The railroads have a ton of newsprint paper belonging to the Herald "Somewhere on "Somewhere on Their Line". This circumstance has forced us to limit the issue of this week to four pages. For this reason many communications had to be left out on this account. We hope to obtain a supply of paper in time for next week's issue. of paper

#### Food Administration Matters

are going the Reports rounds that government agents are soon to go into the homes of the farmers and other people throughout the country and take their corn, meat and other food products and distribute them among the people as these agents see fit. Also that the government is going to take charge of the banks and use all the money that is in them for governmental purpo-

All such reports are absolutely false. There is not one word of truth in them. are started by mischief makers for no other purpose than to create unrest among the people who are not in a position to keep well informed as to what the government is real ly trying to do. I hope that al who know these reports to be false wil use every opportuni-ty they have to brand them as such.

Perhaps it will be interesting to the people of the County to know that nearly all the people are complying in a very splendid manner with the rulings of the Food Administra tion. I should say that nine-ty-five per cent of the people are complying in a perfectly saticfactory way. The merchants responded in fine spirit er; their customers who had bought flour in excess of the amount which the law permits, and when those who had made the purchases were notified that they must return the flour, they responded promptly and wil

lingly, to a man.
Only a very few are chafing under the compulsion of having to buy in quantities less than they have been doing and under different conditions. This might be expected, how ever, for it is not given to all men to see anything beyond the immediate present. It is very gratifying to know that the number who cannot make themselves satisfied with the present conditions and cannot fail to fall in line with the gov ernment's purpose to conserve as far as possible the food sup-ply is quite small.

Practicing wheatless days and meatless days and conserv-

ing food products in other way by the people of the County is saving thousand dollars of food products to feed our soldiers and the alies, thus enab-ling them to do efficient service for their country at the battle front. MEMORIAM.

Brother John C. Scarborough died at his home in Murfreesboro, December 26, 1917, aged 76 years.

In the death of Brother Sca-rborough the Masonic Fraternity has lost one of its bright lights, the radiance of whose upright, just and christian life and character reflected great honor and renown upon our Order and whose high and noble life is deserving of the high est emulation of every wouldbe true Mason.

He was of that type of man, now unfortunately passing out

of our midst. Schooled in the armies of Lee and Jackson, the trials and privations of those four years that tried men's souls, burned from his nature all dross and left nothing but pure gold. He was indeed a peer of those men who after the war devoted their energies to the upbuilding and enlightenment of the State and we can never fully appreciate his great worth until time shal clarify our visions and permit us to see from a position unobscured, who were the truly great.

to the betterment of mankind, without regard of his material gain—indeed a true altruist. He never wearied in his efforts to better society, to elevate the ideals and broaden and brighten the intellectual and religous horizon of every one with whom he came in contact-an educator of the highest type.

Conspicous in his life's work are the many years as a member of the Faculty of Wake For est College; sixteen years as Superintendent of Public Instruction of the State, during which time he conceived, formulated and put into operation the educational system of the State of which the present one is a logical and direct out-growth, and twelve years as President of what is now known as Chowan College in Murfreesboro. He filled many other places of honor and trust and in every instance per-formed the duties thereof cour ageously, conscientously and highly inteligently. The impress of his precepts and prac-tices lives of hundreds of men and women will be a lasting monument to his memory.

Since early youth Brother Scarborough has been a devout member of the Baptist Church. His faith was sure, strong and unswerving. No opportunity was allowed by him to pass by to serve his Lord and Master.

As a Mason, he was just and upright, exemplifying the high ideals of the Fraternity. In the words of Brother Hackett: "As Hiram slept, the widow's son,

So doth our brother take his rest. Life's battles fought, life's duties don His faults forgot, his worth confess

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone-a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone because it is perfectly harm-

Calomel is a dangerous drug. t is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for
