A BOARD OF REVIEW.

As predicted in this paper last week, the Board of County Commissioners at their meeting Monday adopted Section 28c of the Machinery and Revenue Act, creating a Board of Review to revise the assessed value of property in Harnett county, "to the end that the same may be fairly and equally assessed at its present actual value in money."

The Commissioners appointed to constitute the Board of Review Messrs. A. M. Shaw of Lillington, former county auditor; H. S. Holloway of Cardenas R. 1, and F. S. Cullom of Averasboro. The Board of Commissioners will meet with the Board of Review next Monday, April 11th, and confer upon plans of procedure.

The Board of Review is allowed about ninety days in which to complete its work, the law requiring that they must report a complete revision not later than July 1st. A complete abstract of such revision must be sent to the state tax commission by July 15th. The Board of Review is given power to appoint such number of assistants as may be necessary.

This measure will afford an opportunity to taxpayers to get their property on the tax books at its actual value as it stands today, which will of course mean ten cent cotton basis instead of forty cent cotton basis for land. And in view of the fact that the Board of Review has upon its hands such a tremendous task to perform in so short a time, it becomes the duty of each property owner to expedite the work of revision by such assistance as they may render in the way of placing an unquestionable valuation upon their property, so that the Board may accept it at its face value and thus prevent argument about it. There will be no time for squabbling, and we believe the Board of Review will not permit it.

We have great faith in the ability as well as the integrity of the gentlemen appointed upon the Board of Review. They have in their hands the task of placing property valuation in Harnett county upon a solid basis—a basis upon which the citizens can afford to pay their taxes. They will do their duty. And the citizens will be fair in their representations to the Board, so it is presumed and hoped.

CARRY ON!

The following was used by Rusling Wood and appeals to us as a message that would be well to pass along:

Milt Meldrum, the bookkeeper, owed Gerie, the stenographer, two cents. And Gerie owed Pete, the office boy, two cents, and Pete owed Milt two cents.

One day Milt found a cent in his pocket, passed it over to Gerie, and paid half his debt.

Gerie gave it to Pete and paid one-half her debt.

And Pete handed it back to Milt and paid one-half his debt.

Then Milt passed the coin to Gerie, and so it went around again. Everybody was paid up, and Milt had the same cent he started with.

That is all there is to what we call "business" in this country. When business is good, Milt is giving his cent to Gerie. When it is bad, Milt is keeping it in his pocket. What the Milts do not realize is this: that the surest way of bringing money back to their pockets is to spend the money they have—to keep the wheels moving—carry on.

When one may say "I will cut down production, or cancel orders, or stop advertising," his action affects many people—including himself. When a number of men do these things, the result is dull business.

If it comes to a full stop it will be hard to start it again. But as long as it is moving it is easy to accelerate.

If every man who reads this says simply, "Business is good. I will go on and make goods and sell them with all my might," and acts on it, what he says will be true. Business will be good. So let's carry on!

Let's build up!

SOUTHERN METHODIST CHURCH UNDERTAKES GREAT MOVE

The Southern Methodist church has undertaken this year an extensive movement in the interest of its high schools, colleges and universities, the every-member canvass of which is set for the week of May 29 to June 5.

The five special objects in view are as follows: To promote the cause of religious education by tying the home, the Sunday school and the Christian colleges more closely together; to develop in the mind of the church an adequate conception of the place of Christian education in the life of the church, the nation and the world; to lead at least 5,000 young men and women to pledge themselves for whole-time religious service; to deepen the moral and spiritual life of Methodists and promote the spirit of Christian liberality; and to raise for Methodist schools, colleges and universities \$3,229,500.

The North Carolina conference has set out to raise \$1,322,500, and the Western conference \$1,607,000—a total for North Carolina Methodists of \$2,929,500.

Rev. H. M. North, Raleigh, is secretary of the North Carolina conference and Wade Marr, Raleigh, director, and Rev. T. F. Marr is secretary of the Western conference and Mr. Norwood director.

SUMMER SESSION OF THE N. C. STATE COLLEGE

The summer session of the N. C. State College of Agriculture and Engineering will open June 14 and continue through July 27, according to the preliminary announcement recently issued by the director, Dr. W. A. Withers.

The summer courses given by the college fall into the following groups. Those that make up the state summer school are for superintendents and supervisors, high school graduates who expect to be teachers and holders of provisional A and higher certificates. The county summer school for Wake and certain other counties is for teachers who are not graduates of high schools or who do not hold certificates of the grades mentioned above. The other groups are college entrance courses, college credit courses, cultural, professional and vocational courses, the demonstration school and rehabilitation courses.

During the 1920 session 671 students were registered, eight states and 86 counties of North Carolina being represented. Dr. Withers states that the number already admitted for the coming session exceeds the registration, for the corresponding period, of any year in the history of the school.

CAN'T ESCAPE ECONOMIC LAWS.

If the business men, bankers and all that large army of short-sighted people who have conspired to reduce the prices of farm products wish to see the results of what they helped in a measure to bring about, let them consider the acreage planted in fall wheat, compared with the acreage sowed in the fall of 1919 and 1918:

Sowed the fall of 1920, 40,903,000 acres.
Sowed the fall of 1919, 42,081,000 acres.
Sowed the fall of 1918, 50,489,000 acres.

That is the farmer's answer to the reduction of prices below cost of production. The corn farmer will give the same answer in 1921, as will also the cotton farmer. If he cannot get a fair price for his products he lessens production, just as all other producers are forced to do under the economic laws which cannot be escaped.—Progressive Farmer.

Add to the list of useless words: Cash.

A reasonable amount of amusement is refreshing to the brain. It serves to develop a healthier and stronger race.

And still, wise men at times get a lot of enjoyment out of playing the fool.

An advertise rin The News complains that people will not buy his long staple cotton seed at the low price of a dollar a bushel. Moral: Cut the acreage some more.

Stronger than the ties of friendship is the breath of onions.

The County Board of Commissioners published notice of the road hearing last Monday for four successive weeks in Harnett County News. It is to the discredit of any citizen who does not read his county paper.

It's a safe guess that some people in Harnett county today are revising their opinions of W. A. Erwin of Duke. His speech Monday was "just a little different, just a little better," than some of those present expected.

Ideas born in an idle moment often lead a man to his greatest success in life.

AN OVERSIGHT.

In announcing last week the death of Mrs. Mollie Matthews the statement was made that she was a sister to Mrs. W. L. Senter of Kipling and Mrs. J. M. Byrd of Coats. The statement should have been made that Mrs. Matthews had three brothers living as follows: Messrs. W. L. Matthews of Chalybeate Springs, J. C. Matthews of Cary and M. N. Matthews of Kipling. The News regrets that these relatives' names were left out last week.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.

"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my house work.

"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

BE AN OPTIMIST ALL THE WHILE
John Brown, Joe Baker, Catholic and Quaker—all are hit by the sudden slump in business and prices. All are in the same boat. And now will it profit anyone to rock the boat? What's the use to grumble anyway? Will that raise the price of cotton? If we thought it would, we would organize a Grumblers Club. But it will not, and there being no profit or sense in it, we are against it. Let's all smile and get to work—work will make us, idleness and grouch will break us.
