HIGH POINT, GUILFORD COUNTY, N. C., OCT. 22, 1902

Point

Woman Upholds Watterson

Wriving for the Courier-Journal, Mis W. H. Felton, a well known Georgian, wife of a former member of Congress and Federal judge, warmly takes up the cudgels on the side of Henry Watterson in his attack on New York society. She writes

"It is well to understand Mr. Watterson's articles apply to a great and according to their opportunity they are treading in the steps of trivolity and aping their manners and customs as nearly as possibly.

The proudest boast of the Southern Confederacy in defeat was the noble character and virtuous lives of its women. There may have been spies and traitors among them, but, bless God, we have never heard of them after 40 years of struggle and To-day there is no higher trial. strain known to civilization than the ante-bellum wife and mother of and clean living

What Becomes of Heroes.

It has been ascertained, it seems, that mere propinquity causes 67 per cent of all marriages, the other 33 per cent being credited largely to the "hero" who rescues the lovely maiden from the undertow, or finds her when lost in the woods, or drags her from before the wheels of a trolley car, or fishes her up when overboard from a yacht, or rescues her from an avalanche. After any one of these heroic proceedings it is strictly in order that a marriage license shall follow. But while we hear enough of the hero's achievements before marriage, it is to be regretted that statistics are wanting to show that he lives up to the character and remains a hero after marriage. Does he carry the baby cheerfully in the lovely hours of a frosty night with the incensibility to suffering which he once prided himself upon? Of course, he cau't keep snatching his wife from a watery grave every summer, but what does he substitute for it? It is to be feared that the hero relaxes and develops a study selfregard, as we never hear of his lege at foot-ball yesterday afterbrilliant exploits a'ter marriage. The heroine also becomes, it is said, a trifle matter-of-fact under the conjugal yoke, but she is believed to play the part longer than the hero.

DANGER IN POISON IVY. RICHARD WILLIAM VAUGHAN The First English Bank Forger and the Story of His Fall. How to Know the Plan dies if Affected by It. The story of the first bank forger

"If one knows how the Rhus toxico-dendron-that is the scientific name for poisonous ivy-looks," said a man of the woods, "he can avoid it with Richard William Vaughan, is little known. Vaughan was the brother of a Stafford lawyer and became clerk to a case. It is sometimes a low shrub about a foot high, and it is also a dicitor in London. He wished to sturry his master's daughter and prom graceful vine, with stout, hairy stoma This vine sends out horizontal branch ised to produce the sum of £1,000, which, he said, his mother would prees. The bush and the vine do not look alike, but both have coarse toothed, ent to him, half of it to be settled on his wife. On these terms the fathe oval pointed leaves. These are always ented to the marriage, and Vaughan btained a month's leave of absence. He occupied this period in obtaining engraved impressions in imitation of twenty pound Bank of England notes,

which was not such a difficult matter then, such things as forged notes be ing unknown. With fifty of these sham notes he presented himself at the appointed time, and his finncee accept-ed her share in perfect good faith, and the marriage preparations were proceeded with. Unfortunately he wanted ready mon

ey and put two of his own forged tes into circulation. They were chal lenged, when he became slarmed and tried to get back the notes he had given to the young lady, but she re-fused to yield them up, suspecting othing of their true nature, and when Vaughan was arrested next day she id hardly believe even then that wou she had been deceived.

The forger was tried at the Old Balley on the 7th of April, 1758, spending what was to have been his wedding day in the condemned cell. Four days later he was hanged at Tyburn.-London Standard.

Old Rules For Night Policemen Old Boston is vividly brought to mind by the following excerpt from selectmen's minutes, dated Nov. 1 1769, containing instructions to watch-

"In going the rounds care must be taken that the watchmen are not noisy, but behave themselves with strict decorum, that they frequently give the time of the night and what the weather is with a distinct but moderate voice, excepting at times when it is ary to pass in silence in order to detect and secure persons that are out on unlawful actions.

"You and your division must endeavor to suppress all routs, riots and other disorders that may be committed in the night and secure such persons as may be guilty, that proper steps may be taken next morning for a cution as the law directs. We abpros solutely forbid your taking private satisfaction or any bribe that may be offered you to let such go or to conceal their offense from the selectmen."

Character In Nicknames When Austria was only a dukedom there were three rulers who won for

themselves the respective titles "Cath-olic," "Glorious" and "Warlike." The first was perhaps a religious man, like Ferdinand the Catholic of Spain. The ond may have been like Lorenzo the Magnificent and the third a great was rior. And so from these titles or nick names we have likewise some idea of the conditions of the people while these dukes ruled.

France has had a most wonderful as sortment of kings. One was the Little and another the Bold. One was the Stammerer, another Simple, while a third and fourth were Indolent an These names are descriptive of the kings themselves, but it is hardly to be supposed that a king who was indolent or simple did much to further his subjects. But whe

A HARROWING RIDE. Diekens' Trip by Stageéoach From Cleveland to Sandusky.

Enterprise.

When Charles Dickens visited Amer ica in 1842, he traveled by stagecoach from Cleveland to Sandusky, O. De scribing his experience, he wrote:

"At one time we were all thrown to gether in a heap at the bottom of the coach, and at another we were crushing our heads against the roof. Now the coach was lying on the tails of the two wheelers, and now it was rearing up in the air. The driver, who certainly got over the ground in a manner uite miraculous, so twisted and turned the team in forcing a passage cork-screw fashion through the bogs and swamps that it was a common circumstance on looking out of the window to see the coachman with the ends of a pair of reins in his hands, apparently driving nothing, and the leaders star-ing unexpectedly at one from the back of the coach, as if they had some idea

of getting up behind. "A great portion of the way was over what is called a 'conduroy road,' which is made by throwing trunks of trees into a marsh and leaving them to set-tle there. The very slightest of the jolts with which the ponderous car-riage fell from log to log was enough t seemed, to have dislocated all the bones in the human body. It would be impossible to experience a similar set of sensations in any other circumstances unless perhaps in attempting to go up to the top of St. Paul's in an

This description serves to illustrate the condition of our country roads, generally speaking, as they were half a century ago except in a few wealthy communities. There has been a wonferful change since then.

Peking Village Names. "The Street of the Roasted Corn" is

one of the curious names of streets in Peking and suggests the singular and often confusing names given to Chiacse villages. Here are a few village names taken from an area of a few miles square: "Horse Words Village," from a tradition of a speaking animal; "Sun Family Bull Village," "Wang Family Great Melon Village," "Tiger Catching Village," "Horse Without a Hoof Village," "Village of the Loving and Benyalest and Benevolent Magistrate" and the Village of the Makers of Fine Tooth-

Arthur H. Smith in his book on "Village Life In China" says that a market town on the highway, the well of which afforded only brackish water, was called "Bitter Water Shop," but as this name was not pleasing to the ear it was changed on the tax lists to "Sweet Water Shop." If any one asked It was that the same fountain could thus send forth at the same tim

waters both bitter and sweet, he was answered, "Sweet Water Shop is the ame as Bitter Water Shop."

Speak Kindly Words Now. In the course of our lives there must be many times when thoughtless vords are spoken by us which wound the hearts of others, and there are also many little occasions when the word of cheer is needed from us and we are

There are lives of wearisome monot ony which a word of kindness can re-lieve. There is suffering which words of sympathy can make more endurable, and often even to the midst of wealth and luxury there are those who listen and long in vain for some expres ion of disinterested kindness. THE ENGINEER DEAD.

How Capt. Figart Lost His Life Near Walnut Gove. Engineer W. B. Figart, who was badly injured Monday afternoon in the headend collision near Walnut Cove, died at 9:50 last night. He was the engineer or the passenger train, and he leaves a wife and one child The remains were sent to Roanoke today for interment. The wreck occured about half a mile from Walnut Cove. Engineer Wallace was in charge of the freight engine. He had received orders to go to Pine Hall to bring

in a freight, the engine of which had broke down. Engineer Wallace then started to the Water tank, about one mile of Walnut Cove, where he intended to side track for the passenger. In rounding a sharp curve he saw the smoke from the approaching passenger engine and blew his whistle

the same time reversing his engine, and started backward, but the passenger train struck his engine, before it had moved very far Both engines were badly demolished -the cab to the passenger being torn off Engineer Figart was thrown against the boiler with great force by the jar, and his sguli was fractured, resulting in concussion of the brain, which caused his death.

The other injured were: Conductor Johnson, of the passenger, hands slightly burned; Fireman Robinson, of the passenger, ankle sprained and otherwise bruised; Engineer Wallace, of the freight, slightly bruised; Dr. Abe Jones, of Walnut Cove, a passenger, a slight scalp wound. There were a num-

porators are John Mendenhall, D. J. Hill, George W. Montcastle, C. W. Trice, B. F. Ausband, J. C. Barker, C. L. Leonard, R F. Heit-man, J. W. Lindsay, B. H. Finch, G. F. Hawkins, S. J. Coley, J. B. the company.

Small, W. G Berry. B. W. Trice will be seceetary and treasurer of Frank Wayne Captured.

Sheriff Burns, of Cumberland county, Monday telegraped to Governor Aycock that he had captured nave been Engineer Figant's run Frank Wynne, the negro murderer who jumped a \$2,500 bond in Wayne county, and for whose apprehension a reward of \$150 was offered. He is one of the richest Boyes and associates.—Winston Sentinel. —Winston negroes in Wayne, and is accused of killing Charles Wayne, a rela-

tive. Murder in the second degree is the charge against him.

Burglary at Hinston.

Kinston, N. C., Oct. 11.-The residence of Mr. J. C. Wagner, of this city, was burglarized last night. Entrance was made through Roosevelt when as a little child it the window into a bed chamber was shown to her by her step- of Mr. Wagner, occupied by himmother, and Mrs. Roosevelt then self and friend. The trousers pockets of Mr. Wagner were rifled of he gown for her own when she their contents, the burglars getting some \$35 in money.

Whisled to Death.

Charlotte, N. C., Oct. 13.-Special.-B. Frank Hornbuckle, overseer of the card room at Atherton cotton mills, met a horrible death this morning. Hornbuckle at-tempted to replace a bolt while the machinery was in motion. The swiftly revolving belt caught him and whirled him with awful force several times around the shaft before the ponderous machinery could be stopped. When extricated it was found that the unfortunate man's neck was broken and his shoulder dislocated. Hornbuckle was a native of Concord. He leaves a wife and two children.

Battery Park Loased.

Asheville N. C., Oct. 13.-The lease of the Battery Park Hotel has been secured by D. C. Wad-dell, Jr., from Col. Frank Coxe, and Mrs. Waddell assumes control of the hotel today.

nt. This han from any other silment. This is shelly unnecessary too, for a cure may be effected at a very small cost. O. # Wincott, of Meadowdele, N. Y., says: "I have been afflicted with theumathen for come time and it has caused me meth-miliering. I concluded to try Cham'ser-ain's Pais Ba'm and am pleased to any hat it has cured me."
