SALLOWNESS

This disorder is due to a torpid liver involving the stomach and bowels. To correct the trouble take

SIMMONS RED Z LIVER REGULATOR

(THE POWDER FORM)

When the complexion is sallow and you have specks of vertigo (blind spots) on stooping or rising suddenly and your bowels are irregular, with much flatulence (wind in the bowels) you are badly in need of Simmons Liver Regulator. The liver is the cause of all the trouble and when the liver is at fault, there is nothing more effective. Simmons Liver Regulator quickly restores sound, healthy conditions in the liver, stomach and bowels; sweetens the breath, helps digestion and brings back the ruddy hue of health to the complexion.

Sold by Dealers
Price, Large Package, \$1.00

Look for the genuine with the Red Z on the label. If you cannot get it, write to us, we will send it by mail, postpaid. Simmons Liver Regulator is also put up in liquid form for those who prefer it. Price \$1.50 per bottle. Look for the Red Z label.

JULIUS F. FOUST, Pres., Greensboro, N. C.

Heart Disease Almost Fatal to Young Girl

"My daughter, when thirteen years old, was stricken with heart trouble. She has now had to place her bed near a window so she could get her breath. One doctor said, 'poor child, she is likely to fall dead any time.' A friend told me Dr. Miles' Heart Remedy cured her father, so I tried it, and she began to improve. She took a great many bottles, but she is now as good as cured. I have in Dr. Miles' Heart Remedy." A. H. CANNON, Worth, Mo.

The unbounded confidence Mr. Cannon has in Dr. Miles' Heart Remedy is shared by thousands of others who know its value from experience. Many heart disorders yield to treatment, if the treatment is right. If you are bothered with short breath, fainting spells, swelling of feet or ankles, pains about the heart and shoulder blades, palpitation, weak and hungry spells, you should begin using Dr. Miles' Heart Remedy at once. Profit by the experience of others while you may.

Dr. Miles' Heart Remedy is sold and guaranteed by all druggists.

DEATH OF DR. Wm. P. IVEY.

Man of Great Worth to Community, Prominent in His Profession and Earnest and Faithful in Good Works.

Lenoir Dispatch, June 28th.

Dr. William P. Ivey died early this morning after a brief illness of congestion of the brain. The deceased was one of the most prominent physicians in this section of the State, and a man of worth to the town and community, and had resided in Lenoir for about 22 years. He was born August 23, 1856, and was the eldest son of the late Rev. George Ivey, who was known and beloved all over western North Carolina, whose death occurred in 1890. Mrs. Salina R. Ivey, the widowed mother, who made her home with the deceased, still survives.

After his graduation from Trinity College he took up the study of medicine at the University of Maryland, from which institution he graduated with honors. Soon after receiving his M. D. degree he was elected first assistant physician of the Western hospital for the insane at Morganton, which position he held for six years. In 1890 he moved to Lenoir and took up the practice of his profession and soon became one of the leading physicians of the town and county, and for years was a member of the State Board of Health. For several years he was the resident surgeon of the Carolina & Northwestern Railway Company, and chief medical examiner of Caldwell county for the United States pension board.

As treasurer of the board of stewards of the Methodist church he rendered much valuable service and his place will be hard to fill acceptably. Since the establishment of the Citizens' Light & Power Company he held the office of president and was always identified with matters of vital interest to the town and county. He was also a member of the board of trustees of Davenport College.

In 1887 he was happily married to Miss Mamie Sherrill, daughter of Mr. and Mrs. Elbert Sherrill of Sherrill's Ford, Catawba county, who survives. Of this union seven children were born, of which six survive: Misses Lina J., Sallie, Mary Willie and Majelle; Messrs. Roy and Herbert Ivey of Lenoir. The eldest son, Mr. Vincent Ivey, who died about three years ago. He is also survived by an aged mother, four brothers and two sisters; Mrs. Salina R. Ivey of Lenoir, Messrs. T. N. Ivey, Nashville, Tenn.; J. B. Ivey, Charlotte; G. F. Ivey, Hickory; E. C. Ivey, Lenoir; Mesdames James H. White and George M. Foard, Statesville.

The funeral services will be conducted tomorrow morning at 10:30 o'clock from the Methodist church by the pastor, Rev. C. M. Pickens.

No Funds for Government Use.

Birmingham Age-Herald.

The new fiscal year will be entered upon on Monday next, and the United States government is without funds it can legally use. There is plenty of money in the treasury—in fact, a considerable surplus—and yet Congress has not authorized the withdrawal of a dollar of it. Congress has been for many weeks so political it could not, or rather would not, pass the regular or even the deficiency appropriation bills, and any payments made on Monday will be in direct violation of law, and the officials who take part in such payments are subject to fines and imprisonment.

It is hoped that a deadlock can be avoided by the passage of a resolution this week that will continue appropriations for a temporary period. Congress should after this week cease to be so political it cannot pass appropriation bills. It is over four months to November 5. The present cataclysm is, however, more official than momentous, more on paper than in fact. It is a flurry with little real meaning in it.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

The 25 States in the Roosevelt Convention.

Baltimore Sun.

Of the 25 States represented in the convention that founded the "Progressive" party, how many has Mr. Roosevelt a chance of carrying? Alabama, Louisiana, North Carolina, Kentucky and Oklahoma are in the solid South, staunchly Democratic. New Jersey, New York, Massachusetts, Ohio, Colorado and Montana have Democratic Governors, but all are debatable ground. California appears to be the most enthusiastic Roosevelt State. He swept Pennsylvania in the primaries by 130,000, but it is a question whether these voters will follow him out of the Republican party.

Roosevelt would stand a fine show in Michigan, Minnesota, Kansas, Nebraska, Iowa and the two Dakotas. West Virginia is not put down in the Roosevelt column. The Democrats expect to carry both Maryland and West Virginia by large majorities. A Republican division along the lines of the recent primaries would give the Democrats a fighting chance in Massachusetts. Utah goes as the Mormon Church decides, and Apostle Reed Smoot is a Taft satellite. In Washington and Oregon Roosevelt might cut a wide swath.

If he can seize the Republican organizations in Pennsylvania, New Jersey, Ohio, Michigan, Minnesota, Kansas, Montana, California, Oregon, Washington, North and South Dakota, Missouri and West Virginia, he will be strong in States that in 1908 gave Taft 154 of the 321 electoral votes he received. While he may not be able to carry them himself, he can in most cases prevent Taft from getting them.

Socialists Name Ticket.

Auburn, N. Y., Dispatch, June 20th.

The socialists of New York nominated a full state ticket for the coming campaign at their convention held here today. Charles Edward Russell of New York was nominated for governor and Gustave A. Strebel, of Onondaga county, was named for lieutenant governor.

Mayor George R. Lunn, of Schenectady, was not placed in nomination for any office as it was said he would be nominated for congress in the Schenectady district. The committee on agitation reported in part:

"We call attention to the triumph of the most reactionary elements in both old parties which makes the present moment most favorable for the propaganda of the socialist party. We call attention also to the fact that a new national party may soon be launched ostensibly progressive but really backed by the Harvester trust, the steel trust and similar interests and provided with funds to carry on a gigantic whirlwind campaign, we therefore most strongly recommend that the campaign of the socialist party begin at once to take full advantage of the next few weeks to reach the people's minds before they become intoxicated with hero worship."

The Lid is Off.

Baltimore Telegram to The Philadelphia Public Ledger.

Baltimore is straining every nerve to prove itself worthy of the trust that has been reposed in it.

Not content with decorating itself till it resembles a Fourth of July celebration and arranging excursions for its visitors, it has begun to suspend whatever municipal regulations stand in the way of the embattled delegate's enjoyment.

The Sunday-closing law was forgotten in the press of other things, and the ban has been removed from smoking in the trolley cars.

It is generally understood, however, among the visiting Democrats, that arson and murder are still frowned upon by the local police force.

Prendergast Begins Work Of Organizing.

Lays Cause of New Progressive Party Before People of New York in an Address.

New York Dispatch, June 30th.

The first step toward the organization in New York state of the new party launched in Chicago by supporters of Theodore Roosevelt was taken today by City Comptroller William A. Prendergast. He was appointed to represent his state on the committee formed in Chicago to organize the new party. He laid the cause before the people today in an address to voters.

Provisional organization, Mr. Prendergast says, will be effected without delay and permanent organization will follow as quickly as possible. In his statement he says:

"I submit this appeal to men of all parties and men who have had no previous political affiliations. In the name of the already great number who have expressed their approval of a new political party I ask Republicans and Democrats to enroll themselves in defense of honesty in political work and the advocacy of genuine principles of political, social and industrial reform.

"This new party will not be the result of any sudden judgment passed upon high-handed acts of the Republican national committee and the discreditable work of the Republican national convention. The acts of that convention have rendered it necessary that a new party shall be formed, but the purpose the new movement will serve is one towards which the hearts of millions of men have been directed in the past few years. A new party is a necessity because so many have come to realize the hopelessness of truly efficient and upright government through the agency of either of the old parties unless they could be effectually divorced from the sinister control of those who believe that 'the power to take' is a fitting rule of life.

"There must be no mistaking the gravity or immensity of this task, but it will appeal to those who believe in the moral glory of American Democracy. Let the men who have this faith undertake the labor. The labor involves the contest of every place to be voted for by the people at the coming election from President, congressmen, senators and assemblymen to the lowest office upon the list. The principles we represent are as necessary to the effective betterment of state and local affairs as they are essential to the perpetuation of the national government.

"A provisional organization for the state of New York will be effected without delay, to be followed as quickly as possible by a permanent organization.

"Let every man who has in him the spirit of the minutemen of Concord and Lexington follow the example of a distinguished citizen who has already signified his intention of fighting for this cause, and in doing so said, 'I want to enlist, not for the campaign, but for the war.'"

(Signed)
"WILLIAM A. PRENDERGAST."

One Killed, Three Injured in Collision of Automobile and Fast Train.

Concord Times, July 1st.

Reports of a fatal accident at Newell's reached Concord Friday about 1 o'clock in which Mr. Jamison, proprietor of the Stone-wall Hotel, in Charlotte, was killed and his wife and Mrs. Barnett and child of Hamlet were dangerously injured, when the big Cadillac machine he was driving collided with a fast fruit train at the crossing at Newell's. The car was practically demolished and the occupants hurled a number of feet from where the accident took place. Mr. Jamison's body was badly mangled and it is thought his death was instantaneous. The other occupants of the car were picked up in an unconscious condition and there is much apprehension as to their recovery. They were rushed to a Charlotte hospital for treatment.

WHAT MAKES A WOMAN?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. It's a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, headache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." 50c. Guaranteed by W. A. Leslie.

ALL SKIN DISEASES

Yield readily to treatment with Dr. Bell's Antiseptic Salve. We guarantee it. 25c a box. Sold everywhere.

Portrait of Dr. P. L. Murphy.

Charlotte Observer.

Last week during the sessions of the North Carolina Medical Society at Hendersonville, the House of Delegates, the section of the Society having the business in charge, at the suggestion of Dr. J. Howell Way of Waynesville, authorized the appointment of a committee whose duty will be to arrange for the painting of the portrait of the late Dr. P. L. Murphy of Morganton.

It was a graceful and appropriate action and touchingly suggestive of the splendid service rendered North Carolina in the life of Dr. P. L. Murphy, whose superb work in founding and placing upon an enduring basis the State Hospital at Morganton marked him a leader in his profession. The portrait will be presented to the State Library at Raleigh and will be a lasting monument to both the professional ability and skill as well as the administrative genius of one who has passed on. Dr. Murphy was readily recognized as the South's leading authority in nervous disorders and ranked nationally among the first of American alienists.

In thus honoring one of its most distinguished former members the Society honors the State. Associated with Dr. Howell Way on the committee appointed by Medical Society are two of the older and most distinguished members, both lifelong friends of Dr. Murphy, Dr. R. H. Lewis of Raleigh and Dr. H. T. Bahnsen of Winston-Salem.

Mother-in-Law's Day in Asheville a Dismal Failure.

Asheville Citizen, July 1st.

Mother-in-law's Day was a rank failure.

Notwithstanding the fact that it had been advertised in advance, and that all good sons-in-law had been called on to wear a sunflower if mother-in-law was living and two large sunflowers if she had passed away or was in a foreign country, not the slightest sign of a sunflower adorned the lapel of any Asheville son-in-law.

It was with deep regret and bursting hearts that the young men who started the movement strolled over the city yesterday and saw that their labor had been lost, and that not a sunflower was in evidence. One of them, a single man who has never possessed a mother-in-law, was moved to tears as he stood near the postoffice and saw no evidence of the celebration of the day held sacred to mothers-in-law.

"Flowers, flowers everywhere, and not a sunflower in sight," he exclaimed sadly, as he leaned up against the post and watched the hurrying throngs. "Some day these hard hearted, unfeeling people will realize what a glorious chance they have missed to immortalize Asheville, and will shed bitter tears of regret."

Drs. Hall and Anderson Succeeding at Westbrooke Sanatorium.

Statesville Landmark.

Mr. Chas. E. Mills returned this week from a stay of two weeks in Richmond. While in Richmond Mr. Mills visited Westbrooke Sanatorium, near the city, which is conducted by Dr. Jas. K. Hall, of Iredell, and Dr. Paul Anderson, both recently assistant physicians at the State Hospital at Morganton.

Mr. Mills found the sanatorium a most delightful place and was well pleased with his visit. The building was erected by Major Ginter for a private residence. It is a large, handsome building and there are a number of cottages, all in handsome and spacious grounds, and the place is most inviting as a retreat. It is well filled with patients and the friends of Drs. Hall and Anderson will be pleased to know that they are having good success in conducting the institution.

Tornado's Trail of Destruction.

Winnipeg Dispatch, June 30th.

It is estimated that from fifty to one hundred people were killed and property losses of ten million entailed by a tornado which after a day of thunderstorms and high winds, struck Regina, Sask., at 6 p. m. The local telephone office was wrecked and it is feared that 15 girls employed there were killed. The building, the Standard block, the First Baptist church and the Bottle building are among the structures destroyed.

All wires, except one telegraph wire are down. This one wire is crowded with private messages from people who wish to send word of their safety to their friends and relatives.

A special train left Winnipeg shortly after 9 o'clock with doctors and nurses and telegraph and telephone repairmen.

MAIL CARRIERS WILL FLY.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. E. Davis, Stickers Corner, Me., "after doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection it's unequalled. Price 50c and \$1.00. Trial bottle free at W. A. Leslie's.

Wilbur Wright.

Collier's Weekly.

A powerful American inventor fell before a needless American disease. Whence the fever came is uncertain, but perhaps twenty years of a life, valuable above others, might have remained had our cities met the advancing standards of our time. Whether an obscure atom in that tragedy which shadows all, or a Wilbur Wright, understanding Nature and thereby conquering her, man passes like a flash into the everlasting flux. He who labors unknown may somewhat brighten the radius of this obscure and tiny world; the man of genius, in his talents and his character, has a farther reach, and may be for millions not only a practical helper but a spiritual guide. Wilbur Wright was both. He studied, obeyed, and thereby mastered the forces of the air; and in his quiet persistence he was the model of a man. In all the stretches of this continent you shall not find a more satisfying picture. These brothers, patient, simple and triumphant, do mighty things, and never speak an unwise word; dauntless themselves, they rebuke foolishness that is the parody of courage. Averse by taste and judgment to the search for thrills, to any search for mob applause, they escape any single quality that could belittle their epoch-making conquests, earned in the shop at Dayton, tested along the quiet dunes at Kitty Hawk, seen by the world only when the victory was complete.

The Wrights will go into history as men who have shed a rounded glory; the brilliancy of genius with the sturdiness of character; the seizure of the unknown with the integrity which makes nations great.

Still "Digging" at the South.

Charlotte Observer.

Every little while some writer for the magazines takes the opportunity of "digging" at the people of the South. Usually the subject is "the backwoods people of the South," and from the story the reader would come to the conclusion that the entire South was "backwoods." Every section of this country has its poorer class and its ignorant class and the same stories could easily be written of any other section. Not very long ago a letter came from a woman of Pennsylvania asking for a sample copy of The Observer and in her letter she remarked that she wished to learn something of the South. The paper was sent her; in fact several copies went to the woman and she has written a letter in reply. She says that she had already read much about the ignorance and poverty of the South and she enclosed a clipping. It tells the story of a class of people; she had the idea that it covered the situation, and her heart was touched.

Ask Greyer

For A REAL BLOOD REMEDY.

You cannot enjoy perfect health unless the blood is pure. To be pure it must full of nourishment, rich red in color and circulating freely.

Just the minute the blood ceases to supply nutriment to the surrounding tissues, just so soon you become anemic, tired out and with absolutely no ambition for your daily duties. There is no need of this condition existing. The most satisfactory treatment that we know of is

NYAL'S HOT SPRINGS BLOOD REMEDY

a prescription medicine that is prompt and efficient in its action, cleanses the blood of all impurities, stirs up the circulation to renewed activity and supplies nourishment to body tissues.
