OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure an healthy, as it should be, but is infected with poisonous germs or some of blood taint which has corrupted and polluted the circulation. Those mo usually afflicted with old sores are persons who have reached or passed mic delife. The vitality of the blood and strength of the system have naturall begun to decline, and the poisonous germs which have accumulated becaus of a sluggish and inactive condition of the system, or some hereditary tair which has hitherto been held in check, now force an outlet on the face, arms legs or other part of the body. The place grows red and angry, festers an eats into the surrounding tissue until it becomes a chronic and stubbor uleer, fed and kept open by the impurities with which the blood is saturated Nothing is more trying and disagreeable than a stubborn, non-healing sore The very fact that it resists ordinary remedies and treatments is good reasol for suspicion; the same germ-producing cancerous ulcers is back of ever old sore, and especially is this true if the trouble is an inherited one Washes, salves, nor indeed anything else, applied directly to the sore, car

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. ad-vertised and commenced its use and after taking it a while I was completely oured. My blood is new pure and healthy from the effect of S. S., and there has not been any sign of the sore since S. S. S. oured it. THOS. promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S.
