Baptists of State Have Had Year of Great Growth.

Raleigh Dispatch, 4th.

E. L. Middleton, statistical secretary of the North Carolina Baptist State Convention that meets in annual session here next Tuesday makes public an interesting summary of the work of the denomination for the past year. It shows 64 associations, comprising 2,095 churches and 256,599 members. gain of 39 in the number of churches and of 11,060 in individual members. These gains are unprecedented in all the his-

There were 14,716 baptisms during the year, a gain of 1,452 over the previous year. Numbers of the churches did not report as to baptisms and it is estimated that there were really as many as 20,000 baptisms in the State.

In the matter of finances, the denomination raised \$49,494 for State missions; \$32,893 for for home missions; 51,365 for foreign missions; \$3,188 for Sunday school missions; \$47,-837 for the orphanage; \$5,834 for ministerial education, and \$5,036 for ministerial relief. These give a total of \$195,637 for all purposes, a gain of \$5,892 over the previous year. It is explained that this financial statement is from association reports that closed at different ton, N. The gale's force has been felt from Hatteras as far north as lower New England and has been marked by general rain in the middle Atlantic and southern New England states.

The unknown warship reported ashore off the Delaware coast is believed by naval officers to be one of a foreign fleet. The safe arrival of two American destroyers at Norfolk and a report from the captain of the battleship Kansas that he was riding out the storm off the Delaware cape disposed safely of all the American war cruisers in the vicinity.

To-day no word has come from the revenue cutter Itasca, which put out yesterday from Norfolk to aid the stranger. Navy officers say that the ship is one of the foreign belligerents. She is probably not using her wireless for fear of informing her enemies of her position.

The velocity of the gale last night touched high record in some instances. At midnight the wind was blowing 70 miles an hour at Black Island, 60 at Sandy Hook and Delaware Break Water and 36 at Cape
