

ARE RECEIVING THE PEOPLE OF GERMANY

The Policy of the Government is Meeting Protests From Some of the Newspapers of Germany

The continued attempts to deceive the German people regarding the progress of the war and America's participation are meeting with protests in a part of the German press, according to an official dispatch from Switzerland, says a dispatch from Washington.

The Muencher Post, according to the dispatch, protests against a recent speech delivered at Hamburg by Prince Henry of Prussia, in which the last battles were represented as German victories. "It is scandalous," says the newspaper, "to see a person like Prince Henry of Prussia giving the German people a picture of the situation which in no way corresponds to the reality. Germans are not going to let themselves be exploited like children. It is ridiculous to think that people are saying that we shall support a fifth year of war like the four preceding ones. It would be doing wrong to the German people. Enough personages like Prince Henry would do better not to speak about the sufferings and miseries of the war. We were told for a long time that America's entry into the war was a mere bluff, and we see today that one part of the press and the greater part of the official orators are continuing to deceive the German public. They would do better to say openly that Germany finds herself today in an extremely serious situation."

It is observed that a singular silence on everything which bears upon the military situation is noticeable in the German newspapers and news agencies.

Correspondence of The News-Herald.

Mr. John Queen, of Spartanburg, has been up in his car visiting friends and relatives.

For several days now long strings of autos have been going by—a new way to get these cars from northern markets, which is quicker and more satisfactory than the slow freight on the railroads.

Mr. Ivey McCarthy, son of our townsman, Mr. Jack McCarthy, was married a short time ago to Miss Gladys Lane, of Morganton.

Mr. Robert Giles, who has been working for the government at Pennington, Va., is back home.

Mrs. W. D. Pitts and children had a narrow escape from a serious accident a few days ago. Waiting for a train to pass under the overhead bridge here before crossing, the horse became restless and backed the buggy off the embankment, turning it over. Luckily Mrs. Pitts succeeded in getting out without serious damage to her or the children. Outside of a few bruises and a torn buggy nothing more serious was done. It was a close shave.

Mr. Charlie Ward, calling the roll this morning, found 4 boys instead of 3 the night before.

Mr. Hoover says "food will win the war." That means, of course, our not using none needlessly. There are other lines of economy. I was in a store the other day when a daughter of a farmer came in and brought a common tin dipper for 15c., priced 5c. before the war. Brooms are from 75c. to \$1.00 each. During the Civil war you had no tin dipper but a nice, clean goard to drink out of. Broom corn was raised or broom-straw wrung in the fall and put away for a year's allowance. The right kind of patriotism means economy and that means to save.

Little Harland, 10-year-old son of Mr. and Mrs. A. L. Powell, was operated on at Grace Hospital for appendicitis Saturday. He is getting along as well as could be expected.

OPTIMIST.

Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, of Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

Some of the Bits Your Liberty Bond Will Do.

If you buy a \$100 bond of the Fourth Liberty Loan you are lending the United States Government enough money to feed a soldier in France a little more than seven months. Or you have furnished enough money to give him a complete outfit of winter and summer clothing, including shoes and stockings, and slicker and overcoat and blankets, with enough left over to arm him with a good revolver. You have done that much to beat back the Hun.

It takes \$35 more to arm him with a rifle with a bayonet on it, and if you buy a second \$100 bond you furnish him this rifle and 1,000 cartridges for it; and there will still be enough of your money left to purchase a good-sized bomb to throw in a dug-out, or demolish a machine gun together with the Huns operating it.
