"My condition was such," she continued, "that everything I would eat caused gas to rise and press on my heart till I thought I would smother to death. After eating I would become nauseated and would get so dizzy I was afraid of falling; my limbs would become numb, then again they would tingle all over like thousands of needles sticking in me. I was so nervous that I could hardly sleep, had sick headaches most all the time and was so miserable and despondent I feared my end was near."

"Soon after taking Tanlac my appetite picked up, my digestion improved and I got to eating everything I wanted. I am now strong enough to do all my housework and more; all my troubles are over. I sleep like a child and my husband tells me I am the very picture of health."

All druggists sell Tanlac.
