BUY LESS FUEL and MORE COMFORT

CALORIC

PIPELESS FURNACE

The CaloriC gives you two big advantages—MORE COMFORT—at LOWER COST.

More comfort because it heats by CIRCULATION—and circulation takes the cool air out of the building—thus allowing the warm air to flow freely to every part of every room without resistance.

CaloriC circulating heat means UNIFORM HEAT — as much warmth at windows of far-off rooms as near the register, as the thermometer will show.

LOWER COST because scientific pipeless construction and patented triple-casing insulation deliver practically all the heat from the fuel directly into the rooms through the one register.

The experience of the CaloriC user, who heated 8 rooms with ONE-THIRD less fuel than he formerly used to heat only 3 rooms, is the common experience of more than 125,000 users.

Get a CaloriC now under our definite guarantee that it must give you satisfaction—or your money back.
