

1905

1959

We have a healthy respect for people—too . . .

As bankers our healthy respect for money is well known. We realize, too, that history is made by people . . . not money . . . good, honest, hard-working citizens make history. That has been the story of Hertford County . . . it has developed because of its people. We are proud of the part we played in the economic development of Hertford County. The people of Hertford County have placed their confidence in our bank and we, in turn, have invested in the community due to our confidence in the citizens. We salute the citizens of Hertford County on the 200th Anniversary of our county . . . a Milestone in North Carolina History.

A COMPLETE BANKING SERVICE
