How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

He needs it *more than anyone else*. It's part of our job, as we view it, to see *that he gets it*.

Our tire service starts with *good tires—U. S. Tires*. All sizes made to a *single standard* of quality—none graded down to the price of the car they will go on.

U. S. perfected the first *straight side automobile tire*—the first *pneumatic truck tire*.

The U. S. guarantee is for the *life of the tire*, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of *greater tire economy*. It is our experience that that is the *best way* to build up a sound and sizable business.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

ROYAL CORD—NOBBY-CHAIN-USCO-PLAIN

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the *people who pay the bills*.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a *moderate-price car*.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.
