An all-day current "sho" would be acceptable to us. In fact, we WANT an all-day current in Ahoskie.

With weather similar to the brand this section has undergone this week a coal strike has no terrors whatever for our people.

"Girls are wanted" is the headline of an advertisement in this paper. Industrious girls who want to enter to some form of light, pleasant work would do well to correspond with the Secretary of the local Board of Trade and get further information.

The writer on this paper interpreted the sentiment of those at Seaboard as favoring a removal of Chowan College to a more convenient location. The sentiment seemed to be just as strong to keep the College in one of the two associations—Chowan or West Chowan.

The principal business of Congress these days is overriding the veto of Woodrow. The latest addition is the passage of the prohibition enforcement measure, after it had been vetoed by the President, who propped himself up in a sick bed in an attempt to keep the act from becoming a law.

Ahoskie folks must renew and redouble their efforts to secure the location of Chowan College, if they would make it a certainty for Ahoskie. This is a rare opportunity—no doubt the greatest that will ever be presented to this town for its own good and harmonious development. The show down is soon coming and when it does come, Ahoskie must be ready to offer some very enticing inducements.

Being, as it is, such an easy matter to pass bond issues in Ahoskie for municipal improvement, and an even harder task, comparatively, to get anything done after you have passed it, why not let's call the election for street bonds and make it unanimous vote for bonds? If you are really against bonds, you need have no fears about ever having them issued.

The destructive boll weevil has made his appearance in North Carolina and is now firmly entrenched in three of the counties in southeastern North Carolina. The Extension Service announces that fact in today's paper and makes some observations regarding the probable destruction that the weevil will do in North Carolina. Agriculturists of the state have been fearing the invasion by the weevil for years, and they are prepared to take every step to abate the destruction they usually accomplish. It will pay the cotton planters in this section to keep eyes open for any suggestions given by the Department of Agriculture and the Extension Service on combating the spread of the insect.

SHE'D WALK MILES TO TELL ABOUT IT

Nashville Woman Says She GAINED 25 POUNDS BY TAKING TANLAC

"I feel so grateful for the wonderful relief I have gotten through taking Tanlac that I would willingly walk twenty miles to tell other sufferers what this medicine has done for me, said Miss Adela McKenzie, of 424 6th Avenue, Nashville, Tenn.

"I suffered for about eighteen months from nervous prostration," she continued, "and kept getting worse in spite of all that I could do. I had no appetite and after eating anything my stomach would burn like fire. I would turn cold one minute and hot the next, and I was so nervous that I could hardly sleep at all and lost sixty pounds.

"After trying several different of medicines without getting any relief my brother got me a bottle of Tanlac and I started taking it. By the time I had finished my second bottle my appetite began to improve and my other troubles were greatly relieved. That burning sensation has disappeared from my stomach, the nervousness is gone, I sleep like a child and I have gained twenty-five pounds in weight."

Constipation.

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but some times a medicine is needed and when that is the case you will find Chamrelain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.—adv.
