BAPTISTS OF STATE SUPPORT MISSIONS.

Secretary Livingston Johnson Says Apportionment is More Than Reasoned.

Rev. Livingston Johnson, corresponding secretary of the North Carolina Baptist Board of Missions, announced to-night in connection with the approaching annual session of the Southern Baptist Convention at Nashville, Tenn., May 13, that North Carolina will make a very fine showing, having raised more than her apportionment, which was \$52,000 for foreign and \$35,000 for home missions.

Old Soldier for Webb.

As Congressman Webb is a candidate to succeed himself I will say to you that I endorse every word you say in his behalf, and further say that I think it is due Mr. Webb that he should succeed himself at this particular time. It seems to me that Mr. Webb is just now in the white harvest position to serve his district better than heretofore. Having stood like a stone wall fighting for the fundamental principles of Democracy for nine years under the iron clad rule of Joe Cannonism, when a man had to beg for a chance to speak, it is a wonder to me that he succeeded as well as he did. Standing at the head of all the districts in regard to the appropriations for public buildings, Mr. Webb stands at the head of his class.

Mr. Preston, his opponent, is a very good man, young enough to keep good for a while yet. I don't think it would be wise to retire Mr. Webb for any man while he is doing so much for his district. "It is a bad place to swap horses in the middle of a stream unless you know you are getting a better one." The only plea that I see is that somebody else wants his job. That is about all that is in it.

What has Mr. Webb done? I have been greatly interested in the work Mr. Webb has done in Congress.

First—There has been 60-odd congressmen elected from this country to represent the people. And yet it remained for E. Y. Webb to frame the bill and make the speeches that opened the eyes of the American people in regard to the Kings Mountain Battle Ground to appropriate the money to build a monument to stand there in honor of the grand old heroes who fought that battle, which was, in my mind, the turning point of the Revolutionary war, that gave us our freedom.

Second—Mr. Webb's record shows another commendable thing His bill that was passed known as the Webb-Kenyon bill, prohibiting the states that have no prohibition law from shipping liquor into the states that have the prohibition law. This and other things too tedious to mention.

Remarkable Appeal.

One of the most remarkable State appeals that has been heard at this term of the Supreme Court will be called for argument Tuesday morning when the court takes up appeals from the seventeenth and eighteenth judicial districts. It is the State vs. Bailey Johnson, from Avery county, in which Johnson is under sentence of four years in the penitentiary for manslaughter. He is 17 years old. Roby Carter was the man he killed under most remarkable circumstances.

Johnson was living with C. B. Vonconor. Carter went to Vonconor's pasture at 11 o'clock at night and took a horse to ride for some medicine, having permission to use the horse whenever there was special occasion. The lad missed the horse from the pasture and waited in ambush for its return. Presently Carter came riding up and Johnson held him up with his gun, firing twice without intention of hitting.

Then Carter held out the bottle of medicine to verify his plea that he went for medicine. It is claimed that Johnson mistook the gleam of the glass bottle for a nicked revolver and fired to kill.

OLD CONFEDERATE SOLDIER.

MANY CURES FOR HICCOUGHS

In the List Given Sufferers Should Be Able to Find One That Will Afford Relief.

Hiccoughs can be as troublesome as any of the minor ills which aggravate mankind. But from time out of mind there has been a remedy for every ill—and hiccoughs share the lot of other ills in this respect.

One old cure for hiccoughs is this: Take three or four preserved damsons in your mouth at a time, and swallow them by degrees. A temptation, this would seem to be, to children of another generation to have hiccoughs.

Water drinking often stops this trouble. The water should be slowly swallowed, not gulped down—swallowed, like the damsons, by degrees.

The best water treatment is this: Fill the mouth with cool water. Hold each forefinger over the lobe of the ear, closing it tight. Then swallow the water, very slowly. If this operation is properly carried out, it is almost sure to cure hiccoughs.

Still another remedy is sugar, and this acts like a charm with some persons. The sugar should be of the granulated sort, and a full teaspoonful should be taken at once. It should be swallowed slowly.

Holding the breath is sometimes efficacious. Hold it and count twenty or thirty, slowly.

In severe cases of hiccoughs accompanying illness, champagne, a spoonful at a time, is sometimes found of use. Sometimes, too, expert massage of the abdomen cures hiccoughs.

WHEN YOU ARE NERVOUS

you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often becomes more serious trouble.

If those so afflicted would stop taking medicine containing alcohol or drugs which merely stimulate the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wines, alcohols or drugs. Shun substitutes.

NORTH CAROLINA IS COMING INTO HER OWN.

Representative Webb Congratulated Already Upon Succeeding Judge Clayton.

Washington Correspondence, 3rd, Charlotte Observer.

To-day immediately after Representative Henry D. Clayton was nominated by the President for District Judge of Alabama members of the House began to congratulate Representative E. Y. Webb of the Ninth North Carolina District, believing that he will succeed Mr. Clayton as chairman of the House Judiciary Committee. There is no doubt in the minds of any man in the House what will happen the day Representative Clayton goes out.

Mr. Webb has asked Mr. Clayton not to quit until the trust bill is out of the Senate, for his quitting now would be unfair to the committee and to Mr. Webb, as he has had charge of the framing of that important measure.

The New Primary Plan.

The new plan of holding the Congressional primary makes it supremely important that a full vote be polled. The votes of the whole district combined will determine the nomination. Under our former way of holding primaries in this county if only a half dozen voters attended, they would have the same weight in a county convention in determining the strength of the respective candidates in the State and district convention, as if all the Democrats of the precinct attended. But this will not be the case this year. The votes of the whole district will be added together. It will therefore be necessary for every Democrat to go to the primary if he wishes his choice for Congress to get his full strength.

CHRISTMAS CARDS.

Christmas cards are younger than most people imagine, for their age is only about seventy years. According to some, Cuthbert Bole designed the first card when a student at Durham university in England in 1845, and designs of his circulated among his friends for two years before the printers conceived the idea of offering similar cards for sale to the general public. Others claim the invention for Horsley, the artist, who designed one for Sir Henry Cole in 1846. And a specimen of this card has brought as much as \$250.

HER WORK.

"Smith says he is fairly driven to poker."
"No wonder, when his wife goes at him with hammer and tongs."

THE REAL STATE.

"Was that fellow as black as he was painted?"
"Hardly, but then he wasn't as white as he was whitewashed."

THE REASON.

"What liquid notes that singer has in his voice?"
"Yes, he's generally pretty well tanked when he sings."

CONTRADICTION.

"The worst feature at that wedding—"
"Well, what was it?"
"The best man."

PROVIDED.

"It seems impossible to uplift the stage."
"Why, what's the matter with its wings?"

PERTINENT COMMENT.

"If a man is always on a lark—"
"Well?"
"It follows, doesn't it, that he's a bird?"
