Goldsboro.-The eighty-second an nual session of the North Carolina Baptist Convention, representing 250, 000 members of 2,200 churches scatter ed from the mountain to the sea, fin ished its work several days ago, and adjourned to meet in Shelby in 1913. The closing prayer was offered by Rev. J. D. Huffman, one of the few remaining pioneers of the early days of Baptistic struggle.

The last day was marked by two features. The convention petitioned the legislature to increase the public school appropriation, and urged that all public schools be open at least six months. Then the convention placed itself on record as opposed to continuing to allow the International Sunday School Committee to select the Sunday school lessons of the South ern Baptist Sunday school.

The Woman's Missionary Union re ported to the convention that during the year the offerings of the women's societies had been as follows:

Foreign missions, \$15,133.29; home missions, \$9,086.32; state missions, \$8,609.42; Louisville Training School, \$748.07; Margaret Home, \$168.08; Sun day school board, \$192.04; expense as I could by hand. Two Bodies Do Not Want Union. There was a conference in progress at Raleigh between the members of the state board of agriculture, the trustees of the A. & M. College, the board of directors of the college, and the legislative committee from the 1911 legislature, considering the interests of the college, and the department of agriculture, as involved in the proposed merger of the two institutions for the sake of economy and efficiency. This proceeding is under the Dowd act of the last legislature, which directed a special committee, headed by the president of the senate, Hon. W. C. Why Women Are Not RICH. Man is a millionaire many times over in the possession of blood cells. Wom-

an is not quite so rich, for scientists have proven that the normal man has five milion-the woman only four and a half million to a cubic millimetre of blood. A decrease in number of red blood corpuscles and a person "looks pale"-in fact, is anaemic, the blood does not get the right food and probably the stoma

Dr. R. V. Pierce found years ago that a gayceric extract of golden seal and Oregon grape roots, queen's root and bloodroot with black cherrybark, would help the assimilation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine he

called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person looses those irritable feelings, sleeps well at night and is refreshed in the morning. "I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mr. Jas. D. Livelly, of Washburn, Tenn., Reute 2, Box 33. "All my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure, but Dr. Pierce's medicine has done much for me and I highly recommend it. I heartily advise its use as a spring tonic, and further advise ailing people to take Dr. Pierce's medicines before their diseases have run so long that there is no chance to be cured.
