D. C. BARNES, Pres. URIAH VAUGHAN, V-Pres., W. A. MCGLOHON, Cashier, O. W. HALE, Asst. Cashier, GARY PARKER, Teller.

### DIRECTORS

D. C. Barnes, Uriah Vaughan, W. A. McGlohon, T. H. Nicholson, C. T. Vaughan, J. C. Vinson, J. E. Vaughan, J. B. Worrell, E. T. Darden, E. Brett P. E. Jenkins, R. Sewell, E. B. Vaughan, E. W. Whitley, W. R. Parker.

### Truth About Cat's Eyes.

A cat can see better in the dusk than can a human being because the cat's eyes are sensitive to ultra-violet rays. Its pupils are capable of greater expansion than those of man's or of almost any other animal, thus admitting more light. The cat uses its whiskers for feelers in the dark. Its sure-footedness is a great help to it. So it gets along better in the dark than most animals. The belief that it can see by night with the same degree of clearness as by day is, however erroneous.

### China's Water Transportation.

On the rivers, streams or canals of China transportation and postal facilities depend on the sampans. Women, as well as men, operate them all day and the prehensile foot renders their task much easier. Every Chinese postman, lying on his back, steers with his hands and rows with his toes. He holds the oar strongly between the great toe and the others and gives a vigorous motion to the boat by the powerful action of the leg muscles.

### Fish Eat Other Fish.

When a codfish eats it takes an oyster in its mouth, cracks the shell, digests the meat and ejects the shell. Crabs crack the shells of their smaller neighbors and suck out the meat. This accounts for the mounds of shells which are found beneath the waves. And, as further illustrating the constant destruction going on in the ocean's depth, it is said that if a ship sinks at sea it will be eaten by the fish with the exception of its metal portions.

### Long Railway Tunnel.

The longest railway tunnel on the American continent is the Rogers Pass tunnel on the Rocky Mountain division of the Canadian Pacific line, which is five miles in length and runs under Mt. Macdonald, in the Selkirk range. It was constructed at a cost of more than \$10,000,000. Previous to its being put through, the Hoosac tunnel on the Fitchburg division of the Boston & Maine railroad, 4 1/2 miles in length, was the longest tunnel in America.

### Milton and Italy.

How delightful was Italy to Milton! His Allegro and Penseroso show that he could fully appreciate both its mirth and its majesty. He returns not the less to live out a career of illustrious service in his own country, where his brave heart and philosophic mind were of more avail to his time than even his sacred song to ours.—Julia Ward Howe.

### Submarine Coal Mines.

There are many submarine coal deposits off the British Isles, but so far they are not much worked. The tunnels of the mines at Whitehaven extend some four miles from shore under the Irish sea, however, and there also is some submarine coal mining at Colness near the Firth of Forth and at Monkwearmouth in Durham.

### Very Old Banknote.

The longest time during which a note has remained outside the Bank of England is 111 years. It was one of £25, and it is computed that the compound interest during that long period amounted to no less than £6,000.

### Gathering Life's Gold.

The gold of life does not lie hidden in mines; it sparkles in tiny sands all along the common path of every day. He only who gathers it bit by bit from daily duties and pleasures and opportunities and friendships will find himself the possessor of the real treasure at last.

### Happiness Always Right.

Let us never be afraid of innocent joy. We must dare to be happy, regarding ourselves always as the depositaries and not the authors of our joy.—Ansel.

### Education the Only Road.

Education alone can conduct us to that enjoyment which is at once best in quality and infinite in quantity.—Thomas Mann

### Only Real Riches.

There is no wealth but life; life, including all its powers of love, joy and of admiration. That country is the richest which nourishes the greatest number of noble and happy human beings; that man is richest who, having perfected the functions of his own life to the utmost, has also the widest helpful influence, both personal and by means of his possessions, over the lives of others.—Ruskin.

### To Repair Book Covers.

Beautiful books are generally bound with leather, and if they are in constant use the calf or morocco soon becomes worn. To remedy this, use equal quantities of white of egg and water beaten together, apply with a soft brush or piece of flannel, and when thoroughly dry polish with a fresh piece of flannel.

### Neat Blarney.

"Why does your horse go so slow?" asked a tourist one day in the Glen of the Downs, Ireland, of his driver. "It is out of respect to the beautiful scenery, yer honor—he wants ye to see it all. And thin he's an intelligent baste, and appreciates good company, an' wants to kape the like o' ye in ould Ireland as long as he can."

### Popular Names for Towns.

There are 31 Franklins given in the latest United States postal guide. Chester and Clinton are close seconds, there being 30 of each and cities by each of the names in the United States. Washington and Newport come next in popularity, each having 28.

### Bird Friends of Gardener.

Few people realize the value of birds in keeping garden insects under control. Even the despised English sparrow sometimes eats a worm. I have watched them for hours, busily chasing moths which the birds go after with far more energy than they ever display in gathering seeds.—Exchange.

### When Sneezing Was a Bad Omen.

Sneezing from remote times has been held ominous. Our forefathers went to bed again if they sneezed while putting on their shoes. A sneeze to the right was deemed lucky; to the left of evil portent. To sneeze near a burial place was unlucky.

### For the Teacher.

No one is too young or too old to be impressed with the fact that obedience is the law of life. Show its rewards and its test of discipleship. When one wills to obey, he throws into gear machinery the like of which is not known anywhere else on earth.

### AN Agreeable Surprise

"These Rats Wouldn't Eat My Best Grain," Says Fred Lamb.

It's hard to keep rats out of a feed store. Tried it for years. A neighboring store sold me some RAT-SNAP. It worked wonders. Gathered up dead rats every morning. Bought more RAT-SNAP. Haven't a rat now. They wouldn't eat my best grain when I threw them RAT-SNAP around. Tree sizes, 25c., 50c and \$1. RAT-SNAP sold and guaranteed by Z. V. Bellam, E. J. Gerock and E. J. Bell & Co.—adv

## LALLEY LIGHT and POWER

### You Actually Do Lose By Not Having Lallely

If you find that statement hard to believe, stop and think for a minute.

Remember that, after all, the biggest thing Lallely-Light does for the farmer is—save.

Remember that owners not merely say, but insist, that the Lallely pays for itself.

Remember that these owners—who know the Lallely—tell of its savings in time and labor and money.

Now you begin to realize that you actually do lose by not having Lallely Electric Light and Power.

You see, too, that every day you put off buying, means a greater loss at the end of the year.

The time to buy Lallely is right now.

We say, in all earnestness and truth, that you will save more by deciding at once to have us install a Lallely plant for you.

Once you have investigated and had the Lallely put in, you will realize how right we are.

In your own interest, do not delay longer.

Come to see the Lallely at our store, or telephone us to come to you.

Drop me a postal and get a Demonstration before you buy and SAVE MONEY
