**THE AGE OF MIRACLES** have past but I can sell your Real Estate if any man can. When it is priced right I know I can sell it, and as quick as any man can. I use printer's ink to find a buyer; it costs me little and costs you less that way. I have the best Dairy Proposition, the best Orchard Proposition, the best Chicken Proposition, the best Mercantile Proposition, the best Timber Proposition, and the best General Farming Proposition in Burke county, and all priced right. One tract mostly in timber, white pine and chestnut oak; 550 acres, extremely well watered; good young orchard; some good rough buildings; price \$4,000. This is almost a miracle, as any industrious man can make a fortune in hogs and chickens on this wonderful proposition in four or five years. List your property with me and let me show you how quickly I can turn it into cash. **SAM TAYLOR, the Square Man, Morganton, N. C.**

**A Pronounced Success.** The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically a rival and as everyone who has used it knows, it is without an equal.—Adv.

**The Square You'll Eventually Use**

The above cut may seem a puzzle to some of my readers, but I promise to make it as plain as daylight before this series of ads is concluded. Watch these ads for I promise to acquaint you with one of the most wonderful tools in existence, and a tool that will be of use to man away down the dim avenues of the future. It is so nearly perfect that it seems perfect to me. Now, my friend, if you know something that will improve this wonderful tool, why not meet me half way and let us put our heads together and see if we can improve it. Frankly, after about eight years of almost constant study and much expensive experimenting, I feel quite sure I have in my latest copper plated square attained the acme of perfection. Gladly would I accept some thought or criticism that would point me to an improvement in this favorite child of my brain.

Now, I want you to read what Mr. John T. Oxford, of Morganton, has to say about this Square:

Dear Mr. Taylor:—Your Improved Square is a wonder. It works like magic. When a stranger sees you demonstrate it he first thinks you are a wizard. I want to ask you to quit the kind of work you are doing and write books on your Square and go out and demonstrate it, that the world might have the advantage of your invention. It's too good to be kept from the people; it will be the square of the future, and when put on the market there will be no other sold. Standardization and education are what the world needs today, and when your improved Square comes in use it will be a good start toward the same.

J. T. OXFORD.

Now, some of you readers do not know Mr. Oxford, so if you will pardon me I will tell you what I think of him. Mr. John T. Oxford, I believe to be a very conscientious, Christian gentleman, PERFECTLY SOBER, TRUTHFUL AND HONEST, AND CERTAINLY ONE OF THE BEST MECHANICS I HAVE EVER MET. Therefore I feel sure Mr. Oxford's letter is entirely sincere.

Now I want you to read another letter from another Morganton man, Mr. W. A. Speegle:

Mr. Sam Taylor, Morganton, N. C.

My Dear Sir:—I have been using one of your Improved Squares for about three years and I am glad to say that it is the best Square I have ever seen; and it is so plain and simple that "a fool may not err thereon." It certainly is an uneducated man's Square and it has an education on it, and so it cannot rub off. I can lay off more framing with it in two hours than I could with any other in ten hours. I would not attempt to do carpenter's work without one if one could be had at any price; and I am sure no other wood workman would if he knew its usefulness. I can heartily recommend your Square to carpenters and millwrights, and especially to trestle and bridge men where angles and bevels are frequent, as all angles and cuts are plainly found with this truly wonderful tool. I only wish I could have owned one when I was on public works. I cannot say half as much as I wish to say or as it deserves, and only hope all my friends will believe me to be entirely sincere in all I say about this great Square. In conclusion, I know the world needs it badly and I feel sure there will never be a better Square made.

W. A. SPEEGLE.

Now I am sure many of you readers of this ad do not know **MR. W. A. SPEEGLE. HE IS A MAN OF RARE ABILITY AS AN INVENTOR, HAVING RECENTLY INVENTED A VERY WONDERFUL MACHINE.** Mr. Speegle can do as many kinds of work well as any man I have ever met, and is sober, honest and truthful, and a splendid Christian gentleman; therefore I feel sure he means all he says in his letter.

Mr. J. W. Brown, also of Morganton, is using "my Square" and says it is O. K.

Now, dear friends, if anyone doubts the ability of my Great Square, please put it to all the tests you can possibly think of and be convinced the Square is all right. Watch these ads. A new cut will appear each week; save them as when all is perfectly clear you will want to refer back to many of them. I want you to remember what I say about this pet of mine: **SAVES THE EYES, STRAIGHTENS KINKS AND RENDERS MISTAKES IMPOSSIBLE.** All first-class stores will be able to supply you in the near future. With the very kindest feelings, I remain your friend,

**SAM TAYLOR,**  
Morganton, N. C.
