THANKS.

Having seen our sponsored project so soonly endorsed by a Joint Session of the two executive Boards of the County—the matter of School Consolidation—and viewing with immense satisfaction the action of the Boards in entrusting the cause in the hands of the Leaders, we curtsy our most gracious
Much Obligated!

We will now focus our attention upon other matters of equal importance.

THE COUNTY'S ROADS.

It would indeed be a fine thing if the State Highway Commission could take over the entire roadways of Harnett county. The township bonds and bumps are the cause of so much fretful agitation! And, too, the roads in some townships are so much better than the roads in others, and none of the roads in the county are so very good.

While of course the State will not build highways all over the county, yet the map shows that with the Lafayette road going north to south through the county and the Boone trail running west to east across the county, and with maintenance work upon several other roadways, there is not much left for the county to assume upon the big thoroughfares.

But there is some other needed road work that the county should undertake. Two outstanding necessities are: The building of a good road direct from Dunn and Duke to Lillington; and the construction of a good road from the western part of the county to the countyseat. After the county has built these roads, they could be put under State maintenance.

The only practical way to build county highways is for the county to take over its road system. Good roads cannot be built and maintained by the antiquated and inadequate township system. This has been proven time over and again, and is being plainly shown by the present township system in this county. Right now is a good time to adopt the county system so that the balance of the roads left out of State supervision can be brought up to a higher standard.

There is little left for the county to do in the way of road building—but that little is so badly needed that it should not longer be delayed.

GO TO THE COUNTY FAIR.

Harnett county's fair opens at Dunn next Tuesday. Officials of the association state that they have spared no pains to put on the very best fair this year; both in the way of exhibits and entertainment for visitors the 1921 exposition bids for the highest excellence in the showing and the greatest attendance of people who wish to witness it. We must take the directors' word for the excellence of the exhibition, for they are hustlers; and we will post our judgment with them on the statement that the attendance will be good.

Herbert Hoover, who speaks at the fair at noon Saturday, the 15th, should draw a good crowd. Farmers especially should be interested in what Mr. Hoover has to say at an agricultural fair, because of this gentleman's world experience in the handling and distribution of food-stuffs. He should be able to tell the people of Harnett county about the outlook for foreign consumption of cotton also, by reason of his familiarity with conditions in Europe—their ability to pay as well as their actual needs now and in the immediate future. Farmers should pay special heed to matters of this sort and inform themselves so that they would know whether to sell their crops as fast as they gather them or whether it would be best to hold awhile. As matter of fact, our farmers should be better posted upon such things anyway, because they are affected so vitally by them.

Mrs. George W. Vanderbilt, president of the State fair, will also deliver an address. This will be interesting inasmuch as Mrs. Vanderbilt is a woman of affairs and is taking active part in making the State fair a success.

The purpose of this writing is to impress upon our people the importance of attending the fair. There is always something to learn, and inasmuch as so many people go there

for the purpose of gathering information, it will afford an excellent opportunity for those who are well informed to impart some of their wisdom to their neighbors. This feature of a fair should prove most valuable to people engaged in agricultural pursuits. By an interchange of ideas the maximum of results can be obtained.

We have spoken heretofore for a good attendance and liberal patronage of the Harnett fair on behalf of the people of the upper section of the county, and in former years the response has been good. Let all the people above the Cape Fear show their keen conception and great appreciation of the county fair, from which they can derive so much benefit.

Remember the dates—Tuesday, October 11th, through Saturday, October 15th.

LILLINGTON LOSES A GOOD CITIZEN.

It is with sincere regret that the people of this community witness the departure of a good citizen like Mr. John Allen McLeod. He goes this week to Gastonia to take up residence and the practice of his profession. With one accord our people will wish for him the greatest of success.

Mr. McLeod has made himself a useful citizen. By his upright life and straightforward dealings with his fellowmen he has made friends of all, of whatever creed or political clan. It is not often that a man is so universally esteemed as is John Allen McLeod. He is pronounced in this community as a gentleman's gentleman, and none will say nay.

Lillington loses one of its most splendid families when Mr. and Mrs. McLeod move away.

Many thanks, Mr. Weatherman, for this cool October staph.

The attention of the head of the house is now turned from blocks of ice to blocks of wood.

Pains Were Terrific

Read how Mrs. Albert Gregory, of R. F. D. No. 1, Elford, Ill., got rid of her ills. "During . . . I was awfully weak . . . My pains were terrific. I thought I would die. The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach. . . I simply felt as if life was for but a short time. My husband was worried. . . One evening, while reading the Birthday Almanac, he came across a case similar to mine, and went straight for some Cardui for me to try.

"I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my ills left me, and I went through . . . with no further trouble. My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui." For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women.

BANK OF LILLINGTON
(OLDEST BANK IN HARNETT COUNTY)

AMERICA'S GREATEST NEED

America must increase its dairy herds. There are only 24,000,000 milch cows in the United States today, as compared with about 25,000,000 in 1914. Dairy cows by the millions have been slaughtered for food, by Denmark, Sweden and Norway particularly. All Europe's dairy herds have been sadly reduced.

This country must provide and sell dairy products to all Europe. We need more than 45,000,000 milch cows to do this adequately. The farmer who increases his dairy herd now is not only doing his duty to the world, but is certain to profit in a big way.

This should interest this community. Is it going to benefit by owning more and better dairy cattle? We have the land to feed them on—we have the brains to care for them and take the profit. This bank has the money to finance their purchase if our assistance is needed.

Come in and let's talk this dairy problem over.

Remember we pay 4 per cent interest on time deposits, compounded quarterly.
