The attendance on the convention of some of the postmistresses was not forgotten, but was the text for a really beautiful tribute to woman, whom he likened to "something midway between the roses and the angels."

Letting down to his main subject, Mr. McKesson delivered a most earnest and inspiring address on some of the qualities needed by the postmaster--among them efficiency, promptness and politeness. He emphasized especially the latter. "Pay no attention to the grumblers: life is As the longest part of the road not long enough. Insist on conbe polite to the humblest, as to the greatest."
