## TWO IMPORTANT LECTURES IN HARNETT COUNTY

According to the Bureau of Vital Statistics, North Carolina State Board of Health, about every other child born in Eastern North Carolina has an ignorant midwife to see that it is started along the journey to a health life. This means that during the days before and after birth one-half of the mothers trust their lives in the hands of these women.

Some midwives do very well or as well as they know how; others cause deaths of mothers and babies. They know no better and must be taught. With the aim to improve the situation the Bureau of Epidemiology and the Bureau of Infant Hygiene and Public Health Nursing of North Carolina State Board of Health, are carrying on an extensive campaign to educate these women, most of whom are negroes.

Important things are to be done at the birth of a child other than rendering surgical and medical aid. There must be filled a complete and accurate birth certificate to assure the child of its age for school attendance, etc. Silver nitrate must be dropped in the eyes to prevent blindness. Such must be done if physician or midwife attend the birth and parents should see to it.

With view to instructing the midwives along these lines a nurse from the State Board of Health, Raleigh, will visit the following places. Please inform anyone you know acting as a midwife and tell them to attend the meeting:

Dunn, Dr. W. E. Coltrane, 10 a. m. Monday, Jan. 17.  
Lillington, courthouse, 10 a. m., Tuesday, Jan. 18.

## JOHNSONVILLE NEWS

Mr. F. G. Buhmann, the Disston saw man, spent several days in Johnsonville this week looking after his interests here.

Our good friend, H. A. Morrison, of Lemon Springs, called on friends in this vicinity Saturday afternoon.

Mr. and Mrs. W. H. Johnson are the proud parents of a fine baby girl who arrived at their home last Friday morning.

A very important meeting was held at Spout Springs last Saturday afternoon, attended by a representative body of our citizens who formed a Cooperative Fire Protective Association. The work was started by naming a committee consisting of C. B. West, Z. V. Cameron, J. L. Marks and W. H. Johnson, the last named being secretary of the association. We understand that this committee will name the Hon. John S. Johnson fire warden for this district.

This meeting was called at the instance of Mr. W. D. Clark, who is connected with the North Carolina Geological and Economic Survey and who has made several visits to this section in an effort to get our people interested in a movement to prevent the great loss caused by forest fires. The good which would result from an effective organization of this kind cannot be over-estimated. Our lands at this time are covered with young long-leaf pines which, if protected from fire for 15 or 20 years, will give us a valuable growth of this fine timber.

Government statistics reveal that our country is consuming annually over five times as much timber as it is producing. It therefore behooves us to join heartily in this movement which will furnish protection to our young trees, as well as avoid destruction of our valuable property each year. Get in touch with the committee nearest you and learn something of the plans they wish to inaugurate. There is something for everyone to do and we hope that every man in the district will make it a point to meet with the committee often and lend them all assistance possible. Talk fire prevention constantly. Small fires kill little trees. Little trees grow into big timber. Stop small fires!

Mr. Marion Barefoot and family of Rockfish visited relatives and friends in this section during the past week, returning to their home Friday.

Mr. and Mrs. Ernest Cameron of Spout Springs entertained a large company of friends at their home Friday evening.

Mr. Geo. W. Eury had the misfortune to lose his barn by fire Friday evening. He went to his farm to burn around his buildings to secure them from fire. A sudden change in the course of the wind caused a spark to go to his barn, setting fire to some hay which he had stored there, and in a few moments time the building and contents were in ruins. Much difficulty was experienced in saving other nearby buildings.

Mr. and Mrs. W. A. Stewart spent Sunday with their daughter, Mrs. Quim Seawell of Lemon Springs.

On Friday evening, January 14th, a box social will be held at the Cameron Hill schoolhouse. J. T. C.

## AIRCRAFTLE NEWS

Mrs. J. H. Dall visited at the home of Mrs. Archie Cameron Saturday.

Mr. Foster Harrington was a visitor in the community Saturday.

Mr. J. H. Dall and family visited Mr. and Mrs. O. T. Pace Sunday.

## MRS. W. M. BRYAN ENTERTAINS

Last Friday afternoon Mrs. W. M. Bryan gave a party which was altogether delightful and unique.

When Mrs. Bryan invited her friends she asked each to "bring the baby." This was indeed a generous and happy thought evidenced through the whole afternoon by bright faces and merry laughter.

Of course the most popular of the juvenile party were Misses Lora Parker, Kathryn McLeod and "The Little Sheriff."

When these could stand admiration and getting no longer they took refuge in their carriages and departed to Dreamland. Their departure brought the older kiddies into their own, for in the corner of the dining room a beautiful Christmas tree awaited them.

Mrs. Sutton played Santa and each little visitor received a lovely gift which made some doubt if Santa Claus had really gone back to his home in the Snow Hills.

Miss Elizabeth Thomson took the little folks into the living room to play with their new toys, leaving the ladies to enjoy a most appetizing luncheon.

Mrs. Bryan, always cordial, was especially so on this afternoon when mothers and youngsters alike enjoyed being in her attractive home.

Mrs. Bryan's guests were: Mesdames Ben Parker, J. A. McLeod, J. O. Sutton, G. F. Kirkpatrick, J. C. Thomson, Neill McLauchlin, Charles Ross and J. W. McArtan. Juvenile party: Helen, Palmer and Neils Kirkpatrick, Sara Parker, Kathryn McLeod, Martha Sutton, Katherine McLauchlin, Margaret Ross, J. W. McArtan, J. Jack and Masde Bryan, Elizabeth Thomson.

Mrs. Bryan was assisted by Mrs. Thomson, Mrs. Ross and Mrs. Parker.

## PROPOSED PROGRAM OF FEDERAL TAX REVISION

A proposed program of federal tax revision, suggesting radical changes in present methods of levy, has been put to a referendum vote by the United States Chamber of Commerce.

The proposals were prepared by the chamber's committee on taxation, which has made nearly a year's study of the subject. In sending out the proposals, the chamber's board of directors made it clear that the board itself neither approved nor disapproved of the report. The sole purpose of the referendum, it was explained, was to obtain the opinion of the country's business organizations.

The propositions upon which the chamber's members were asked to express their views were:

1. The excess profits tax should be repealed.
2. Revenues now derived from the excess profits tax should be obtained from taxes on incomes.
3. There should also be excise taxes upon some articles of wide use, but not of first necessity.
4. Should a sales tax be levied instead of the taxes mentioned in the second and third proposals?
5. Should a sales tax be levied in addition to such taxes as are mentioned in the second and third proposals?
6. Members voting in favor of proposal five are asked to indicate the type of sales tax they advocate; whether a general turnover tax, a limited turnover tax or a retail sales tax.
7. There should be a moderate and graduated undistributed earnings tax on corporations.
8. Each individual stockholder of a corporation should pay his own normal tax.
9. Incomes from any new issues of securities which may lawfully be made subject to federal tax should be taxable.
10. American citizens resident abroad should be exempt from the American tax upon income derived abroad and not remitted to the United States.
11. Profits arising from sale of capital assets should be allocated over the period in which earned and taxed at the rates for the several years in the period.
12. An exchange of property of a like or similar nature should be considered losses as replacement.
13. Net losses and inventory losses in any taxable year should cause re-determination of taxes on income of the preceding year.
14. Ascertainment by the government of any tax based on income should precede payment.
15. Administration of income taxation should be decentralized.

## DON'T WORRY OVER PRINTERS' PROFITS

Interlaken Review.

Communities shouldn't worry for fear their local newspapers are making too much money, thinks the State College of Agriculture; on the contrary, it is to the advantage of the community that its local newspaper shall be prosperous. In the college's opinion, some of the difficulties of newspaper publishing are pointed out in an editorial headed, "Prices and Profits" in the current issue of the Extension Service News, issued by the college. The editorial follows:

"Before a community starts to worry for fear the publisher of the local paper is making too much money, it is well to know the facts. Few lines of endeavor have been so severely hit by changing industrial conditions as have the small newspapers. It is abundant testimony that there were 123 fewer weekly publications in this state in 1919 than in 1915.

"Only recently has definite effort been made to study costs on country newspapers; this study shows that few publishers have been getting even cost for the advertising space and printed matter they have sold. Like the farmer, they have been producing their commodities largely with the unpaid labor of themselves and the members of their families, and without taking into consideration such items of expense as depreciation, interest on money invested and the like.

"For the sake of his community, everyone should want his local newspaper to be prosperous. Only as country newspapers are prosperous, will there be attracted to them men of the brains and training necessary for a position of leadership, nor can the publisher, unless he is prosperous, produce a paper which is representative of the community, and of which the community may be proud. Moreover a paper struggling to make both ends meet is more likely to succumb to the luring offers of dubious advertisers or political charlatans.

"No newspaper, regardless of its circulation, can sell its advertising space at less than 20 cents an inch and be prosperous. A committee from the National Editorial Association has worked this out after a careful study. The local newspaper of about 5,000 circulation must charge approximately 55 cents an inch.

"A careful study has been made of the cost of job printing and the results have been compiled in a loose leaf book which is kept constantly revised. If the local printer and publisher quotes his price from this little book the customer may know he is getting a fair price, and the printer is getting a living profit."
