"This yere case," said Judge Hoke, as he called the court to order, "ap-peals to me not only as the legally elected and only jestice of the peace fur the county of Cold Chuck, but to every man in these diggin's who carries a gun and is supposed to bey the sand to take keer of hisself. Ye may figger that Pete, who hadn't any gun him, turned pale and fell out of the saddle with a thump, but re'll be mis-taken if ye do. It took him some eetle time to realise the situashun, but he didn't skeer. When he got things straight he slid off his critter and li-on to Sam. Did the bold, bad man who has carried the county of Cold Chuck in his pocket fur a year drill holes through the half breed as he come? Not a drill. That half breed, who was thought to be a worm of the dust, takes the bold, bad man by the nose and leads him around fur awhile. Then he strips him of his weepins, pulls his ears, slaps his jaw and kicks him

around a bend of the trail. "What does the terrible terror of Cold Chuck county do? Hevin gives hisself away as a coward and a blow may furgit him? They are the Pa-houins, a savage tribe of the western coast of Africa. The main occupation of these people is the adornment of their persons. As the Pabouin's cloth-ing is of so light a character as not to abare-of his thought upon the adorn-ment of his body, which he tattess in elaborate designs done in red or blue. Or a more fanciful effect is obtained by tattooing in relief by injecting underneath the skin the juice of s plant which produces a permanent swelling. Sometimes the face and body are also tinted with a dye, red being the color most in demand.

The same methods are used in adorn-

ing the face, especial attention being given to the nose. Many of the Pahodins after tattooing or painting their noses pierce them with long, slender bones. Others after piercing the nose attach to it a string of colored pearls. Both men and women concentrate their efforts on their hair. Their ingenuity, which is shown in the construc tion of scores of different headdresse of bone and metal for the men of the tribe, chiefly the warriors, is illustrated in a far greater degree by the colffures of the women. The extreme of simplicity in the Pa

ORIGIN OF THE TERM "MOB" Used In Its Pivet Meaning in Time

As indicating the populace, prover-bially fickle and easy to be moved (mobile, from Latin mobilis), the expres-sion "the mobile people" is as old as the time of Chaucer, but in its later sense, that of the disorderly crowd, and in its contracted form, "mob," it is not older than the postrestoration period. In Roger North's Examen, 1740 reference is made to the Green Ribbot

club, 1680-2, and the writer adds:
"I may note that the rabble first changed their title and were called the mob in the assemblies of this clubfirst mobile vulgus, then contracted in one syllable." It was used hesitatingly at first by Dryden ("Don Sebastian, 1690). Durfy ("Commonwealth of Women," 1688) and Shadwell ("Squire of Aleatia," 1688), and Richardson points out that Dryden uses both "mobile" and "mob" in the sense of rabble, the former in the stage directions as the common word, the latter as if it had

not long been introduced. In 1711 The Spectator instances "mob" as an example of the popular tendency to curtail many of our words in familiar writings and conversation. The verb "to mob," derived of course as above, does not occur until the period of Horace Walpole, many years later, and Shakespeare's express "the mobied queen" ("Hamlet"), refer not to the "mob" (mobile), but to the headdress in disorder.—Boston Tran-

Aside from its national reputation it presents strong special proof to support its claim of being the only big show in America today. Since the Barnum & Bailey show went to Europe it is the only menagerie, circus and hippodrome that has exhibited in New York city and the general metropolitan verdict, recorded by immense audiences for two seasons at Madison Square Garden and in the press, seems to be that it has surpassed its great and popular predecessor. The World echoes the drift of public opinion in pronouncing it "the biggest circus New York has ever seen," and what held good there will doubtless hold good in the country at large, as the same attractions, whether on four legs or two, on the earth or in the air, or water-and all of them-will be as effectually presented wherever the biggest tents on earth are pitched. From start to finish, from the magificent street parade to the last of the hippodrome races, the exhibition is at once a colossus and a corker. There are acres and acres of instruction, elation, fun and wonder. Hours may be profitably and pleasantly passed in inspecting the largest and finest collection of rarest wild beasts and birds. When it comes to the circus and hippodrome performances there appears o be no limit to the thrills and ickles. Hundreds of distinguished artists and admirably trained animals participate in a hundred acts. Even the very air is alive wizard bicyclists, flying sprites and trapeze heroes and eroines, while in the rings below appear the nineteen finest male and female bareback riders of both Europe and America Interming-ling with all this and filling the very air with laughing gas are lowns of all kinds and countries to the number of twenty-five, whose music, mirth and infinitely icaland skits at current fads and fashionable follies make tens of housands hold their sides and hi-
