Lenses not adapted to each eye are productive of eyestrain causes headaches and nervousness, but the eyesight is not suspected as vision may be good.

Dr. Masrow, Norfolk's well-known eyesight specialist, has every device for the accurate testing of the sight and for the perfect fitting of the glasses, as indicated by modern science. An examination of the eyes is made by Dr. Masrow and glasses are recommended only when promising beneficial results. When glasses or spectacles are ordered, his are extremely moderate.
