### electric wires running to the Optimistic View of Japanese Question.

Washington Dispatch, 28th,

Administration officials here are disposed to take an optimistic view of the negotiations with Japan arising from her protest against the California anti-alien land law and believe that a complete understanding almost is in

While there may be another interchange of notes, administration officials feel that the diplomatic correspondence so far has established the friendliness of the United States government for Japan and the absence of intent upon its part to discriminate against Japanese. While there has been no specific solution of the questions arising, it is said a frank understanding of the purposes of the two nations has arisen from the negotiations.

Though nearly two weeks have expired since the delivery to Ambassador Chinda, of the American reply to the last Japanese note, no intimation has reached Washington of a purpose nounced to-day by Postmaster- on the part of the Japanese foreign office to continue correspondence.

> Some of the leading Japanese newspapers today accuse the Japanese cabinet of lack of diplomatic adroitness in the negotiations connected with the Californian alien land ownership legislation. They urge that advantage should be taken of Mexico's friendliness in order to further Japanese cause. At the same time they question the sincerity of the United States.

> M. Hashimoto, vice minister of commerce, made the following statement today in connection with Japanese participation in the Panama Pacific exposition:

"The authorities understand that it is reasonable for Japan mercuants to refuse to exhibit at the Panama Pacific exposition owing to their natural resentment against the alien-land ownership bill, but such participation would ease the situation and the Japanese government hopes that the nation will send as many exexhibi s as possible."

Can't Keep a Good Man Down. The way for a young man to rise is to improve himself in every way he can, never suspecting that anybody wishes to hinder him. Allow me to assure you that suspicion and jealousy never did help any man in any situation. There may sometimes be ungenerous attempts to keep a young man down: and they will succeed, too, if he allows his mind to be diverted from its true channel to brood over the attempted injury. ### COINS NEW WORD.

With Woman Suffrage.

Headquarters of the National American Woman Suffrage Association seethed with indignaion to-day when officers and embers learned that Representative J. Thomas Heflin of Alabama, their most bitter opponent in Congress, had fired another broadside in their camp last night from the pulpit of a local church. In addition to ous terms, Mr. Heflin also gave his definition of suffragists and

"Suffragettes-Unmarried female fanatics. "Suffragettors-The male suffragette. A feeble-minded suf-

frotescent creature." Mr. Heflin explained to-day that the word "suffrotescent" was his own coinage. After some thought he said he believed that "wooden-headed" could be substituted for it without any loss in meaning.
