

## *We Make Baskets That Let Hertford's Light Shine . . .*

Thirty-one years ago we decided a simple well-made product sold at a fair price could bring success to our business and Hertford County. Local hands have made our baskets and crates which have been filled with the produce of our country. It is still our firm belief that good products and fair business dealing are the basis for a sound economy in Hertford County, our State, and our Nation.
