mains \$257.29 yet to be collected, according to a report from Mr. E. B. Claywell, treasurer of the county.  
Of the 100 counties of the State, 14 already have reported 100 per cent collections. Others are nearing a perfect score and increased efforts are being made this month to collect as much as possible of the outstanding pledges. All counties are reporting rapid progress and it is hoped that the percentage of collections in the State of North Carolina will ex-

ceed other States in the Southeast. Those who subscribed to the campaign should remember that this money is a direct gift to the boys, providing the home comforts and service, recreation, education, wholesome amusement, all amid a Christian atmosphere of service and help. We have no less authority than General March that the American army will not be reduced below half a million men. At the present time there are two million yet in the service.

The period of demobilization cannot be allowed to become one of demoralization and the work of the welfare agencies at this time is best able to meet the existing conditions of unrest and impatience. The war is over, but the boys are not all home, and furthermore they need the influence of the welfare agencies more than ever before.
