Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only treatable, but are the direct result of indigestion. All food taken into the stomach which falls of perfect digestion ferments and poisons the stomach, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

The State Fair.
The next State Fair, Oct. 15 to
20, will be the best ever held in
North Carolina. The Fair will be
opened by Governor R. B. Glenn
on Tuesday, Oct. 16.

There have been great improve-
ments in the grounds and build-
ings, particularly in the accommoda-
tions for the agricultural and
live stock displays, and an abun-
dant supply of good water.

The feature of the displays will
be the competitive county ex-
hibits in handsomely decorated
booths.

The general displays, particularly
of labor-saving farm machinery,
will repay anyone's careful inspec-
tion.

On the Midway there will be no
gambling games, but it will be
packed with high class shows and
amusements. Every foot of space
will be taken, and the Midway will
be a brilliant scene with the carred

Mr. Spainhour's Reply to Mr. Justice.

I see in your issue of the 13th
inst. a lengthy article from Mr.
George Justice, which I confess is
a great surprise to me. He seems
to be out of humor with everybody
in general and with me in particu-
lar. I am not conscious of having
in any way mistreated him. He
wrote me after his nomination ask-
ing for a joint campaign, and ask-
ing in the same letter where we
could meet to arrange for it. I
replied, in a few days, saying I
would be glad to accommodate him
to a joint campaign, and that I
would meet him in Rutherfordton,
his home, on Monday of court,
the same being August 20th, thinking,
of course, that he would be at
home then—that a lawyer must
attend his own court. I received
no reply to this letter, so I took it
for granted that the time and
place was satisfactory, so accord-
ingly I went to Rutherfordton.

He was not there. And from that
day until the article of the 13th
appeared, more than three weeks,
I have heard not one word from
him, and, yet, he insists that he is
wanting a joint campaign, and
that I am trying to dodge it. If
he could not be at home on Mon-
day of his court, the day set for
our meeting, he could, at least,
have written me a card saying so.
This, he did not do. If he had not
left time to write, he could surely
have left word with some friends,
saying he had a pressing engage-
ment, and that I must call again.
He did not even do this. If his
call away was so sudden and ur-
gent that he neither had time to
write a note or leave a message,
surely he has not been so pressed
for three weeks that he could not
find time to drop me a card sug-
gesting another time and place of
meeting, particularly when he was
so anxious for a joint discussion.

He asks why Mr. Crawford and
I did not offer him a division of
time while in Rutherford. Mr.
Crawford and myself agreed as we
went to Rutherford that we
would ask Mr. Britt and Mr.
Justice to speak with us. Mr.
Justice was there, and Mr. Crawford
kept his agreement, but Mr. Britt
declined. Mr. Justice was not
there, and, therefore, it was im-
possible for me to keep mine.

Mr. Justice says that while I
was in Rutherford, he was in Hen-
derson and Polk. This statement
astonishes me, for two reasons.
First, because I went the next
week after I was in Rutherford to
Henderson and Polk, and found
no one who had seen Mr. Justice,
the previous week, and for the
further reason that I was told in
Rutherford that he was in Marion,
and had been since the Friday be-
fore, and I was also told in Marion
that he had been there, that he
stayed five days, and left on Wed-
nesday of the week Mr. Crawford
and I spent in Rutherford, and
that he did not go towards Hen-
derson and Polk, but took the east
bound train.

He surprises me again by say-
ing that I am telling the people
that the lawyers are against me.
So far as I know, I have the friend-
ship of every lawyer in the district,
and the support of every Demo-
cratic lawyer, and I will be allowed
to add that there is no class whose
friendship and support I more
highly appreciate.

He also gives Mr. Crawford a
note of warning. This was hardly
to be expected. One would have
supposed that he was for Mr. Britt,
and would have been only too glad
for Mr. Crawford to make a mis-
take.

Again, he says, that I am claim-
ing to be the only impartial Soli-
citor the district ever had, su-
perior to Judges Webb, Osborne
and Montgomery. I have made no
such statement, and I have made
no statement from which such con-
clusion could be drawn. I have
said and still say that I have tried
to make a faithful and impartial
Solicitor, but I have made no criti-
cism of my predecessors and have
none to make.

HON. B. F. DAVIS,
Burke's Representative in the last
Legislature, and now a Demo-
cratic nominee for the
State Senate.

Mr. Justice complains that I
have forced myself on the Demo-
cracy of Rutherford county. I do
not know upon what this state-
ment is based. Every time I have
been a candidate the democracy
of Rutherford county, both in con-
vention and at the polls, has given
me its support. In fact, I am will-
ing to compare my record with
Mr. Justice's in Rutherford and
Polk where we have both been be-
fore the people.

In 1896 Mr. Justice was the
Democratic nominee for the House
of Representatives from Ruther-
ford county, and was defeated by
Mr. Ferguson. In 1902, I was the
nominee of the Democratic party
for Solicitor in this district and
carried Rutherford county by a
majority of 948. After this defeat
of Mr. Justice in Rutherford he
moved to Polk county, and in 1900
was the Democratic nominee for
the House of Representatives in
Polk county, and was again de-
feated, this time by Mr. John Mc-
Farland. In 1902, I, as the Demo-
cratic candidate for Solicitor,
carried Polk county by a majority
of 372. After this defeat, Mr.
Justice moved back to Rutherford
county, and in 1903 joined the
Republican party.

In the face of this record, it is
hard to see how Mr. Justice's criti-
cism of me, or his compliments
of himself, could be expected to have
much weight.

I wish to assure Mr. Justice in
conclusion, that I will be with him
at the places designated in his
article, and at as many others as
it is possible for me to attend
without neglecting the duties of
my office.

Respectfully,
J. F. SPAINHOUR.
Cozy Homes.
The discovery of a new wick
principle—so effective and yet so
simple that it's a wonder no one
thought of it before—has so revo-
lutionized the manufacture of oil
heaters and lamps that explosions,
smoke and smell, caused by imper-
fect wick arrangement, may safely
be regarded as things of the past.

This new wick attachment is to
be found on the Perfection Oil
Heater. Interesting tests show
that, although the heater gives in-
tense heat, the wick cannot be
turned too high or too low—ab-
solute safety thus being assured.
One other feature which is worth
mention is the smokeless device
which prevents all smoke and
odor.

The portability of the oil
heater also commends it for gener-
al household use. Heater is very
light and can be easily carried
about. Its simple operation, use-
fulness in heating water and
warming cold rooms make it a
most handy and useful article in
any home. This heater is so far
superior to other oil heaters, and
is of such far price that its uni-
versal adoption is but a matter of
time.

Get SCOTT'S Emulsion

When you go to a drug store
and ask for Scott's Emulsion
you know what you want; the
man knows you ought to have
it. Don't be surprised, though,
if you are offered something
else. Wines, cordials, extracts,
etc., of cod liver oil are plenti-
ful but don't imagine you are
getting cod liver oil when you
take them. Every year for thirty
years we've been increasing the
sales of Scott's Emulsion. Why?
Because it has always
been better than any substitute
for it.

The Indians Increasing, Not Diminishing.

Those who are given to lament-
ing the "passing of the red man"
are evidently premature. From the
best data that can be obtained
there are more Indians in North
America than there were when
Columbus rediscovered the contin-
ent. Of course no accurate esti-
mate could be given at the time
the whites landed here, but the
census reports for 70 years show
that the number is increasing in-
stead of diminishing. It may be
some of this increase is due to
mixed bloods, but the statement is
made that the fall bloods are more
numerous now than at any pre-
vious time in our history. Better
food, a more rational life and less
fighting may be set down as the
main causes of increase. As the
Indians leave the savagery behind
them and adopt the methods of
civilization it is but natural that
their numbers should increase.

Those who look forward to the
end of the race will be disappoint-
ed.

A CERTAIN CURE FOR CROUP—USED FOR TEN YEARS WITHOUT A FAILURE.

Mr. W. C. Bott, a Star City,
Ind., hardware merchant, is
enthusiastic in his praise of
Chamberlain's Cough Remedy.
His children have
all been subject to croup and
he has used this remedy for the
past ten years, and though they
much feared the croup, his
wife and he always felt safe
upon retiring when a bottle of
Chamberlain's Cough Remedy
was in the house. His oldest
child was subject to severe at-
tacks of croup, but this reme-
dy never failed to effect a
speedy cure. He has recom-
mended it to friends and neigh-
bors and all who have used it
say that it is unequalled for
croup and whooping cough.

Production of Alcohol Will Be In-creased.

The bill passed by the last Con-
gress to promote the use of al-
cohol in the arts, by allowing its
sale free of tax when "doctored"
with something that will make
it durable, is expected to give a
great impetus to the production
of alcohol. Alcohol can be made
from a great variety of articles
at a very cheap rate. Most of
the 60,000,000 gallons now made
in the United States is used for
whiskey and the like, the price—
\$2 30 to \$2.50 a gallon—prevent-
ing its large use in the arts. The
first effect of the act will be, it is
said, to displace the 12,000,000
gallons of wood alcohol now
used in making paints, varnishes,
etc. In England alcohol has been
"denatured" by mixing
with it 10 per cent. of methyl
alcohol and 3 per cent. of benzine,
but the methyl alcohol will here-
after be reduced to 5 per cent.
So treated it costs from 25 to
35 cents a gallon.

Although alcohol has far less
heating capacity than gasoline,
the best experts believe that it
will develop a much higher per-
centage of efficiency in motors
than does gasoline. Since gaso-
line represents only about 2 per
cent. of the petroleum which is
refined, its supply is
limited and its price must con-
stantly rise, in view of the enor-
mous demand made for it for
automobiles and gasoline en-
gines in general.
