WORLD'S PREM- IER INVESTMENT

Liberty Loan Bonds Have Advantages Possessed By No Other Bonds Ever Issued—They Are Widely Distributed.

The law authorizing the issue of the Liberty Loan Bonds of 1917 invests these bonds with certain advantages which no other bonds in the world, be they national, state, municipal or corporate, possess and makes them in many respects a uniquely desirable investment.

These bonds are not taxable by nation, state, county or city; nor will any war tax subsequently levied by the United States during this war affect them. State, county and city taxes often amount to as much as three cents on the dollar; the exemption from taxation of these bonds makes them in such cases equivalent to a 6 one-half per cent investment. An investment absolutely safe bringing 6 one-half per cent exceptionally desirable.

The holder of these Liberty Loan Bonds are given the right, should the United States subsequently during this war issue bonds bearing a higher rate of interest, to exchange their Liberty Loan Bonds at par for similar bonds bearing the higher rate. Holders of Liberty Loan Bonds are assured that their investments will not be impaired in market value by coming in competition with later issued bonds of the Government bearing a higher rate of interest.

There is yet another quality attaching to these bonds which give them a world-wide value and character which no other bonds in the world possess, and which will not only create the widest possible market for their sale when normal times come again but which stabilize their value throughout the world. This is best expressed by the New York Times:

"One merit of the Liberty Loan is the market it will have. No other bond will have equal value throughout the nation, or a like international value. No other bond can be bought and sold on a universal quotation and in leading centres in any amounts without spoiling the market. There will always be bids and offers for the Liberty Loan, and they may be cashed and bought for cash with the greatest ease. The Liberty Loan will be related to the money market more closely than other bonds, and, furthermore, will be related to the gold market as a consequence of having an international market.

Government bonds are now being exchanged so generally and in such sums that there is a prospect of realization of the idle dream of the past that a substitute could be found for international shipments of gold on the balance of merchandise exchanges. It is easier and safer to ship securities than species, and the international relations are now becoming so intimate that bonds in safe deposit may be sufficient guarantee to credit exchanges without shifting even securities from one side of the ocean to the other. The Federal Reserve Bank now balances credits by telegraphic orders on a gold fund at Washington, without shifting the gold. It is not difficult to believe that the relations between the Federal Reserve Bank and the Bank of England may yet justify the control the international exchanges in the same manner, under the safeguard of an exchange of securities as good as gold.

These uses give a value to the Liberty Loan which can be shared with no other bonds. The modest holder of a few hundreds or thousands of the world's premier security may consider that such uses are nothing to him. That is a mistake. He may not want the loan for those purposes, but the fact that the loan has such uses adds to its value in the hands of even the smallest holders. The Liberty Loan is a nation-

FARMERS SHOULD PLANT MORE COWPEAS

C. B. Williams Advises Farmers to Plant Enough Cowpeas to Supply Their Families' Wants—Nutritive Value.

West Raleigh, N. C., June 6.—It should be the aim of every farmer to grow and save at least enough cowpeas for the needs of his own family. Only small acreage would be required to provide for these needs. This being a leguminous crop, might well be grown much more largely than it is at present. It produces an excellent quality of hay; is well suited for crop rotations adapted to the needs of the soils of the State; is a soil-improving crop when properly handled; and, in addition, the peas have great food value for man, while the hay and peas have high feeding value for domestic animals.

It may be of interest to know that cowpeas contain on an average 60 per cent higher protein than is contained in wheat flour manufactured by the patent roller process, according to Mr. C. B. Williams. This higher protein content gives the peas a very high nutritive value. The fuel, or energy-supplying value, for one doing hard manual work, of peas is about the same as that of patent flour which, at the present costs 50 to 60 per cent more per pound than do peas.

This is a time when our people should look to the utilizing of food products in an economical and intelligent way. Most of our people are accustomed to eating peas, but this appears to be the year when their more general use as a food product should be practiced.

Murfreesboro Commissioners

Murfreesboro, May 25—Board of Town Commissioners met with the following present: J. C. Vinson, Mayor, M. E. Worrell, L. J. Lawrence, D. C. Barnes, Commissioners. Meeting of last meeting read and approved.

Treasurer reports balance due town \$26.81. On motion the Mayor is appointed a committee of one to adjust the unsettled balance between Town of Murfreesboro and L. W. Griffith. Treasurer is directed to settle balance due on salary due constable. Treasurer is also directed to pay commissioners and mayor their salaries, as follows: J. C. Vinson \$6.50, D. C. Barnes \$6.50, M. E. Worrell \$5, G. N. Harrell \$5.50; L. J. Lawrence \$5, Godwin Jenkins \$7.

On motion the Board adjourned, sine die.
E. N. Evans, Secretary.

Valuable Sprays.

FOR POTATO BUGS

1 lb. dry arsenate of lead (2 lbs. if paste); 25 gallons of water.

FOR POTATO BLIGHT AND BUGS

4 lbs. stone lime or plaster; 3 lbs. bluestone (copper sulphate or blue vitrol); 3 lbs. arsenate of lead (14 lbs. if dry); 50 gallons water.

PARIS GREEN FOR BUGS

1 lb. paris green; 15 lbs hydrated lime or landplaster.

FOR HOG LICE AND TICKS

A mixture of kerosene and distillate or any cheap oil, or coal tar product. Kerosene alone will burn the hog.

The arsenate of lead or the paris green sprays can be used for killing the bugs on cabbage, collards etc.
E. R. Raney

Drives Out Malaria, Builds Up System
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out MALARIA, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c

The Liberty Loan Bonds are the premier security of the world today.

WINTON WAVELETS

Judging from the number of mistakes in the Winton Wavelets last week, we think the "Devil" must have set up our news. Ye Editor has been setting up the Winton news, for nobody else in the office could read it. What he can't read, he guesses at, and is generally a good guesser. (Our guess failed last week—Ed.) However we shall call attention to only one mistake. The HERALD said Winton would help the Armenian Relief Fund in a sympathetic way, when it ought to have been systematic way. Too many people are helping in a sympathetic way only, and that is the reason the Armenians and Syrians are starving by the thousands. They have Winton's sympathy and will have some of Winton's money. At the mass meeting held in the Court house Tuesday night, Mayor Boone appointed a committee, composed of members of the different churches to have charge of the work.

The Red Cross Chapter, which has been organized recently, held a very interesting meeting in Dr. Pollard's office Friday night.

Rev. J. N. Bynum, Scout Master, and seven of the Boy Scouts left Monday for Washington, D. C., to attend the Re-Union. The following boys composed the party: Eddie Knox, Julius Britton, Shepard Story, Royce Eure, Leslie Hale, Max Watson, and Jamie Sears from Union. They will not return home before Saturday.

Mrs. J. A. Northcott received a message Friday morning, stating that her father, Mr. Jake Lassiter, was critically ill. Mr. and Mrs. Northcott left immediately for Rich Square. Mr. Lassiter died Saturday morning at nine o'clock. Mrs. Northcott has the sympathy of her friends in her bereavement.

Mr. Schuyler C. Bristol, of Zuni, Va., and Miss Joyce Carter, of Gates County, were married at the Baptist parsonage Friday June 1, Rev. S. N. Watson officiating. Several relatives and friends of young couple were present. The bride is a cousin of Mrs. E. L. Barnes.

Mr. Wayland Barnes, of Lewisville arrived in town last week to take charge of the telephone office. Mr. Barnes is boarding with Mrs. T. L. Lassiter.

J. A. Northcott, Jr., left Monday for Pittsburg, Penn., to accept a position with an electrical company.

A letter from Charles Watson, who has been stationed in El Paso, Texas, stated that his company would move in a few days to Jersey City, N. J.

Rev. Fred N. Day, the well known evangelist, will assist in a patriotic service in Chowan Church, beginning Friday night, June 22nd.

Fisher Mitchell, who is stationed near Atlanta, has been made Corporal of his Company.

Mrs. E. A. Vinson and children, Odis and Iva, spent the week end with relatives near Mt. Taber.

Mr. H. H. Jones and family spent Sunday in Woodland.

Mrs. John C. Carter is visiting her daughter, Mrs. W. H. Cale, at Henderson.

Mrs. C. F. Griffin and son, Willie, of Gates County, are visiting relatives here.

Mrs. Jno. E. Vann, Misses Mary and Louise Vann, spent Wednesday in Norfolk, shopping.

Messrs. A. I. Parker and J. P. Mitchell are attending the Reunion in Washington.

Messrs. Robert and Sidney Matthews have returned home from Chapel Hill for the summer vacation.

Stomach Troubles and Constipation.

"I will cheerfully say that Chamberlain's Tablets are the most satisfactory remedy for stomach troubles add constipation that I have sold in thirty-four years, drug store service," writes S. H. Murphy, druggist, Wellburg, N. Y. Obtainable everywhere. Adv.

Plies Cured in 6 to 14 Days
Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, itching, bleeding or protruding piles in 6 to 14 days. The first application gives ease and rest. 50c.

POWELLSVILLE NEWS

Children's day was observed at the Baptist Church Sunday morning, a real good program was rendered.

W. A. Wynne and J. W. Taylor spent Sunday in Woodland.

J. M. Harrell was in Suffolk Monday on business.

Frank Harden and John Hobbs of Windsor were in town Sunday night.

Lightning struck the house of Mr. J. E. R. Perry Sunday evening. Slight damages were done.

A large crowd attended the burial of Mr. Newsome, the man that was killed in the explosion of the saw mill last Thursday.

Mr. and Mrs. J. J. Hays and Mrs. Paul E. Jenkins of Ahoskie spent a while in town Sunday.

Paul E. Jenkins, of Ahoskie, spent a while in town Sunday.

Miss Sallie Vaughan of near Ahoskie was in town Monday evening.

Mrs. A. S. Wynne has been quite sick, but we are glad to say she is improving at present.

Mr. J. C. Britton was in Norfolk Monday on business.

Everybody registered here Tuesday.

Mr. C. A. Parker spent the week end with parents in Gates County.

(Last Week's Letter.)

Rev. L. M. Chaffin filled his appointment here Sunday at the M. E. Church.

Watts Taylor an old aged darkey, well known throughout this community died Sunday and was buried near here Monday. A large crowd attended the funeral. He will be missed in this place.

Dr. and Mrs. L. A. Nowell, of Coleraine, were in town Sunday, the guest of Mr. J. C. Britton.

Miss Carrie Futrell, of Ahoskie, was the guest of Miss Mary Overton this week.

Quite a large crowd from here attended the Baraca and Philatheia Convention at Republican Sunday.

Messrs. Nowells and Sessoms, of Coleraine, were in this city Saturday P. M.

Drs. Davis and Milne and Mr. Dan B. Mizelle, of Windsor, passed through town Monday enroute to Gatesville.

Miss Elizabeth Perry returned home Monday from Windsor—where she has been visiting her cousin Essie Mizelle.

Mr. and Mrs. J. R. Phelps, of Merry Hill, spent Sunday in town, the guests of Mrs. Phelps parents Mr. and Mrs. W. S. Tayloe.

Messrs. Parkers and Jenkins, of Willyeton, Gates-Co., were visitors in town Sunday.

TAKE THE LOAN

By Edward Everett Hale.

Come, freedom of the land,
Come, meet the great demand,
True heart and open hand,
Take the loan!

For the hopes the prophets saw,
For the sword your brothers draw,
For liberty and law,
Take the loan!

Ye ladies of the land,
As ye love the gallant band,
Who have drawn a soldier's brand,
Take the loan!

Who would bring them what she could,
Who would give the soldier food,
Who would staunch her brother's blood,
Take the loan!

All who saw her hosts pass by,
All who joined the parting cry,
When we bade them do or die,
Take the loan!

As ye wished their triumph then,
As ye hope to meet again,
And to meet their gaze as men,
Take the loan!

Who could press the great appeal
Of our ranks of serried steel,
Put your shoulders to the wheel,
Take the loan!

That our prayers in truth may rise,
Which we press with streaming eyes
On the Lord of earth and skies,
Take the loan!

Take the loan!

Take the loan!

Take the loan!

Take the loan!

Take the loan!

Take the loan!

Take the loan!

Take the loan!

ROOT VEGETABLES VAL- UABLE FOOD SUPPLY

South Should Raise More Root Vegetables—Division of Horticulture Suggests Planting of Carrots, Parsnips and Salsify.

West Raleigh, June 5—A class of vegetables that should be more extensively grown, especially in this time of war and food shortage, is the root vegetables. Most gardens have turnips and beets for a few weeks in the year, but at best their season is short. Our growing season in the South is so long that the time for turnips and beets can be greatly extended by successive plantings. Both of these vegetables may be planted as late as August and in an ordinary season will mature before frost, a crop that can be stored for winter use, according to the Division of Horticulture.

There are three other vegetables of the root class that are not as extensively grown in the South as their food value would warrant. These are carrots, parsnips and salsify. These vegetables differ from turnips and beets in the fact that they grow deep in the soil and do not need winter storage as beets and turnips do. They may be dug out of the ground in good condition for use or sale at practically any time during fall or winter. A spring and a fall crop may be made of carrots, but salsify and parsnips do better for fall or winter use. Parsnips and salsify may be sown, like other root crops, in early spring but in our long growing season they are apt to become tough and woody if sown too early. They had best be planted in June and early July, for they will mature properly before freezing weather.

Salsify seed is apt to germinate poorly in a loose soil. It should be sown rather thickly and the row tramped or rolled after sowing. An ounce of seed will plant seventy feet of row. Three to ten pounds will be needed for an acre. Eighteen to twenty-four-inch rows should be used. When the plants are up thin to two or three inches. Any good high grade truck fertilizer, used at the rate of 1,000 to 1,500 pounds per acre, should produce good results when applied to thoroughly prepared soils.

As to planting and width of rows carrot is sown like salsify. Two and a half to three pounds of seed should be used per acre. Occasionally radish seed is used to mark the rows. In such cases the radishes can be removed before injury to the crops occur.

It is some times profitable to grow early carrots in cold frames for northern shipment. These may be sent along with the beets grown in cold frames. The Early Scarlet Horn is the best variety to sow in cold frames. The French Forcing is also good. These are small and may be bunched like radishes.

A method of common use with some gardeners is to plant twenty-inch apart in the row. During growth they can be thinned out as the vegetable is used.

For parsnips one ounce of fresh seed is sufficient to plant 200 feet of row. The seed is light and chaffy and should be sown thickly to insure a good stand. This means that from four to six pounds of seed are necessary for an acre. Shallow drills, 18 to 24 inches apart should be used and the seed not covered for more than one-half inch.

Frequent use of a wheel-hoe after the plants get started is necessary to keep the weeds down and to form a surface mulch. This also avoids the necessity of hand weeding. Perfectly level cultivation should be practiced.

The best variety of salsify is the Mammoth Sandwich Island. For carrots, the short types, New Oxheart, Centenary, and Danvers are best. The Hollow Crown is the standard variety of parsnip for this State.

If you have never grown these root vegetables make a trial of

REGISTRATION DAY IN AHOSKIE

Registrars Have a Busy Day Registering the Boys of Military Age—Recruiting Office Open—Banks Observe Holiday.

Ahoskie put on a war like hue Tuesday, Registration Day all over the United States. While the old Wearing of the Gray mingled together at their Annual Reunion in Washington, the future khaki clad calmly walked up to the registration Board and affixed their names to the little strips of card board, which shall some day make them either dead heroes or veterans of the War of 1917. Following the suggestion of Governor Bickett both of the local banks observed Tuesday as a holiday.

The "boys" of military age did their full duty. The Registrars were kept busy the whole day. Early in the morning conveyances came into town from the country and everybody showed a complete willingness to affix their names to the registration cards. The Department of Justice need have no fear of slackers in and around Ahoskie.

When the Editor came down to his office Early in the morning (?) the registrars were hemmed in by an overflow of those wishing to register. In fact, they all seemed anxious to be the first to sign up. On each man's arm who registered was pinned a strip of khaki cloth—the first step to a full uniform of that material.

While the Registrars were busy signing them up, Vernon Garrett, who has recently joined the Fourth Infantry of Virginia, decorated his Ford car with signs reading thusly, "Join the 4th Infantry and you will not have to register." He was in other words conducting a recruiting station. We have not learned how many applications he received during the day.

Others who have recently joined the Fourth Infantry of Virginia at Franklin, Va., from Ahoskie are Bryant Alexander and Willie Copeland.

E. Paul Pinson and Stuart Holloman, both of Ahoskie, left Monday morning for Norfolk, where they signed up with Uncle Sam's navy. The former was a member of the HERALD force. With one member of the force already signed up for the Navy and both proprietors' names affixed to the registration cards on Tuesday, the HERALD bids fair to do a full part towards "beating the Germans."

Two Killed by Explosion.

A saw mill at Glovers' cross road, between Harrellsville and Colerain, was completely wrecked by an explosion of the boiler last Thursday morning about ten o'clock. Mr. J. H. Newsome, the owner of the mill, and his negro fireman were instantly killed by the explosion and another negro who was working about the mill was blown several feet in the air, but escaped with injuries. It is thought that the explosion was caused by the steam valve being stopped up, the excess steam having no way to escape from the boiler.

Mr. Newsome is well known in Hertford and Bertie counties. His brother, Mr. W. J. Newsome, conducts a general mercantile business in Harrellsville. He also has relatives living in Ahoskie.

Whenever You Need a General Tonic
Take Grove's
The Old Standard Grove's Tasteless
chill Tonic is equally valuable as a
General Tonic because it contains the
