A Fine Whooping Cough remedy.
Mothers, Dr. Bell's Pine-Tar-
Honey is just the remedy for your
children's cold ailments. The fact
is that pine is a quick enemy of
cold conditions. Its qualities
loosen the mucous in the throat,
soothe the lungs and open up the
air passages. The combination of
honey, soothing and an ideal
loosening pine quality makes this
an ideal cough remedy for children.
Each passing year brings for it,
new friends. A family of growing
children cannot afford to be with-
out it. 25c a bottle. Adv.

School Buildings—Better and Safer Fire Protection in Schools.

In a pamphlet just issued by the
Insurance Commissioner, he says:
LET US CONTINUE TO ERRECT SCHOOL
BUILDINGS, BUT NOT OF THE
"BUILT TO BURN" CHARACTER.

In America we build twelve
school houses and two colleges ev-
ery week. In the United States, a
fire occurs every day in some
school. The loss of life is great,
while the loss of property amounts
to several hundred thousand dol-
lars. The American people have
given less thought to the protec-
tion of schools and their precious
contents than has been given to
manufacturing plants and build-
ings in general. Frequently the lives
of our children are saved simply
because the fire occurs while the
school is not in session.

The above statement contains
warnings for us here in North
Carolina. We are in the midst of
a great educational uplift and ad-
vance. We are building an un-
usually large number of school
buildings and collecting in them
our children and their teachers.
We are looking after the appear-
ances of these buildings and their
adaptability to teaching, but pay-
ing little or no attention to their
safety, or even economy of erec-
tion. A large majority of our
school buildings are of the most
dangerous character, calling for
heavy depreciation and constant
repairs, largest insurance rates and
fewest exits. These buildings are
not only easily fired, but of the
character to burn most rapidly
when once fired.

With a view of bringing about
a change in these conditions, your
careful attention is invited to the
letters and other data herein. Let
us inform ourselves and the peo-
ple and we will get the results de-
sired—better and safer school
buildings.

A Spinning Party.

Mrs. Haygood White was hos-
tess at a very enjoyable spinning
party given at her home near
Murfreesboro, N. C., Nov. 12, for
the entertainment of the little
folks. Those carding and spinning
were Mesdames Vaughan, T. B.
Parker and Thad Sewell.

The children were very interest-
ed, and most every one present
tried his or her hand at spinning.
Candies and fruit were served,
games played and fortunes told.
There were a number of young
boys and girls present who joined
the children in the games and fur-
ture telling. They also enjoyed
and were very much interested in
the spinning.

Reported.

Superintendent Joyner Optimistic

Dr. J. Y. Joyner, of Raleigh,
Superintendent of Public Instruc-
tion, expresses himself as being
highly gratified with the progress
that is being achieved by the
moonlight schools throughout the
State.

"The movement is getting rapidly
underway," declared Doctor
Joyner, "and from the reports
that are coming into the office,
gratifying progress is being
achieved everywhere. The ex-
pressions on the part of the teach-
ers are highly enthusiastic and
there are some interesting citations
given. One teacher reported that
three of her pupils had learned
to write on the third night. The
number of adult illiterates enrolled
is large.

"We are anticipating splendid
results, for the papers have re-
sponded nobly to the calls made
upon them, the Junior Order like-
wise and also the women's organi-
zations, farmers' clubs, etc. In
deed with such co-operation of ef-
fort, much should be accomplished
toward wiping out adult illiteracy
in North Carolina."

UNFORTUNATE SMALL TOWNS.

Natural Means of Water Supply and
Sewage Disposal Make a
Town Unfortunate.

The "unfortunate small town"
as explained by Dr. G. M. Cooper
of the State Board of Health re-
cently, is the town that depends
on "natural means" for its water
supply and sewage disposal. "Such
towns have from several hundreds
to a few thousand population with
none of the safeguards against dis-
ease and insanitary conditions that
larger towns and cities have. For
this reason, these small towns are
more unhealthy than even the
country. They have a congestion
of people with no protected water
supply, no sewer system and prac-
tically no public health super-
vision. Private wells, open closets
and breeding places for flies—the
three curses of public health—are
every where, and what is worse,
the town is so poor (mentally) that
it cannot afford anything better.

"The general tendency of the
unfortunate small towns is to trust
to luck and the luck is often mis-
erable. Typhoid fever pays them
an annual or semi-annual epidemic
and tuberculosis is an ever present
plague. They have perhaps an
annual clean up day or week but
the spell and its effects are soon
over. From appearances the
health officer is merely nominal
who rests in peace the greater part
of the year, unless a few women
"start something." Such apathy
usually exists till the price of it is
paid in probably some epidemic
that costs the town a number of
bright young lives.

"Fortunately," said Dr. Cooper,
"all small towns are not in the un-
fortunate class. They are wise
enough to make provision against
the evil day that is sure to come
to the poor (1) town unable to
safeguard its health.—Health
Bulletin.

Australia contains about 45 horses
to every 100 residents.

Daily thought.
It is only through labor and pain-
ful effort, by great energy and resolute
courage, that we move to better
things.—Theodore Roosevelt.

That's Different.

A man makes fun of the cigars his
wife buys. Yet many a woman suf-
fers in silence while a man smokes
the cigars he bought himself.—Wash-
ington Star.

MISS ANNIE SCOTT.

Suffolk, Va., Nov. 15.—Miss
Annie Scott, for seven years man-
ager of the local Postal Telegraph
Company's office, and one of the
most popular young women of the
community, died last night at mid-
night, at her home on Mill Street,
after a lingering illness of more
than a year.

She was twenty-five years of age
and by her cheerful courtesy while
in the business world, and her un-
complaining patience during a long
and painful illness, had endeared
her to all who knew her.

She is survived by one brother,
Claude Scott, and four aunts, Mrs.
J. D. Bozeman and Mrs. Josephine
Williams, of Ahoskie, N. C., and
Mrs. Ella Bryant and Mrs. Eliza-
beth Vinson, of Murfreesboro,
N. C.

Miss Scott was a faithful mem-
ber of the Suffolk Baptist church,
and was a Sunday school worker
up to a year ago, when her health
failed.

The deceased was a native of
Hertford, N. C., but removed to
Suffolk at an early age.

The funeral services were held
this afternoon at the Baptist
church, conducted by Dr. F. H.
Martin.

The pallbearers were selected
from the officers of the church and
Sunday school.

Appropriate music was rendered
by the choir of the Baptist church,
and there were many floral offer-
ings. The interment was made in
Cedar Hill cemetery.—Virginian-
Pilot.

Death of Infant Boy.

Sunday afternoon at 3:30 o'clock
the infant son of Mr. Omie Hill
and wife, living near Bethlehem,
was laid to rest in the graveyard
near the residence of Mr. Samuel
J. Hill.

We sympathize with these young
parents in the loss of their little
child. Jesus said to Peter: "What
I do thou knowest not now, but
thou shalt know hereafter."—Re-
ported.
