS.

When your ship of health strikes the hidden rocks of Consumption, Pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for Consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with Pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave me relief, and one bottle cured me." Sure cure for sore throat, bronchitis, coughs and colds. Guaranteed at John Tull, and W. A. Leslies, drug stores, price 50c and \$1.00. Trial bottle free.

THE COLONEL'S WATER-LOO.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure, Dyspepsia, Biliousness and Kidney Disease, by W. A. Leslie and John Tull, druggists, at 50c a bottle.

CASTORIA

For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Wm. D. Dr. J. H. Watson*

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

Be sure that this picture is in the form of a label on the wrapper of every bottle of Emulsion you buy.

All Druggists.

Lovers' Signals.

Sometime ago a young fellow of Concord was married to a fine young woman of that town. He was engineer of a freight train on the Southern road and every night that he passed through Concord he would let the people of the town know that he loved his wife. His signal was the whipporwill's call, and he could play it with the whistle coat to perfection. We are reminded of this by an incident in a little town in Pennsylvania.

The residents for some time past, it is said, had been alarmed by the apparent erratic tooting of the big whistle at the water-works station, which is used to signify the hours when the crews change. But the mystery was explained by the discovery that a member of the crew had been using the whistle for an original purpose. The member of the pump station force has a sweetheart whose home is across the Allegheny River, on the hill above Ford City. In order to keep in communication with her the young man devised a set of signals with the whistle, each toot meaning some particular word or sentence and when he had the scheme completed he gave the young woman a copy of the code and she lost no time in committing it to memory. When the young man is at work and wants to give the maid some message, such as "I'll be around to night," he steps to the string that controls the whistle, gives it the number of toots required by the code and away goes the message sailing across the river in a moment's time.

We love incidents of this sort. The Concord's "whippor-will" at first a source of annoyance to sleepy people, became a love note, when they understood it, and they would remain awake at night to hear it. The lovers, God bless them! And may there be always a clear atmosphere for their signals.

Would you not like to talk every day to thousands of people about your business?

If so, there is one agency that will enable you to do this successfully—the reliable, up-to-date newspaper. Years ago it was the custom of statesmen to travel thro' the country making speeches in various places. They did this to familiarize the people with public questions of the day. It was necessary then to make these speeches because there were but few newspapers. Now when a campaign is begun only a few speeches are made. They are made for the purpose of being reported and published in the newspapers. Statesmen formerly addressed an audience of a thousand people, while the speaker of today, through the newspapers, addresses an audience of several hundred thousand. Just so it is with business men. They formerly advertised their goods thro' circulars in the neighborhood in which they lived. Now the conditions have changed and the newspaper is used for advertising purposes. Circulars and all scheme advertisements are discredited and the newspaper is the one desirable, successful medium.

—Merchants' Journal.

AFFLICTED WITH RHEUMATISM.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald-Addington, Indian Territory. "But thanks to Chamberlain's Pain Balm an able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by W. A. Leslie.

An expert announces that the differences between the Agricultural Department's cotton reports and the real statistics, does not amount to a drop in the bucket. Possibly not; but it has amounted to a good many drops in the "bucket shop."

By Way of Comparison

At the bottom is a picture of a farm on which our fertilizers were not used. Notice the very poor growth? At the top, there is a photograph of the field of a planter who believes in the liberal use of only

Virginia-Carolina Fertilizers.

See the good, even stand, and tall, luxuriant plants? You can see many other interesting pictures of farms like those on which the crops of poor and good yields are compared. In our large, pretty albums, ask your dealer for it, or send us in stamps to pay the cost of wrapping and postage. "Increase your yields per acre" by using Virginia-Carolina Fertilizers. Buy no others.

Full instructions in the "Royal Baker and Pastry Cook" book for making all kinds of bread, biscuit and cake with Royal Baking Powder. Grats to any address.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

Ahead of Miss Pullman.
News and Observer.
They say that Miss Pullman names all the cars made at her papa's factory. If you have looked to see the names of Pullman cars you have wondered how the names were manufactured. The young lady is a genius, if by herself she invents those remarkable names. It is gratifying that the new Pullman for the President's daughter is named "The Republic." We might have expected it to be "Aliceworth" or "Longroose" or something like that.

The late Col. James Fauntleroy Taylor was the most famous maker of names Raleigh has produced, but neither Miss Pullman nor Col. Taylor could equal the young college men who named the college annuals. The college yells are simple and idyllic compared to the college annuals, as the following simple names given show:

North Carolina, Yackety Yack; A. and M., Agromee; Leland Stanford, Quad; Tulane, Jambalaya; West Virginia, Monticola; Western University of West Virginia, Murrumontis; Syracuse, Onondagan; Ohio State, Makio.

If the Pullman company should need assistants to help name the cars it would do well to employ the young men who name the college annuals. It would be a guarantee of unique and unusual names.
