OVER 65 YEARS' EXPERIENCE

WATERBURY'S

WONDERFUL COUGH REMEDY.

Dr. King's New Discovery is known everywhere as the remedy which will surely stop a cough or cold. Dr. P. D. King's New Discovery is the most wonderful cough, cold and throat medicine ever sold in this country. It can't be beat. It's sold in my store. It's true, because Dr. King's New Discovery will relieve the most obstinate coughs and colds. Lung troubles quickly helped by its use. You should keep a bottle in the house at all times for all the members of the family. Sold at all drug stores or by mail, 50c and \$1.00. All drug stores or by mail, H. E. Buckle & Co., Philadelphia or St. Louis.

STATE NEWS.

Wake county commissioners have let to the Alabama construction company the contract to build a court house to cost \$300,000.

The 1914 Rhodes scholarship from North Carolina to Oxford University, England, has been awarded Paul A. Hubbel, of Marshall.

The North Carolina grand lodge of Masons convened in Raleigh Tuesday 13th, with an exceptionally large attendance. A new Masonic code has been one of the matters under discussion upon which the lodge will take action.

A letter recently from President Francis P. Venable, of Chapel Hill, who is abroad on a year's leave of absence, stated that he has regained his health and will return to America in June, ready to take up again his duties as president of the University.

George A. Linn, a young white man from Marion, met instant death at Whitney Tuesday afternoon in a dynamite explosion. He was employed on the construction work and while stooping over a pit the explosion occurred, blowing off his head and both arms.

Many Caldwell people will recall that about 30 years ago Mr. Dickson Horton, son of the late Col. J. C. Horton, of Clover Hill, Yadkin Valley, disappeared and his father could get no trace of him. Mr. Wm J. Horton, a cousin, who has been tracing him for two years, has succeeded in locating the missing man at Hughesville, Mont. He is a brother of Mrs. A. D. Cowles and Mrs. Dr. Albert Houck, and has many friends and relatives in Caldwell who will learn with pleasure that his whereabouts is no longer a mystery.—Lenoir Topics.

J. T. Combs, of Kellersville, with three women gathered 300,000 ferns in 11 days for which they were paid \$90. Some families gather a million ferns, galax and other evergreens in one season. This seems to be a very important industry in the mountains. Thousands of dollars are paid out every winter for these products which is a great help to many people. Many families, however, do their children in justice by taking them from school to gather evergreens. Farming too, is neglected because money cannot be made as quickly and easily farming as gathering evergreens.—Avery County Vim.

The Southern Power Company closed a trade with Mr. John Arndt for his river farm last week. By the terms of the trade, Mr. Arndt was last Saturday paid \$20,000 and will get another \$20,000 on the first day of July, when the deed, which is deposited with the Shuford National Bank, will be delivered. Mr. Arndt is to remain in possession of the place, free of rent, and farm it as usual this year and give possession January 1st, 1915. By this trade, the power company has acquired all the water rights it needs with the exception of one small tract. The probabilities are that work will begin on the development early this year.—Newton Enterprise.

POSTMASTER EXAMINATION

Time and Place of Holding Examinations For Postmaster at Fourth Class Offices.

Competitive examinations for the position of postmaster at all fourth-class postoffices, at which the compensation is \$180 or more per annum, will be held in North Carolina during the month of February. Examinations will be held at the following places in this section of the State on the dates named:

February 7—Albemarle, Jefferson, Lenoir, Marion, Mocksville, Rutherford.

February 9—Yadkinville, February 10—Wilkesboro, February 12—Sparta, February 14—Charlotte, Concord, Gastonia, Greensboro, Hickory, High Point, Lenoir, Lexington, Morganton, Mt. Airy, Salisbury, Shelby, Statesville, Thomasville, Winston-Salem.

February 16, 18 and 19—Boone, Bakersville and Newland, respectively.

Candidates for postmaster at any of the following offices will be examined at any of the points named above: Barium Springs, Blowing Rock, Catawba, Claremont, Cleveland, Connelly Springs, Conover, Cooleman, Cornelius, East Bend, Elmwood, Eufola, Farmington, Glen Alpine, Granite Falls, Granite Quarry, Hamptonville, Harmony, Hiddenite, Huntersville, Jennings, Jonesboro, Lenoir, Lenoirville, Lexington, Rutherford College, Sherrill's Ford, Troutman, Valdesse, Woodleaf—or any other office not here named, the postmaster of which has not already been examined.

Applicants may be examined at any of the examination points on the dates mentioned without regard to the location of the postoffice at which appointment is desired, but applicants for examination for appointment at any postoffice must reside within the territory supplied by such postoffice. No change in the dates of examination at any of the examination points can be made.

Applicants will be allowed to be examined on only one of the dates mentioned. The application form may be secured from the postmaster at any of the offices for which the examinations are held, the United States Civil Service Commission, Washington, D. C., or the postmaster at any place at which the examination is to be held, and should be properly executed, indicating therein the examination point at which the applicant desires to be examined, and should be immediately forwarded to the United States Civil Service Commission, Washington, D. C. Persons who for any reason are unable to forward their applications to the commission in time to receive written authority to enter the examination will be examined, subject to the subsequent approval of their applications, if they appear for examination at a place and on a date scheduled. Examinations begin at 9:30 a. m.

Mr. Milholland Appointed Deputy Marshal.

Mr. John L. Milholland, of Statesville, who has for several years been deputy clerk of Iredell Superior Court, received his appointment as deputy United States marshal last week. The appointment was made by Marshal Webb while Mr. Milholland was in Greensboro Monday evening and the latter qualified as a deputy immediately thereafter. Mr. Milholland's territory will be Iredell, Alexander, Caldwell, Catawba and Burke counties, with headquarters at Statesville.

Mrs. Lillian Nordica is critically ill with pneumonia at her home on Thursday island, Queensland.

SCHOOL APPORTIONMENT.

State Apportions School Funds—Amount For Burke and Other Counties.

Apportionment of the \$250,000 appropriated by the General Assembly of 1913 for the schools of the State has been made by the State Board of Education. This fund was created out of the State Treasury for the purpose of enabling the schools of the State to fill out the required six months' school term provided for by the Legislature of last winter, and has been apportioned to the various counties according to the school population within their borders.

The new law provides for the setting aside of five cents on every hundred dollars' worth of property in the State is taxed, and this will be apportioned to the various counties later in the year. The total school fund will then, it is expected, exceed \$400,000.

The following shows the school population and apportionment of counties in this section:

Iredell, school population 11,609, apportionment \$3,806.04; Alexander, population 4,263, apportionment \$1,373.96; Burke, population 6,982, apportionment \$2,256.29; Cabarrus, population 9,766, apportionment \$2,926.15; Caldwell, population 6,766, apportionment \$2,180.68; Catawba, population 10,565, apportionment \$3,405.09; Davidson, population 10,158, apportionment \$3,273.92; Davie, population 4,573, apportionment \$1,473.87; Lincoln, population 6,390, apportionment \$2,059.49; Mecklenburg, population 23,388, apportionment \$7,537.95; Rowan, population 12,547, apportionment \$4,004.89; Stanly, population 6,404, apportionment \$2,064; Watauga, population 4,370, apportionment \$1,408.45; Wilkes, population 11,284, apportionment \$3,636.83; Yadkin, population 5,460, apportionment \$1,759.75.

Rutherford College News.

The opening of the school here for the spring term was considered the best for a number of years.

Prof. A. T. Abernathy and wife, of Philadelphia, Pa., are spending a few days with relatives here.

Miss Bell Bright, of Bridgewater, spent the week-end here with her mother, who has been confined to her bed for some time.

Prof. W. T. Hinshaw made a business trip to Morganton Saturday.

H. M. Welman spent Saturday with Charlie Drury, near Morganton.

Oliver Hayes, of Granite Falls, was a visitor here Saturday. He was accompanied by his brother, Joe, who expects to enter school here.

Miss Lucile Goode was a visitor in Hickory Saturday.

Aunt Mary Fowler, a very old lady here, is very feeble.

Rutherford College, N. C., Jan. 12th 1914.

Representative Carlin of Virginia has interested himself in the movement to have Martha Washington's will returned to the Fairfax Court House, Va., from the private collection of J. P. Morgan. The will disappeared from the court house records during the civil war. Virginians say it was stolen. Last year it was discovered in Mr. Morgan's collection. Officials of the Daughters of the American Revolution have a letter from the late J. P. Morgan's librarian declining to give up the will. Legal action will be taken to recover it.

THE PARCEL POST.

Mails During Recent Holidays Heaviest in Morganton's History.

The heaviest mails in the history of Morganton were handled during the recent Christmas holidays. Never before has such an enormous amount of mail been received or dispatched during the holidays here. Wagon loads were hauled to and from the trains and an average of 60 to 100 bags were handled each day. There was no congestion, however, as preparations were made beforehand to handle it all on time. On Christmas day parcel post packages were delivered to many houses.

And the rates were so low that this proved the most economical Christmas, as far as carriage was concerned, people have ever experienced.

The reports from all over the country are to the effect that the first Christmas trial of the parcel post was a complete success.

On the first day of January important changes went into effect which will greatly increase the usefulness and popularity of the system.

In zones 1 and 2 the weight limit of a single package has been increased from 20 to 50 pounds. The charges remain 5 cents for the first pound and 1 cent for each additional pound.

"Third Zone—Six cents for the first pound and two cents for each additional pound or fraction thereof. This is a reduction of one cent on first pound and three cents on each additional pound.

"Fourth Zone—Seven cents for the first pound and four cents for each additional pound or fraction thereof. This is a reduction of 1 cent on first pound and 2 cents on each additional pound.

"Fifth Zone—Eight cents for the first pound and six cents for each additional pound or fraction thereof. This is a reduction of one cent on first pound and one on each additional pound.

"Sixth Zone—Nine cents for the first pound and eight cents for each additional pound or fraction thereof. This is a reduction of one cent on first pound and one cent on each additional pound.

The weight limit in third, fourth, fifth and sixth zones is increased from 11 to 20 pounds.

FORD'S EXPERIMENT.

\$10,000,000 to Men of Ford Motor Company.

The event of interest in the industrial world the past week was the announced revolution in the business methods of the Ford Motor Company. This consisted in raising the minimum rate of wages from \$2.34 a day to \$5 a day, in dividing a gift of \$10,000,000 among its employees, the taking on of a large number of extra workmen and the division of its work hours into three shifts of eight hours each, making a continuous run of the factory. Of course Ford gets a tremendous amount of advertising out of this, and in the final analysis he is expected to make \$45,000,000 in profits, where he has been making \$20,000,000. This he will be able to do by the never-shut-down plan through the eight-hour shift and the increase in the number of workmen. The extraordinary success of Henry Ford in the manufacture of automobiles has been brought visibly to the front by this recent departure. It develops that this company manufactures one-half of the total of 400,000 machines turned out in this country, the output of the Ford factory having jumped from 75,000 to that figure in little less than a year. This success has been attributed entirely to the type of motor—this and the territory covered by the salesmen and capacity of production. What the industrial and manufacturing world will be mainly interested in, however, is the trial of the eight-hour shift. The net result, it is expected, will be the amassing of a profit that will more than justify the increase in wages and the distribution of the prize money.

[Messrs. Gaither and Collett are the Morganton agents of the Ford Motor Company.]

ROYAL BAKING POWDER

ABSOLUTELY PURE

Insures the most delicious and healthful food

By the use of Royal Baking Powder a great many more articles of food may be readily made at home, all healthful, delicious, and economical, adding much variety and attractiveness to the menu.

The "Royal Baker and Pastry Cook," containing five hundred practical receipts for all kinds of baking and cookery, free. Address Royal Baking Powder Co., New York.

Atlantic Coast Storm.

The first of last week a terrific storm on the Atlantic and along the eastern shore of the United States did much damage to shipping and to a number of seaport towns and cities, and completely wrecked the 4,000-ton American tank steamer Oklahoma sixty miles off Sandy Hook. It was at first believed that there were but eight survivors, and until Thursday only thirteen of the crew of 35 men had been accounted for. The Oklahoma broke in two amidships without warning early Sunday morning just off Barnegat.

Seabright, N. J., suffered an estimated loss of a million dollars from the storm, and at Atlantic City many fine cottages were demolished and a large part of the board walk destroyed. Several big shore hotels were threatened by undermining waters, and the loss reached at least half a million, leaving several hundred homeless. On Long Island and at other points also, great damage was sustained.

WEAK, WEARY WOMEN

Learn the Cause of Daily Woes and End Them.

When the back aches and throbs, When housework is torture, When night brings no rest nor sleep, When urinary disorders set in, Women's lot is a weary one. Doan's Kidney Pills are for weak kidneys. Have proved their worth in Morganton.

Here is one Morganton woman's testimony:

Mrs. D. A. Rich, Old Mill Hill, Morganton, N. C., says: "I was nervous and dizzy, my head ached and I did not sleep well. The kidney action was also irregular. Finally, I used Doan's Kidney Pills, procured from the Burke Drug Co., and they made me entirely better. Another of the family suffered from kidney trouble and backache. Doan's Kidney Pills made him strong and well."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Notices to post land for sale at THE NEWS-HERALD office.

THE ANSWER TO THE HEADACHE

Bro-Mal-Gine

Are You Getting Any of the Profits of the Catawba Creamery?

In three short years the farmers of Catawba County have worked a veritable miracle. Starting with practically nothing, they have developed The Cooperative Creamery that is already selling thousands of dollars' worth of their products yearly, and which bids fair to jump to \$500,000 a year in the very near future. At first there were less than 400 cows involved; now there are more than 1,500. Herds are being graded up, silos built, new roads constructed, and schools and churches erected, and everyone connected with the movement is enjoying more comforts and luxuries and taking more interest in home betterment—all this from a cooperative producing and selling of butter. To better the farmers have added eggs and poultry, in which they have built up a good-paying business. Now they are going on to more extensive and more profitable cooperative enterprises.

Catawba County is on the road to the biggest genuine success in the history of North Carolina. The story of the achievements of this great cooperative movement and of the plans for the future is told in the article,

THE BUTTERFAT UPLIFT

By BARTON W. CURRIE

which starts in

The COUNTRY GENTLEMAN

Dated January 17

The Article will be Concluded in Next Week's Issue

But in Addition to the Cooperative Creamery Feature, You Will Find in This Week's Issue all These Articles:

Old Farms Made New. Replanting the live-stock farm on farm-management principles.

Expensive Errors. Carelessness in sampling and testing milk means heavy loss.

Measuring the Dairy Cow's Efficiency. The results of some recent experiments.

Sweet Corn as It Pleaseth God's Will. How seven men got together for the benefit of the community.

Especially for the Women

Milk—Their Natural Food. Some suggestions for baking bread and cake and other delights.

A BRONCHIAL COUGH

is wearing and dangerous because the inflamed, mucus-filled tubes interfere with breathing and the fresh air passes through that unhealthy tissue.

Probably no other remedy affords such prompt and permanent relief as Scott's Emulsion; it checks the cough, heals the linings of the throat and bronchial tubes and strengthens the lungs to avert tuberculosis. This point cannot be emphasized too strongly—that Scott's Emulsion has been suppressing bronchitis for forty years and will help you.

Be careful to avoid substitutes and insist on SCOTT'S.

AT ANY DRUG STORE.

Children like to take Dr. Miller's Laxative Tablets.
