WHERE BICKETT AND DAUGHTRIDGE STAND.

Their Answers to the Eleven Inquiries of the State Farmers' Union Summarized.

The Publicity Committee of the State Farmers' Union has just sent the editor of The News-Herald the answers of Messrs. T. W. Bickett and E. L. Daughtridge, candidates for the Democratic nomination for Governor of North Carolina, concerning the eleven matters of State legislation advocated by the organized farmers of North Carolina. "The questions were mailed by Secretary Faures on April 12th," the committee reports, "a 30-day time limit being later fixed for replies. Mr. Bickett answered on April 27th and Mr. Daughtridge answered May 19th. Following is a summary of the questions and answers, Mr. Daughtridge's answers being given in full and Mr. Bickett's slightly condensed:

(1) "Repeal of merchant's crop lien."

Mr. Bickett's answer: Believes in providing a substitute for the crop lien by "enacting legislation that will make it easier for the honest, industrious, and economical tenant to get cash to buy such supplies as he cannot make at home." Also favors a campaign to make crop liens unnecessary by diversified farming encouraged by (1) agriculture in the schools, (2) better farming methods, and (3) government aid to help farmers to more profitable marketing of their crops.

Mr. Daughtridge's answer: "I favor the repeal of the merchant's crop lien as soon as a rural credit system or some other satisfactory substitute, can be established in the rural communities of our State. I have for several years furnished my tenants and farm help the cash at the legal rate of interest, and they purchase their supplies wherever they like."

(2) "Provisions permitting neighborhoods to adopt race segregation in land ownership."

Mr. Bickett's answer: Express sympathy with "farmers in white communities who, asserting that a homogeneous population is necessary for the proper support of schools, churches and rural community life, complain that absentee owners often introduce negro land owners into neighborhoods that would otherwise remain wholly in white hands," but believes that in order to avoid conflict with the Federal Constitution any amendment to our constitution would have to be framed on considerations of residence rather than land ownership. Also believes that "communities in the country can do much towards establishing practical segregation of the races, just as has been done in cities, by developing healthy public sentiment."

Mr. Daughtridge's answer: "I favor the same wherever it can be done without violating the rights of either race as guaranteed them by our constitution."

(3) "A just and equitable system of taxation, (a) lightening the burdens upon labor by putting a larger proportion on inheritances, (b) with constitutional provision for a lower rate on resident than on absentee landlords and (c) increased rate on land held out of use."

Mr. Bickett's answer: "I am certainly in favor of a just and equitable system of taxation, and favor every reasonable and just measure that will tend to lighten the burdens upon labor by putting a larger tax on inheritances, and that will encourage the division of our lands into smaller farms."

Mr. Daughtridge's answer: "I favor a just and equitable system of taxation."

(4) "Provision for incorporating rural communities."

Mr. Bickett's answer: "Heartily in favor of it."

Mr. Daughtridge's answer: "I am for anything which will help the people of the rural communities, and which they desire."

(5) "Initiative and referendum."

Mr. Bickett's answer: "Have no objection to principle, but am of the opinion it would be cumbersome."

Mr. Daughtridge's answer: "Our frequent elections makes this unnecessary in our State. Ours is a representative form of government."

(6) "A stringent anti-usury law, and laws regulating banks as public-service corporations."

Mr. Bickett and Mr. Daughtridge both declare for this.

(7) "Giving some official authority to regulate insurance rates."

Mr. Bickett's answer: "I am in

SHARP NOTE SENT TO ENGLAND AND FRANCE

Allies Informed That United States Can No Longer Tolerate Interference With American Mails On the High Seas.

Washington Dispatch, May 26th. The United States, denouncing interference with neutral mails, has notified Great Britain and France that it can no longer tolerate the wrongs which American citizens have suffered and continue to suffer through the "lawless practice" those governments have indulged in and that only a radical change in policy, restoring the United States to its full rights as a neutral power will be satisfactory. This notification is given in the latest American communication to the two governments, the text of which was made public by the State department tonight. The time in which the change must be effected is not specified, but the United States expects prompt action.

Serious and Vexatious.
"Serious and vexatious" abuses perpetrated by the British and French governments in seizing and censoring neutral mails are recited in the communication and answers are made to the legal arguments contained in the reply of the entente governments to the first American note on the subject. It is vigorously set forth that not only have American commercial interests been injured but that the rights of property have been violated and the rules of international law and custom palpably disregarded. Notice is served that the United States soon will press claims against the British and French governments for losses already sustained.

The communication was addressed to the British and French ambassadors, to whom it was delivered Wednesday.

The communication quotes the closing paragraphs of the joint note of February 15 and says this government does not admit, as asserted therein, that parcel post matter is subject to the exercise of the rights of police supervision, visitation, and eventual seizure which belongs to the belligerents as to all cargoes on the high seas. The three governments, however, it is asserted, "appear to be in substantial agreement as to the principle. The method of applying the principle is the chief cause of difference."

favor of such State supervision of insurance companies as will secure to the people just and equitable rates and insurance that really insures."

Mr. Daughtridge's answer: "I favor the general proposition provided all proper interests are safeguarded."

(8) "A State warehouse system somewhat like the South Carolina plan."

Mr. Bickett's answer: "I think a State warehouse system on the South Carolina plan eminently desirable."

Mr. Daughtridge's answer: "I favor a State warehouse system."

(9) "A simplified and popularized Torrens System of registering land titles."

Both candidates favor this.

(10) "Provision for furnishing text-books to the people at cost."

Both candidates endorse this principle.

(11) "Requiring retained attorneys of public service corporations to sever such connections before entering the Legislature."

Mr. Bickett's answer: "I think the people can be safely trusted to pass on these qualifications."

Mr. Daughtridge's answer: "I think the fitness of a representative should be left to the people whom he represents to decide."

In concluding his answers, Mr. Bickett says: "I want to do work for the men and the women out on the farms that will at least resemble the work done by Aycock for the children in the school-room. To this end the nearest and dearest object of my administration, if I am elected Governor, will be to convert tenants of North Carolina into landlords. As a private citizen I have been able to do this for a few people; as Governor of North Carolina I have a great faith that I can do it for thousands."
