When You Yawn a Good Deal

In the day time, and feel dull, lazy and discouraged, you have every symptom of a torpid liver.

Summons Red Z Liver Regulator (The Powder Form) is a fine tonic for a disordered liver. It acts promptly. The bilious impurities which have interferred with the free action of the liver are driven out, the system is cleansed and rejuvenated so that it can more thoroughly digest food. The bowels are purified and a regular habit re-established. It is a splendid medicine for the whole system. Promotes a feeling of energy, mental activity and cheerful spirits.

Sold by Dealers
Price, Large Package, \$1.00

Ask for the genuine with the Red Z on the label. If you cannot get it, notify us, we will send it by mail, prepaid. Summons Liver Regulator is also given in liquid form for those who prefer it. Price \$1.00 per bottle. Look for the Red Z label.

DAUGHTERS URGE WEARING OF COTTON.

Historical Facts to Be Kept Alive.

Urging the daughters to emulate the example of the mothers of 1860-65 in doing all in their power to aid the South by wearing and using cotton in every way possible, the Daughters of the Confederacy, in session in Raleigh this week, ask merchants to push sales of cotton goods, directed delegates to the general convention in Savannah to wear cotton dresses of cloth from North Carolina mills, and ask the mills to pay farmers 10 cents a pound for cotton.

Great impetus was given to the study of history. It was not widely known until the Raleigh meeting that Kenansville has had a sword factory or that Charlotte floated a Confederate navy. But from plowpoints and old railroad irons a German gentleman made Confederate swords, literally reversed Isaiah's prophecy that swords should be beaten into plowshares and hammered into plowpoints as they called them when the war was ended, these swords were made to serve better ends. They were planted in the picket fence about the yard of the manufacturer, and for years this fence was one of the most interesting things that remained of the Confederacy.

The Charlotte navy yard was made as far inland as possible to keep the Yankee ships from attack. It was so far that not one of these gentlemen dared come down here to look into it. Yet this sword factory and this naval yard have almost unremembered. The U. D. C. will keep these facts alive.

When the war was ended, these swords were made to serve better ends. They were planted in the picket fence about the yard of the manufacturer, and for years this fence was one of the most interesting things that remained of the Confederacy.

The Charlotte navy yard was made as far inland as possible to keep the Yankee ships from attack. It was so far that not one of these gentlemen dared come down here to look into it. Yet this sword factory and this naval yard have almost unremembered. The U. D. C. will keep these facts alive.

Death of Mr. Mumford Mull.

Mr. Mumford Mull, after a lingering illness of tuberculosis, died Thursday night at his home about three miles southeast of Morganton. The funeral services were conducted at Bethel church Saturday morning at eleven o'clock. Mr. Mull was about 42 years of age, had been a devoted member of this church since about 16. The Junior Order service was conducted by Rev. Kelly Houk, the deceased having been a loyal member of that order for a number of years, and the church service by Rev. A. C. Swafford, his pastor.

Mr. Mull belonged to one of the best families of the county, being a son of Mr. Charles Mull. Surviving him are a wife and eight children. He was an upright man and a good citizen, and will be greatly missed in his community.

The Christmas Gift Ship.

Secretary Daniels has designated the naval collier Jason as the official "Christmas Ship" to carry gifts from the United States to the destitute of Europe. The Jason will sail from the Brooklyn Navy Yard November 10 and probably will carry in addition to its cargo of gifts, large quantities of stores and coal for the armored cruisers North Carolina and Tennessee, now in Mediterranean waters.

Population of Some North Carolina Towns in 1800 and the Gain.

Statesville Landmark.
According to some statistics picked up, in 1800 Asheville had a population of 38, Charlotte 122, Concord 33, Edenton 1,302, Morganton 130, New Bern 2,407, Raleigh 669, Salem 226, Salisbury 645, Statesville 95, Wilmington 1,645. One hundred and ten years later—1910—the same towns have a population as follows: Asheville, 18,762, Charlotte 34,014, Concord 8,715, Edenton 2,789, Morganton 2,712, New Bern 9,961, Raleigh 19, 218, Salem 5,533, Salisbury 7,153, Statesville 4,599, Wilmington 25,748.

During the period from 1800 to 1910 the average annual net increase of population was Asheville 170, Charlotte 308, Concord 78, Edenton 13, Morganton 23, New Bern 68, Raleigh 168, Salem 48, Salisbury 59, Statesville, 40, Wilmington 219. From this it will be seen that Charlotte has made the largest gains—308—and Edenton the smallest—13.

The Senate of the South Carolina Legislature has passed a bill to issue \$35,000,000 in bonds to purchase cotton for the State. The measure provides for expending the proceeds either in direct purchase of cotton at 10 cents a pound or by loans at 9 cents a pound. In the event the measure is finally adopted, it must be submitted to a referendum of the people on November 3 and a two-thirds majority must vote for it before it is effective.

Genuine Jellico Lump Coal for sale.
MORGANTON ICE-FUEL CO.

LOCAL AND PERSONAL.

Mr. A. H. Giles, of Fonta Flora, was in Morganton Monday.

Miss Bertha Bennett, who spent several weeks in Chicago, returned home Sunday afternoon.

Mrs. Fred Piercy and children returned Sunday from a visit to Hickory and Lenoir.

Mr. R. L. McGinnis, of Patterson, has been visiting his brother, Mr. J. T. McGinnis, this week.

Misses Margaret and Elizabeth Bristol left Saturday for a two weeks' visit to friends in Charlotte.

Mr. H. R. Bridgers returned Saturday from Salisbury, where he spent the week playing in the band at the Rowan county fair.

Mr. and Mrs. Jerome Wortman and Miss Cullie Duckworth returned Sunday afternoon from Salisbury, where they attended the fair.

Mrs. Joe Simpson and children, of Black Mountain, spent the week-end with the former's parents, Mr. and Mrs. L. A. Ward.

Mr. M. L. Hurley and family, of Morganton, have moved to Hickory. We welcome them to our city.—Hickory Times-Mercury.

Mrs. R. A. Coleman, of Morganton, returned home Tuesday from a visit to her mother, Mrs. Warren Allen, and other relatives.—Lenoir News, 23rd.

Mr. William Feimster and family, of Iredell county, visited the family of Mr. Clem Moses last week. Mr. Feimster is a brother-in-law of Mr. Moses.

Again Mr. Mart Parks takes the blue ribbon in raising corn—this time popcorn. He brought to The News-Herald office last week a stalk of popcorn which had seven well-developed ears.

Mr. and Mrs. H. P. Wolfe and daughter, of Bryn Mawr, Pa., are spending several days in Morganton on a vacation. They own a pretty cottage a mile east of town, near Mr. C. C. Bennett's home.

A three-year-old child of Mr. and Mrs. Ed Buff, of Lower Fork township, was drowned in South Fork river several days ago. The child had wandered away from the house at night and when missed was found in the river drowned.

Mrs. Annie Mathis, mother of Lafayette Mathis, and one of the oldest women of Lower Fork township, died last Saturday and was buried at St. John's church Sunday afternoon.

Mr. E. B. Claywell has had in his store window at times during the past few weeks some fine dahlias as are grown anywhere. They are superb specimens, rich-hued and gorgeous. Dahlias are among the prettiest of the fall flowers and with a little care give splendid results.

The walls and woodwork of the ladies' parlor, located in the new Sunday school addition of the Methodist church, were beautifully tinted and stained last week by the skilled hand of Mr. L. J. Webber. The room is one of the many conveniences of the enlarged church.

Mrs. Ellen Moses, an aged and highly respected old lady of East Morganton, met with the misfortune one day last week to fall and fracture her knee. She had been feeble for some time, and the added trouble has confined her to her bed. But her friends hope that she may soon be able to be up and out again.

From the Lenoir News we learn that Miss Lela Tuttle who has been doing missionary work in China for five years arrived in Lenoir last Thursday on a year's furlough and was greeted by her many friends with much pleasure. She is enjoying the best of health and made her trip home without serious hindrance. Miss Tuttle has many friends in Morganton who have been very much interested in her work in China and who will be glad to welcome her home.

Despite the rain last Friday and Saturday the attendance upon the meetings of the County Teachers' Association was very good, and many things interesting to teachers were discussed. The schools of the county will open next Monday morning, the first Monday in November. The assignment of the teachers to the different schools has been about completed, and no doubt the county school work will start off in good shape.

WE have Grates from \$1.50 up. Wilson Heaters have no equal. Everyone who uses them is pleased.

CONGRESS ADJOURNED SATURDAY.

Had Been in Session 19 Months—No Relief for Cotton Situation in the South Granted.

Washington Dispatch, 24th.

After being in continuous session since the inauguration of Woodrow Wilson, a period of nearly 19 months, the Sixty-Third Congress adjourned its second session to-day when prolonged efforts to procure cotton relief legislation finally collapsed. Leaders in this movement agreed to adjourn only on condition that pending cotton measures would have right of way when Congress reassembles December 7.

Not more than 50 members of the House and less than a quorum of the Senate were present when the gavels fell on adjournment without date. The end was accomplished through passage of a concurrent resolution ending the session at 4 p. m. but clocks were turned ahead in both chambers, actual adjournment in the House occurring at 3:22 and in the Senate at 3:27.

As the altered hands of the House clock drew near 4 and the Senate was winding up legislative business, Speaker Clark arose at his desk and facing the scattered attendance on the floor said:

"This is the longest and most laborious session that Congress ever has known. I congratulate you most heartily on being able to adjourn at last. I wish to thank every member of the House—Democrat, Republican, Progressive and Independent—for uniform courtesy shown to the Speaker. Now, in the language of 'Tiny Tim,' 'God bless us everyone.'"

Apple and Timber Railroads.

The following items, one from the Old Fort Sentinel and the other from the Lenoir News, show that the development of the mountain section of the State goes on uninterrupted by war and the cotton situation:

The new railroad to Catawba Falls is now an assured fact. A goodly force of laborers has been at work on the line since last week, and the grading, which was begun at this end, is progressing rapidly and is expected to be completed as far as Charles C. Lindley's by the end of the week. Mr. J. M. Charles, who is main promoter, informs us the road will be a narrow gauge and operated by steam, an improved climax engine being the style of locomotive. The primary object of the road is to convey the timber to Old Fort from a large boundary lying between here and the falls; but it is also the purpose of the Catawba Falls Railroad Company to convert the road into a passenger line to accommodate the sightseers who have been unable heretofore to visit these attractive falls without considerable inconvenience. The line will come into town through Westfort and cross the creek just below the pump-house with likely a depot on the Westfort side.

Mrs. M. H. Cone is having constructed on her estate at Blowing Rock a small railroad of a mile or more in length, over which apples will be transported from the orchards to the packing houses. The railway is being built to the orchards in "China," as the orchards on the south side of the ridge, under May View are called locally. The motive power will be a stationary engine and the cars loaded with the fruit will be drawn up the steep mountain side by a steel cable. The little rails for the road were taken up from Lenoir last week and the winch or windlass on which the steel cable will operate is now at the Station here. The railroad is considered better for the purpose than to attempt to build a regular wagon road down into the gulch in which the orchards are located.

Strained relations between Mayor Moore of Wilmington and W. F. Jones, a member of the city council, resulted in Moore attacking Jones at the close of a council meeting. The chief of police stopped the difficulty before it got under way.

WHAT MOTHERS NEED

Too many women struggle under pains and aches. They are not sick—but weak, nervous, irritable.

Such women need that blood-strength that comes by taking SCOTT'S EMULSION. It also strengthens the nerves, aids the appetite and checks the decline.

If wife or mother tire easily or look run down, SCOTT'S EMULSION will build her up.

"Made in America."

Gastonia Gazette.

If every person in the United States would, when making purchases, demand "made-in-America" goods, we are told, there would to-day be plenty of work for every man in this country who has to work or wants to work. As it is, there is no very large number of idle men in the country, notwithstanding the fact that the great European war now in progress has operated to demoralize world traffic to a very considerable extent.

Of the many movements recently started in the United States to assist the farmer, the manufacturer and the merchant no single one, we believe, holds such large possibilities as the "Made-in-America" movement. It has become a habit with our people—and a constantly growing one—to seek imported goods, especially in certain lines of manufactured articles. An article stamped "Made in Germany" or "Made in Austria," etc., has as a rule found a better sale at a higher price than an American-made article displayed by the merchant side by side with the imported article.

There is no denying the fact that in some lines the foreign manufacturer has reached a higher degree of efficiency in making goods than the American manufacturer. At the same time it is doubtless true that a very large per centage of the foreign-made goods are no better than those turned out in American factories. Patriotism, however, should lead our people to unite in demanding American-made goods even if, on rare occasions, the home-made article is not quite as good as the imported one. In no other way can we hope to build up our manufacturing industries to the point already attained by some of our European competitors.

Hundreds of thousands of dollars go annually from this country to Paris for women's hats and gowns. Every cent of this vast sum could be kept in this country and the ladies would look just as sweet and attractive in hats and gowns made by Uncle Sam's milliners and tailors.

It is stated, and no doubt correctly, that a large per centage of the finest wines imported from Germany and France are California-made, shipped abroad, rebottled and relabeled, coming back to this country to be sold at a high price. Much raw material of many kinds goes from the United States to foreign countries and comes back to us in the finished product. The foreigner gets the profit that our own manufacturers should have.

By joining the "Made-in-America" movement and at the same time the "Buy-at-Home" movement our people can greatly assist the manufacturing and commercial interests of the United States and through them assist the producer of the raw material.

It is said McDowell county leads the State in the way of per capita expense for public education.

They Don't Know When One Battle Ends and Another Begins.

Dispatch from the Battle Front.

The present war differs from all previous wars, inasmuch as no one knows just when a battle begins and when it ends. What is now known as the battle of the four rivers, the Scarpe, the Somme, the Oise and the Aisne, may be regarded as ended and a fresh stage of the operations begun with the fall of Antwerp and the renewed appearance of the strong allied army in Belgian territory, where it has made its presence felt by the capture of Ypres.

Meanwhile the siege of the German positions further south has become merely desultory. Some parts of the line, where a perfect hail of shells was a daily occurrence five weeks ago, now are enlivened by artillery fire only at rare intervals. At one important point to-day only 30 shells were fired throughout the hours. The infantry on both sides is kept constantly on the alert, although the allies have found it possible to reduce the strength of the troops actually on the firing line.

The remainder of the strong allied forces at these various points are kept in reserve with in measurable distance ready for any emergency. The cold and wet have made trench work very trying, but the allies are well provided with blankets and water-proof sheets. The soldiers also are combating the cold by means of sheets of parchment which they wear under their uniforms and which help to keep them warm.

30,000 VOICES.

And Many are the Voices of Morganton People.

Thirty thousand voices—that a grand chorus! And that's the number of American men and women, who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Morganton people are in the chorus.

Here's a Morganton case: Mrs. M. Piercy, Green St., Morganton, N. C., says: "I suffered a great deal during the past ten years from weak kidneys. Whenever I caught cold, it settled on my kidneys and caused attacks of backache. I tried many remedies, but nothing gave me much relief until I procured Doan's Kidney Pills at the Burke Drug Co. and used them. I shall continue to take them."

FOUR YEARS LATER.

On March 8, 1912, Mrs. Piercy added: "Doan's Kidney Pills are reliable and I am glad to confirm the statement I gave some years ago, recommending them."

Price 50c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Piercy had. Foster-Milburn Co., Props., Buffalo, N. Y.

The barn of Mr. Nelson Hunsucker, near Conover, was burned Tuesday night. An exploding lantern set fire to the provender and there was no way to check the flames.—Newton Enterprise.

SITUATION STILL UN-CHANGED.

Each Day Along the Battle Front in France Proves But a Repetition of the Previous Days.

Sunday's dispatches from the European battle fields were agreed that there was little change in the situation during the week. They gave it in part that each day is but a repetition of the previous day in the battle being fought out in West Flanders, northern France and Poland between the Germans and the allies. One side gains a little at one point, only to lose at another.

It appears from the official German and French reports that the Germans, finding it impossible to advance along the coast toward Dunkirk owing to the fire from the British and French warships, took a route a little more inland and have succeeded in crossing the Yser canal, which the Belgians have been defending stubbornly for a week to the west of Dixmude.

The Germans have also made progress to the northeast of Roulers, which they still are in possession of, and toward which the allies were advancing last week. The Germans claim to have taken 500 British troops in the fighting in this neighborhood. Of the gains claimed by the Germans the French report makes no mention, dismissing the battle with the sentence, "There is no change to report between the sea and the region around Arras."

Both sides have, according to their own reports, made prisoners and captured guns but the battle, extending a front of 26 miles, has not yet been decided.

North Carolina Leads in Production of Mica.

A report just issued by the United States Geological Survey says: North Carolina produced minerals in 1913 valued at \$3,739,696, an increase of \$370,773 over 1912. North Carolina is the leading producer of mica in the United States. The white muscovite mica produced in North Carolina is highly prized for its transparency and is generally recognized as the standard mica of the country. The mica produced in North Carolina in 1913 was valued at \$267,913, against \$256,549 in 1912.

KEEP YOUR STOMACH AND LIVER HEALTHY.
