Dollars and Cents.

Counting it in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself; in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

Clothes saving starts with all-wool

ALL-WOOL fabrics and fine tailoring in clothes mean longer wear. Longer wear means fewer clothes to buy each year means money saved.

You get all this out of clothes; if you feel you don't after you've worn them---money back.

Surest Thing in the World

Two and two have always made four. There would not be more than three million five hundred thousand Ford cars in daily service if the Ford did not meet the demands of all classes of people.

Two and two have always made four. If the iron and Vanadium steel used in the Ford chassis, were not of the highest quality, then the Ford car could not have won its world-wide reputation.

Two and two have always made four. When replacements and repairs are required on Ford cars, the Ford owner will be wise in bringing his car to our place, because we use only the Genuine Ford Parts, have Ford skilled mechanics, and all the Ford knowledge that goes to maintain the high standard of quality which is original in the Ford car.

We solicit your business.
