NATIONAL SHOE THRIFT WEEK
AUG. 27—SEPT. 1
—HAVE 'EM REPAIRED—

Look in your closet today for your shoe cast-offs. If the uppers are good we can make the shoes as fine as new at a nominal cost.

Mothers should see that their children's shoes are sent to the repair shop this month so they will be ready for school wear.

You'd be surprised at the good service that still remains in many a pair of shoes that have been thrown away as being of no more good.

Folks who wouldn't think of tossing even a penny into the trash can, sometimes thoughtlessly cast aside a pair of shoes that still have several dollars worth of wear and comfort in them if properly repaired.

Don't throw away your old shoes until they have been condemned by your repairman. Be Thrifty—have 'em repaired.

You don't throw away your watch because the main spring breaks. Why throw away your shoes because the soles wear through?

S. P. BURGESS
ELECTRIC SHOE SHOP
AHOSKIE, N. C.

Sixty-one electrical power plants, with a total installed capacity of more than 3,500,000 kilowatts, are now under construction in the United States. Total cost will be \$469,100,000. Capital invested in central stations at end of 1922 was \$5,100,
