GOOD ROADS MEETING LAST SATURDAY.

Well Attended—Bill to Be Adopted by Special Committee.

The good roads mass meeting last Saturday, called by the board of county commissioners, was well attended. The meeting was called to order by Mr. J. E. Erwin, who has been requested to act as chairman. Mr. J. M. Brinkley, chairman of the county board, explained the object of the meeting, after which in a helpful talk on good roads the meeting was addressed by Mr. J. P. Spainhour, who also made a point of the upkeep of roads. Capt. W. B. Berry explained the road law of 1903 as it pertains to Burke county. He recommended that the tax now being collected from the railroad in the four townships through which the railroad runs be placed in the general fund and expended on the roads of all the townships of the county. In a talk by Mr. J. A. Wainwright the fact was brought out that 20 cents on the hundred dollars of property and 6 cents on the pole has been authorized to be collected in Morganton and Silver Creek townships and expended on the roads of these two townships.

Chairman J. E. Erwin suggested that a committee consisting of one man from each township be appointed by the meeting to formulate a road bill for Burke county to be sent to our representatives in the General Assembly to be enacted into law. Mr. J. A. Lackey made the motion that the chairman appoint one man from each township as a committee to draft the road bill. The motion made by Mr. J. A. Lackey to this effect carried and the following committee was appointed: J. F. Spainhour, Morganton, Chairman; W. B. Berry, Lower Creek; S. S. Carswell, Lower Fork; J. A. Cox, Upper Creek; J. M. Brinkley, Silver Creek; (it having been moved that the chairman of the county board of commissioners be added to the list.) Walker Lyster, Silver Creek; R. V. McGimsey, Linville; J. P. Bumgarner, Upper Fork; T. W. Dreyer, Quaker Meadows; E. H. Tilley, Smokey Creek; W. W. Aiken, Icard; Alex. Perry, Lovelady; Azor Barrier, Jonas Ridge.

The committee will meet Jan. 28th, 1915, to formulate the road bill, and a mass meeting is called for Saturday, Jan. 30th, at which time the committee will submit their bill. The meeting adjourned to meet at 12 o'clock Jan. 30th.

At the meeting last Saturday besides those mentioned talks were also made by Messrs. C. F. McKesson, E. L. Lunsford and I. T. Avery.

Entertainment Monday Night.

Miss Estelle Gray, who appeared in the Auditorium Monday night, her company being one of the attractions sent out by the Redpath Lyceum Bureau, proved herself a true artist with the violin, rendering with ease many difficult selections. Mr. LaVine, on the piano, was also master of classic music.

In justice to the high school pupils, who were admitted to the gallery for the entertainment, it should be stated that the noise and disturbance noticeable at times was caused by outsiders who in some inexplicable way got upstairs.

Rutherford College Notes.

Our baseball schedule for this spring is nearly completed. Several good games are expected here this season. Practically all of the brick work on the main building has been completed, and the roof is going on.

Miss Violetta Coak and Mr. Everett Berry, two of our students, were happily married at the bride's home Monday morning. Monday night six of the boys went couple of miles after a circle saw and were joined at the college by the rest of the "beanery" boys. They then went to Mr. Doc Aiken's residence and had a regular old time "shimaree." May many happy days be to the bride and groom.

The societies are getting out the programs for their annual debates. The preliminary contests will be held this week. JAY.

Missionary Conference in Charlotte.

Methodist women from all sections of the Western North Carolina Conference will assemble in Charlotte the latter part of this week for the annual meeting of the Woman's Missionary Society, which will be held in Tryon Street Church Friday to Wednesday inclusive. The dates are January 29 to February 3.

At least two hundred delegates, representing societies in eleven districts that compose the Conference, are expected. They will be entertained as the guests in the homes of Charlotte Methodists.

A total membership of nearly six thousand will be represented at the meeting. The missionary bodies are of three degrees, those for adults, those for young people and those for children.

In this Conference territory there were last year 91 societies of adults, 42 of young people and 70 for children. Last year they raised \$27,305 for the home and foreign missions, two societies having been consolidated three years ago. The foreign society was organized just 25 years ago. In addition to a number of active young mission workers, Bishop James Atkins, of Waynesville, will attend the meeting. Miss Leila Tuttle, a returned missionary from China, who is supported by the Methodist women at Concord, will be in attendance and address the Conference a number of times.

The Morganton Methodist church will be represented by Mrs. E. McK. Goodwin, who is missionary secretary for this district, and Miss Shaw.

Common Sense Roadmaking.

Raleigh News and Observer, 20th.

If there is any subject which deserves the deepest interest of the people of North Carolina in a material way, it is that of the making of good roads. We are making good roads in North Carolina in far greater excess than in past years, but we are not treating this roadmaking with that common sense which we apply to other matters.

Common sense, in this relation, means the using of expert supervision, management and direction in the making of good roads. In the making of roads in many parts of the State work is proceeding without the advice of a road engineer, and by reason of this money is being wasted and roads are being built which are not the best for the money expended. There is too much haphazard road making.

In the House of Representatives a bill has been introduced by Representative Benehan Cameron providing for the creation of a State Highway Commission. This afternoon that bill is to be discussed before the House committee on public roads and the importance of the action of that committee is such that there should be presented to it the great needs for expert supervision in roadmaking by the best informed men on this subject.

North Carolina needs a State Highway Commission, and the bill presented by Col. Cameron providing for this is endorsed by the North Carolina Good Roads Association, an organization which is composed of men who are earnestly seeking to advance the cause of good roads making in the State. The members of the General Assembly can well give heed to the recommendations of that organization, and to the recommendation of Governor Craig that there be created a State Highway Commission with the purpose of putting road making in the State on a business basis, with the use of expert assistance in order to secure the best results.

Trained men, expert advice, are the great needs for the making of good roads. The day that North Carolina enters upon a program of expert supervision in building roads then money will be saved and better roads be built. It is this that the State Highway Commission bill would make possible. The General Assembly should provide for such a commission.

Every sailor on every ship that goes through the Panama Canal is to receive a Bible printed in his own language. The American Bible Society plans to put up in Balboa, at the Pacific entrance to the canal, a building that will cost \$30,000, and will ship to Panama immediately 100,000 Bibles printed in 127 different languages. The new Bible house will be like that conducted by the British and Foreign Bible Society at Port Said, on the Suez Canal.

Glen Alpine News

Correspondence of The News-Herald. Friday night last some one stole into the Southern depot here and carried out a jug which proved on investigation by them to be signal oil. They were under the impression it contained whiskey. They also took out a base of notions and broke it open, but outside of a few pencils and a key ring or two nothing else was missed. Mr. T. A. Simpson, who is the agent here, found his overcoat by the platform of a nearby store and said he was glad to get his coat back. No clue has been found as yet to lead to the perpetrators of the theft.

All that was mortal of Mrs. Mary M. Tallent, wife of Mr. R. C. Tallent, was committed to her Mother Earth last Saturday, Rev. A. C. Swafford officiating. Mrs. Tallent has been a sufferer for some time though she bore her trials with fortitude and patience. She was a little over 72 years of age at her death. She was a woman of a strong personality, honest and upright in all her dealings, a good neighbor and in her daily walk of life was esteemed and respected by all that knew her. She leaves a sorrowing husband and son and a large circle of relatives and friends to mourn her loss. I am requested by the family to extend their kindest respects and thanks to all who did what they could in the sickness and death of their loved one.

It is the English custom to use a plural verb with the word "government," whereas here in America we generally use a singular verb. In drafting the American protest to Great Britain against the seizure of our ships, the secretaries in the State Department courteously deferred to English usage when they spoke of the British Government, but held to the American usage when they referred to the government of the United States.—Youth's Companion.

I have a piece of land 175 feet on D. & D. road and 215 feet on new Asheville road. Upon this land is one 6-room dwelling in good repair; new roof, new porch and the best well of water in Burke county. This land is a corner tract and is large enough for business and 2 dwellings. The land lies well and is all good land in good condition. It is in a very desirable part of the town—only a short distance from the Kistler property and the Camp property and will double in value in a very short time.

As I can get a good position in another town I am going to sell this property so cheap and on such easy terms you will be astonished when you hear the price.
