CONVALESCENTS BUILD UP ON PEPTO-MANGAN

Increases the Supply of Rich, Red Blood—Restores Strength and Vigor.

PHYSICIANS RECOMMEND IT.

Sold in Liquid and Tablet Form—The Name 'Gude's' the Guide to Genuine Pepto-Mangan.

A serious illness such as influenza or other infectious disease always leaves the body with low vitality, lack of strength, and impoverished blood.

Gude's Pepto-Mangan aids convalescents to a quick recovery, for it creates a generous supply of rich, red blood and restores the blood to its normal, healthy condition.

That's why physicians recommend Pepto-Mangan, for they know that it imparts to the blood the material so sorely needed by weak, run-down systems.

Pale, sallow, thin, easily-exhausted men and women find that Pepto-Mangan builds them up wonderfully. A new supply of rich, red blood is created, which in turn imparts the glow of health to the cheeks, increases the appetite, the eyes sparkle, the entire system takes a new lease on life.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities.

There is but one genuine Pepto-

Mangan and that is "Gude's." Ask your druggist for "Gude's," and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan.

The Road—In New Overland 4 on Three-Point Cantilever Springs

YOU expect a bad road to ride as it looks. It did, until the introduction of the Overland 4 Springbase.

Overland 4 does not change the road, but it does change the manner in which you can ride on it. It gives you comfort instead of dis-comfort. It gives you a smooth, sailing sensation instead of bouncing and swaying.

The Diagonal attachment of Three-Point Cantilever Springs at the ends of a 130-inch Springbase gives long wheelbase road steadiness. Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

This means an altogether new standard of riding comfort, a noteworthy reduction in the wear and tear which lessens the efficiency of a car. The new springs give longer life to every part and thus minimize upkeep and replacement costs.

Tires wear longer because cushioned against hammering blows. Light weight means marked economy in gas, oil and running expense.

Overland 4's equipment is complete from Auto-Lite Starting and Lighting to Demountable Rims.
