Nothing is Better than Dr. Miles' Anti-Pain Pills
They Give Relief Without Bad After-Effects.

It gives me great pleasure to offer a word of recommendation for Dr. Miles' Anti-Pain Pills. I have suffered intermitently for years with headache and after other remedies failed, I tried Dr. Miles' Anti-Pain Pills. For the first ten years I have carried them constantly with me, getting instant relief by using one or two on the approach of headache. They are also effective for neuralgia, giving immediate relief. CLEVELAND.

Shelby Star, April 5th.

Monday was a rather busy day for the county commissioners. Many petitions were presented besides the regular routine of matter they usually have to go through. The tax listers who will list the property this year were named. A new steel bridge has been ordered for the C. C. Beam bridge across Buffalo at New Prospect church. This has long needed repair but it was hard to find timber to keep it up and the commissioners decided to put in one that will be permanent. The new bridge will cost \$1,180. A strong petition was sent in from good citizens asking for a new steel bridge at the Quinn & Harrill mill across Buffalo. Five hundred signatures were to this petition. The wooden bridge was washed away last month and its replacement is badly needed. Action on the matter was deferred. A petition was sent in for a special school tax election in No. 1 township for Prospect school. The election will be held May 4th.

The county board of education met in Superintendent Irvin's office Monday and transacted the usual routine of business. This body meets only four times a year. Recently Mr. J. A. Anthony resigned to accept the recordership and his successor, Mr. M. N. Hamrick of this place, was chosen by the other two members of the board, Messrs. W. L. Plunk of Kings Mountain and L. C. Palmer of Polkville.

Judge J. L. Webb spent this week here with his family. He finished Wake county court last week and goes to Goldsboro in Wayne county to open court next Monday. For some time he will be holding courts in eastern counties.

The affable and likable W. T. Green, better known as "Boss" Green, was here Monday shaking hands with friends and discussing the funny things that happened when he lived here years ago. He is now clerk in the big Henrietta store. "Boss" lived here when his father was in the mercantile business here and it was said that if Boss didn't know a man, he lived in Mitchell. He knew every man and child, horse and dog in the county. He is a stickler to his work—lost only three weeks in 14 years at Henrietta.

The friends of Edgar Kanipe, Eccles Gray, Dobson McCurry and Frank Morpew will be interested to know of their successes in the schools which they are attending. At Oak Ridge, Eccles Gray won a medal on declamation last fall, and he and Dobson McCurry have been selected as two of the commencement speakers. Frank Morpew, at Horner, won a prize this spring and has also been selected as one of the commencement speakers.

The Interurban freight depot will soon be completed if the weather continues favorable. The walls are almost completed and ready for the roofing. It is being built of white pressed brick and will, no doubt, add much to the beauty of that immediate section of the town. Practically all the grading for the shifting yards has been finished. The immense concrete wall for supporting the Southern Railway over the Interurban near the Avon Mill track is being rapidly pushed to completion. A regular schedule has been put into effect between Charlotte and Mount Holly. At present eight cars are being operated between those two towns, the first leaving Charlotte at 7 a. m. and the last one at 9:35 p. m. It is expected that the line will be completed and cars running to Gastonia very soon.

The Watauga wagons continue to bring down load after load of fine apples and Irish potatoes, and we are glad to say they are getting good prices.

One can hardly talk with a Gaston county farmer these days without the subject naturally drifting to long staple cotton. They are enthusiastic on the subject and, if we are not badly mistaken, the crop in Gaston county this season of long staple will be five to ten times as large as it was last year, when more of it was raised than in any previous season.

RUTHERFORD.

Rutherfordton Sun, April 4th.

The Gastonia-Asheville electrical railroad, covering a route 127 miles in length, is practically assured according to R. B. Babington, of Gastonia, one of the members of the board of directors of the company which is promoting the construction of the railroad. "We're going to build the line from the Falls House to the Battery," declared Mr. Babington. "The people along the proposed line are enthusiastic over the prospect of the electric railroad coming, and are assisting in every way possible the proposition."

Mr. George Mathis, a good citizen and an industrious farmer of the Mountain creek section, died at his home Monday night after an extended illness. He was about 43 years of age and is survived by his wife and five children.

A very sad death indeed was that of Mr. W. Miller Eaves, which occurred at his home at Union Mills at an early hour yesterday morning, after an illness extending for several months. The young man held an important position with the street railway in Richmond, Va., for several years, but on account of declining health was forced to give up his work there about the first of the year and returned home with the hope that a rest and change of climate would benefit him. However, this was of no avail. He gradually grew worse and passed away on the morning of named above.

The many friends and relatives of Mrs. Nannie Wilkins, wife of W. F. Wilkins, were shocked and grieved to learn of her sad death, which occurred March 25th, at her home in Mena, Ark. She was the daughter of the late Miller and Mary McKinney, of Rutherford county, well-known and highly respected citizens. She was married to William T. Wilkins December 9th, 1869. She was 64 years old. She was born and reared in Rutherford county.

CATAWBA.

Newton News, April 5th.

It can't be very far wide of the mark to say that nothing ever stirred more bitterness among our people in North Carolina than the stock law; men felt about it at first as the mountaineer feels about the internal revenue laws. They were being robbed of an inalienable right, and they walked about in wrath. To-day there is not a county or township in North Carolina where stock law is in force that wouldn't take up arms to prevent a repeal of the law. And yet there still remains some counties that have no such law, and scrub cattle and fever ticks abound in such places. Harnett county recently voted down the law. Other eastern and near eastern counties have no stock law, and the presence of the tick in these counties constitutes a menace to other counties from which the tick has been eradicated. It would seem that, viewing the benefits of the stock law at work in most of the state, the legislature would be justified in enacting a sweeping, state-wide law that would once for all put an end to this relic of a day that has passed and gone forever.

ALMOST A MIRACLE.

One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 215 pounds. For many years our family has used this wonderful remedy for Coughs and Colds with excellent results." It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at W. A. Leslie.

THE AVERY VIM SAYS THAT DAVID VAUGHT, AGED 18, WHILE OILING MACHINERY AT WHITE LUMBER CO.'S SAW-MILL MARCH 25TH, WAS CAUGHT IN THE LINE SHAFT AND BEFORE THE MACHINERY COULD BE STOPPED WAS WHIRLED ABOUT THE SHAFTS. THE IMPACT TORE EVERY BIT OF CLOTHING FROM THE BODY, WRENCHED THE RIGHT ARM FROM ITS SOCKET, AND BROKE ONE LEG IN TWO PLACES, BUT IT IS THOUGHT HE WILL LIVE. THE PAPER ALSO REPORTS THE DEATH OF WILLIAM, CHARLES AND JACK CHANDLER, IN THE MINE DISASTER, AT JED, W. VA. THEY WERE SONS OF B. B. CHANDLER, FROM AVERY COUNTY.

Catawba Leads the Way

Raleigh News and Observer.

The most serious objection to a primary is a second primary. It imposes a fearful strain upon the vitality of the party. It accentuates personal bitterness. It entails great expense upon the candidates.

The Democracy of Catawba county recognizing the evils and burdens of a second primary, has set the State an example by adopting the Wisconsin preferential primary. We believe that the resolution in favor of the adoption of this plan offered at the recent meeting of the State Democratic Executive Committee by Hon. E. L. Travis, and supported by Hon. E. J. Justice, was defeated because it was to most of the men present "something new under the sun," and had not been studied, considered and digested by the people of the State.

It is a fair presumption that in a second primary the men who supported the candidates still in the race, will stick to their first love. The result of the second primary will be determined by the second choice of the men whose first choice is no longer in the race. Therefore, the object of the second primary is to ascertain the second choice of the men whose first choice has been eliminated on account of being the lowest man in the first primary. The Wisconsin plan ascertains this second choice in the first primary, ascertains it with fairness and accuracy and without bitterness and expense. To illustrate: In a county primary there are three thousand votes cast. There are four candidates for the nomination for sheriff. The count shows that the candidates received first choice votes as follows:

A.....1,200
B.....800
C.....600
D.....400

Total.....3,000

No candidate has received a majority. D is dropped out. An examination of the ballots cast for him shows that these men voted their second choice as follows:

A.....200
B.....100
C.....100

Total.....400

We add these votes to the first choice votes of A, B and C, giving:

A.....1,400
B.....900
C.....700

Total.....3,000

Still no one has a majority. Now C must be dropped out and the ballots cast for him as first choice show that these men voted their second choice as follows:

A.....200
B.....300
D.....100

Total.....600

D being eliminated, the votes cast for him are discarded, but we add to the votes of A and B the number of votes they received as the choice of the men whose first choice was C, giving:

A.....1,600
B.....1,200

Total.....2,800

A having a majority of the total vote of 3,000, is declared the nominee of the party. It will be observed that no man's votes are taken away from him as long as he is in the race. The men whose first choice has lost out are allowed to vote their second choice, and this is exactly what happens in a second primary.

When once we eliminate the personal equation and consider the plan in terms of A, B, C and D, the reasons in favor of the preferential primary are so convincing that they must secure its ultimate adoption.

FOR CASH-BASIS BUSINESS.

Wadesboro Ansonian.

Strangers in Wadesboro are surprised at the immense amount of credit business done here. They frequently ask if it isn't very expensive for a merchant to charge so many small articles and then spend a day or more each month trying to collect a great mass of accounts, many of which are lost. We wonder sometimes why some merchant doesn't start a cash store and make it to the advantage of the trading public to do business with him. This old expensive credit system must go, it is doomed and the man who inaugurates a better method is sure to make good.

"I got two bottles of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash and that was all I used to make me a well woman. I am satisfied that if I had done like a good many women, and had not taken your remedies, I would have been a great sufferer. But I started in time with the right medicine and got well. It did not cost very much either. I feel that you are a friend to all women and I would rather use your remedies than have a doctor."—Mrs. MATTIE HODSON, Box 406, Wauchula, Florida.
