MRS. FLOWERS INJURED

Durham, June 15.—News has been received that Mrs. Henry C. Flowers, of Kansas City, daughter of Gen. Julian S. Carr, of this city, was badly bruised and hurt a few days ago by being thrown from her carriage. A Kansas City paper says that the coachman guided his horses so as to miss one street car, but another car struck the wheels of his carriage and Mrs. Flowers, her daughter Ruth, and niece, Ruth Patton, were thrown to the ground. Mrs. Flowers was the only one hurt. She was attended by a physician. Later advices from Kansas city say that she is getting along very nicely.

ANNUAL CONCERT.

Last night closed a most interesting series of entertainments given in the new college chapel of Greensboro Female College. This was the annual concert under the direction of Prof. Carlo Moro assisted by Miss Ethel Blalock. Every number on the program was well rendered, the young ladies acquitting themselves very creditably. While the concert had selections from the very finest composers, there was melody, system and sprightliness in the selection, which showed the nationality of the director.

The wonderful progress made by Prof. Moro's pupils eloquently to the ability of the teacher to bring out and direct the talents of his pupils. The proceeds from the concert, in which was both vocal and instrumental selections, were appropriated by the young ladies to their pledge of \$200, which they were to raise toward paying for the completion of the chapel, \$55.75 being realized.

While the aesthetic side of College life was brought out in these closing exercises, the best talent is employed also in other departments. The Bible department, which has been added to the course, will tell for great good in years to come. We spend years on the languages and the sciences, and do no systematic study of the Bible.

The memory of the first commencement in G. F. C.'s rehabilitated walls will long linger with those of the visitors and alumnae, who enjoyed the privilege of being here, while the charming hospitality extended by the college and local alumnae will linger as the fragrance of the rose—long after it has faded and gone—Greensboro Record.

THE INDUSTRIAL NEWS

Directors Adjourn After Closing Contract for a Fine Goss Press.

The directors of the Industrial News Publishing Company who were in session here until a late hour Wednesday night have finished their work and departed, Marion Butler left at noon yesterday for Washington.

Mr. R. D. Douglas, secretary and treasurer of the company, said the directors signed up the papers for a sixteen-page rotary Goss press which is now being built and will be delivered here in about 30 days. He said that the papers had previously been signed for the purchase of two linotype machines and, as has been stated already, for the Associated Press service.

Mr. Douglas said that it was a physical impossibility for the paper to start by July.

Several of the directors sauntered over the business streets yesterday look for a suitable home for the paper. Postmaster Tyre Glenn and Marion Butler together were the couple whose movements attracted the greatest attention. Among the places considered as a suitable home for the new paper was the Hendrix building on East Market street where the postoffice was while the federal building was being remodelled.

Asked as to who would edit the paper, Mr. Douglas declined to reply. The reporter couldn't learn whether the editor had been selected and the directors were not ready for his name to be divulged or he had not been selected at all.

Mr. G. Sam Bradshaw was approached with regard to the prospects of the "Tar Heel." He said it had been the policy of the promoters of the "Tar Heel" all along to go slowly and conservatively and not to waste money in a frantic effort to get a paper started in record-breaking time.—Telegram

Letter to Rev. Whitaker, High Point, N. C.

Dear Sir: In making pastoral visits, of course, you do not consider your pleasure or comfort or ease; you go where your people live. But you have two sets of feelings in going about—can't help it—we all have. But you especially have; for a part of your business is sympathy. Well-kept lawns and well-tilled fields, nice homes and nice people, are cheerful to you, as they are to everyone. Tumbledown buildings, poor fences, men harassed by burdens too heavy for them, overworked women, and dirty-faced children, you may be strong to get on with; but you would be more than human to find inspiration in misery.

Paint divides the two sorts of people: one paints, and the other don't. Or, perhaps, the thrifty paint well; the unthrifty paint ill.

To paint well is to keep paint sound. There are two ways to do it: one is bound to paint often; the other to use good paint.

It costs about half as much to print Devoe as to paint with any other paint; for Devoe takes fewer gallons than mixed paints and wears twice as long as lead-and-oil.

The thrifty and comfortable have the art of using money more wisely. How lucky they are! how happy!

Yours truly

ELEVEN NEGROES DEAD

Griffin, Ga., June 18.—Chief of Police Phelps says his latest information regarding the shooting on the negro excursion train on the Southern last night is that eleven negroes are dead. Two Griffin negroes of bad reputation are held as suspects. They say a craps game, which had been going on all day Saturday, was the cause of the trouble, and that the fighting began in Atlanta, and raged unceasingly with revolvers and razors till Griffin was reached. Officers are at work on the case.

The Tar Heel directors have met presumably to call to account Mr. Al Fairbrother, who made such a scoup on their plans.

NEW AUTOMOBILE INSURANCE.

It takes the life insurance people to keep up with the march of events. Within a few months two companies have taken up the insurance not only of automobiles, but of the owners and drivers. The machine is insured against fire and other damage, the owner is secured against damage suits caused through the actions of his auto, civil suits are defended for him, and all penalties except actual imprisonment assumed by the assurers. If a lamp or other part of the outfit is stolen it is replaced by the company, and if the driver is taken ill or injured in an accident he gets a weekly allowance, with a substantial sum for his heir if death issues. If there is any contingency uncovered the company would like to know of it.—New York Sun.

MENDENHALL-HARMESON

Perhaps no more beautiful day could have been chosen for a wedding day than Tuesday, June 6, 1905. The spring seemed to halt as the weather deepened into summer only a few hours before. The heat had not withered a single blossom far or near. The freshness of nature still covered the plains and the wild flowers held their heads as bright as ever in the warm sun light. The green swards were radiant in their verdure and the air of the whole village was redolent with the rich perfume of thousands of flowers.

Beneath the glorious trees stood the cottage of Mr. and Mrs. A. P. Spaulding, whose niece, the daughter of the household, was to be married to John L. Mendenhall of Williams, a young man of worth and popularity, one known to the citizens of his locality as most worthy of the prize he was winning. The highest compliment that can be paid any man is to say that he is worthy of the regard of a good and beautiful woman; that he bears a name that she can afford to take and wear with honor to herself and friends. When we speak of Miss Hattie Amelia Harmeson as a good and beautiful woman we speak of apparent facts and we mean the statement to include all those superior qualities of heart and mind that the word beautiful so sweetly describes.

A young lady of merit and worth she has been a daughter to the aunt whose namesake she is and she took rank as one of the fine business girls of Colusa. Millie, as she is known among kindred and friends, is the embodiment of all that a lovely woman should be and Colusa will feel the loss that must be to Williams such a gain and the old folks at the home of Spaulding's will miss the radiant child of their adoption.

At the appointed hour the minister arrived and the bride was led into the room of pink and green effects on the arm of her uncle, A. P. Spaulding, and among the flowers there was met by the groom in conventional black, while she wore a crepe de chene gown of purest white over silk. In her hand she held a large, graceful bouquet of white carnations and delicate green ferns.

The ceremony was most interesting, the prayer beautiful and touching, and when Rev. W. P. Baird pronounced them husband and wife, eyes were moist while smiles of happiness were on the faces of friends and relatives.

There were many presents, both costly and useful—too numerous to mention. They were valuable indeed, these gifts of affection.

The guests at the wedding were nearly all related to the young couple. Mrs. Amelia Caswell, the grand-mother of the bride and her son, Alonzo, Mr. and Mrs. A. P. Spaulding, Mr. and Mrs. W. C. Spaulding and little daughter, Mrs. Fannie Belle Mendenhall and son of Williams, Arnold Caswell and family, J. N. Scoggins and family, Mr. and Mrs. Robins of San Francisco, A. P. Caswell, Carelton Harmeson, Rev. W. P. Baird and wife and Mrs. W. S. Green.

[The above is from the Calusa County (Cal.) News. The groom has many relatives near High Point and is well known here.—Ed. Enterprise.]

THE SOUTH-BOUND.

Winston-Salem, June 19.—Up to this time \$290,000 has been voted in bonds for the proposed Southbound Railroad. Elections are to be held in two other townships along the line July 20. These are Albemarle, which is asked to subscribe \$25,000, and Norwood, \$10,000.

Capt. Henry, who has been with the surveyors, states that the survey made was entirely satisfactory. It shows fine grade and a splendid road. Colonel Fries said that assurance cannot be given that the road will be built until the reports are received from the engineer who made the survey. The parties who proposed to build the Southbound asked for Subscriptions to the amount of \$500,000, but it is believed that they will accept the \$325,000 and build the road.

HIGH POINT AT WINSTON.

The baseball contest between the High Point and Y. M. C. A. team is on this afternoon at Fairview park. The visitors came in this morning, driving through the country in a hack.

"They are grown men and I don't know what we are going to do with them," remarked the manager of the Y. M. C. A. team today. "We will play them just the same," he continued, "and I feel that we will at least make a good showing."

"It is not generally known that the association's pitcher, Mr. George Crutchfield, is deaf and dumb. He is a fine twirler, however, and thoroughly understands the rules of the national game.

"Bud knows all the signs and manuevres in the game and no one keeps up with it better than our pitcher," said a member of the team this afternoon.

Strayhorn and Crouch form the battery for High Point, while Crutchfield and Martin hold the same positions for the locals.—Winston Sentinel.
