How Not To Take Cold.

Some persons are subject to frequent colds, while others seldom ever have a cold. You will find that the latter take good care of themselves. They take a shower or sponge bath every day in a warm room, avoid over heated rooms, avoid excesses, over eating, becoming over heated and then chilled and getting the feet wet. Then, when they feel the first indication of a cold they take Chamberlain's Cough Remedy without delay and it is soon over.—Adv.
