NORTH CAROLINA GOOD ROADS ASSOCIATION

ANNUAL MEETING JUNE 21-23

Some Things You Want to Know if
You are Going to Be "IN" on
the "BIG EVENT" of the
Year at Wrightsville,
June, 21-23.

Do you want to forget self and
take part in a big history making
movement?

Attend the North Carolina Good
Roads Convention at Wrightsville
Beach, June 21-23.

Some reasons why you should
attend this convention are:

Because you will be able to in-
crease your environment by tak-
ing part in a movement which is
now state-wide and nation-wide.

Because you should help create
sentiment for the best possible ex-
penditure of the money you are
each year putting on the public
roads in the way of taxes, auto-
mobile license fees, bond issues,
etc.

Because you are personally in-
terested in the proper maintenance
of every mile of public road in
North Carolina. Why? If you
own an automobile, you may go
over any one mile of road in the
State at most any time and if it is
not in good condition, that mile
may cost you \$100 or more for
repairs. Even if you do not own a
machine and are a city dweller, the
condition of the country roads af-
fect your business very vitally if
you are a merchant, a doctor, a
rural preacher, or whatever may
be your calling or profession or
trade. If a farmer, the condition
of the roads is still more a vital
problem with you, determining
your time and cost of haulage.

Because the Federal Govern-
ment is now taking an active in-
terest in Road Construction and
Maintenance and we all want
North Carolina to get the greatest
possible benefit from this coopera-
tion right from the beginning. Let's
not lose a dollar from lack of
cooperation or dilatoriness on our
part. We want to get together
and talk it over!

Because we want system of roads
in North Carolina. We want our
roads to begin somewhere and end
somewhere so that if you start
from Wilmington or Newbern or
Goldsboro or Fayetteville or any
other town in the State and want
to go to Asheville or any other
town, you do so with a maximum
of comfort and pleasure and a min-
imum of expense.

Because you constitute a unit in
this commonwealth and no great
movement can go forward with the
greatest momentum unless all the
units get together and work in
harmony.

Because the people of Wilming-
ton and New Hanover County are
spending a great deal of time, en-
ergy, money, and thought to give
you the best and most profitable
time of your life.

Beach, will fix you up for men's

SOME SUGGESTIONS ABOUT THAT EARLY GROWTH CORN

Hold the Moisture in the Ground
by Constant Shallow Cul-
tivation—Recent Rains
not Detrimental.

Corn which was planted early
has probably come up to a stand,
but has grown very slowly on ac-
count of the drought. This could
hardly be a disadvantage, because
corn seems to do well if it does not
grow too fast when young and if
there is enough plant food and
moisture in the soil when the ear
forming.

It is now the time when this
moisture should be kept in the
soil for future use. Constant shal-
low cultivation will keep it there,
and the young weeds and grass be-
ginning to grow will also be kill-
ed by the operation. Corn Club
boys should remember especially
about the value of mulch. This
constant shallow cultivation will
provide the mulch that holds the
moisture in the earth.

Some corn has been planted after
clover. This seed bed should be
thoroughly prepared with the har-
row and plow, and then the corn
thick enough to prevent the nec-
essity of replanting. It should
then be worked rapidly and thin-
ned out to a proper stand later on.

The side application to the corn
should be applied when the growth
is from 10 to 24 inches high. If
nitrate of soda is used, the appli-
cation should be made when from
2 to 3 feet high. A good side ap-
plication this year is equal parts
cottonseed meal and acid phos-
phate mixed together and applied
at the rate of from 200 to 400
pounds per acre. This mixture
should not be applied late in the
season if the plants are to have
advantage of the plants are to have
advantage of the food it contains.
It also should not be applied too
near the corn roots. The middle
of the row, when the corn is plant-
ed in 4-foot rows, is a good place
for it, and it should certainly not
go nearer than 12 inches to the
base of the stalk.

Livestock Association for Hertford County Farmers

Organization Perfected and Officers
Elected at Winton—Dr.
Owens Speaks.

The Hertford County Livestock
Association was organized at Winton
Monday, June 5, with the follow-
ing officers: J. J. Vann, Presi-
dent; N. B. Sewell, Vice-Presi-
dent; O. P. Snipes, Secretary and
Treasurer. The following were
elected directors for their respec-
tive townships: Winton, B. G.
Williams; Harrellsville, B. N.
Sykes; St. Johns, J. L. Snipes;
Ahoskie, C. C. Hoggard; Maney
Neck, S. P. Winborne; Murfrees-
boro, D. L. Parker.

A fair sized crowd of farmers
and stock raisers were in Winton
to attend the meeting, which was
called to order and presided over
by Dr. M. G. Smith, who has this
work in charge in this county.
Dr. Owens, of Norfolk, was pres-
ent and made a talk, in which he
told of the work that had been
done, and what they are hoping to
accomplish in this county through
active co-operation. He outlined
the work and method of work, and
at the expiration of his speech, the
above named officers and directors
were elected.

Several short talks were made
by those of the audience. Every
one expressed the hope that sev-
eral dipping vats might soon be put
into operation, and many planned
to that effect.

Do it now. Subscribe for the

NEXT GOVERNOR OF NORTH CAROLINA.

HON. T. W. BICKETT

RESULTS OF PRIMARY IN HERTFORD COUNTY.

Garrett Wins over Vann for Sheriff.
Bickett Receives Handsome
Majority—Light Vote
Polled.

Sheriff A. E. Garrett defeated
his opponent, J. N. Vann, for that
office. Over in St. Johns Town-
ship, the only township in which
there was a contest for County
Commissioner, J. M. Eley turned
the trick on J. N. Holloman, the
present incumbent, Mr. Eley win-
ning by a two to one vote. There
were several close contests for
township tax collectors and in
three townships no one received a
majority. It is probable that a
second primary will be entered
into by the two highest candidates
in both St. Johns and Ahoskie
Townships.

The following is the vote by
townships for the various tax col-
lectors, county vote for Sheriff
and State senators:

State Senate: J. S. McNider 504,
Walter L. Cahoon 484, Edwin R.
Johnson 321. Sheriff: A. E. Gar-
rett 540, J. N. Vann 487.

TOWNSHIP VOTE.

Winton. Tax Collector: Mat-
thews 49, Vann 35, Banks 21.
St. Johns: Commissioner; Eley
165, Holloman 82; Tax Collector,
Sumner 79, Vinson 105, Dunn 46,
Cooke 19. Ahoskie: Tax Collector;
Vaughn 133, Cooke 94, Copeland
56. Murfreesboro: Tax Collector;
T. T. Parker 132, N. S. Joyner
43. Maney Neck: Tax Collector;
Hill 61, Bailey 37, Brett 6. Har-
rellsville: no contest.

Hertford County fell in line
with the majority of the counties
in the State by giving Bickett a
nice majority for the nomination
of Governor on the Democratic
ticket. All of the other state of-
ficers received large pluralities,
and most of them received majorities.
Manning leads in the race for
Attorney-General, with Jones a
close second. The following fig-
ures are the official returns of bal-
lots cast in Hertford County for
State Officers:

VOTE ON STATE OFFICERS

For Governor; Bickett 582,
Daughtridge 258. For Secretary of
State: Grimes 425, Hartness 63,
Clark 311. For State Treasurer:
Lacy 359, Mann 350. For Attor-
ney-General; Manning 383, Jones
221, Sinclair 33, Calvert 146.
For Commissioner of Labor and
Printing; Dellinger 285, Shipman
317. For Corporation Commis-
sioner: Boyd 250, Lee 369. For
Commissioner of Agriculture:
McKinnon 150, Graham 469, Hobbs
36. For Insurance Commissioner:
McCrenaghan 262, Young 419.

There were but a few to express
their preference for presidential
nominee. 607 votes were cast for
Wilson, 193 for Marshall, and five
for Roosevelt.
