A PLUCKY GIRL

She Goes Down in a Well and Rescues Her

[Durham, N. C., Sun.]

One day last week Miss Minnie Bla-lock, daughter of Wm. Blalock, a well-to-do farmer of this county, was visit-ing her sister, Mrs. Charles Anderson, ing her sister, Mrs. Charles Anderson, who lives about four miles from town. Miss Minnie, with several others, among whom was the little four-year old son of Mr. Anderson, were attracted by a wasps' nest at one end of the house. There was also an open well near the corner of the house, and in their excitement, and watching the wasps, the little boy kept backing, unmindful of the well, until he went over backwards. The well was 28 feet deep, with four feet of water. This turned attention from the wasps to the child. For a moment or two there was consternation. But Miss Blalock, with undannted courage, took in the situation and she at once proceeded to go down in the at once proceeded to go down in the well and when she reached the water it was just in time to save her little nephew, who was about to sink for the third time. She succeeded in pulling him out of the water, and, strengthen-ing herself, she brought him to the top and safely landed him on terra firms.

AN IMMINENT OHIO LYNCHING. Military Called Out to Prevent the Death of a Young Negro

A special from Washington Court House, O., says that William Dolby, a young colored man under arrest there for rape committed upon Mrs. Mary C. Marion Sims, the famous Southern physician, was unveiled in this city with appropriate ceremonies on Saturday, October 20th, at 3 o'clock in the afternoon in Bryant Park, Fortyin the afternoon in Bryant Park, Forty-second street and Sixth avenue, ad-dress is being made by Dr. George F. Shrady and Dr. Paul F. Mundi, after which the statue will be presented to the city and accepted by Mayor Gilroy. This was a memorable occasion as it is the first instance of the erection of a heroic statue to the memory of the medical profession in the United States.

### Is a Frog a Fish?

Is a frog a fish? This is the problem which the officials of the Canadian Fishery Department have recently had to consider. Petitions were forwarded to the department from the inhabitants of Northumberland, warded to the department from the inhabitants of Northumberland, Ontario, praying for a close season for frogs. A lucrative trade in the shipment of frogs' legs had been done in that county, but it was discovered in that county, but it was discovered that the very time that the frogs were spawning is one when the greatest havoc is wrought among them. Possibly a change will be made in the februr, laws so as to embrace frogs. fishery laws so as to embrace frogs. The officers say that in their embryotic stage frogs are certainly fishes, but later on they take an amphibious character.—Chicago Herald.

### A Telephone in Church.

Supporters of the telephone system in Birmingham can now be placed in communication with Christ Church in that city, and practically take part in the service. The telephone wire runs the service. The telephone wire runs right into the pulpit, and the listen-ers at the other end of the system can hear the tolling of the bell, the pray-ers, the responses, the singing and the sermon. Even casual coughing among the congregation can be dis-tinguished. There are many classes of persons on whom this new depar-ture confers a great boon. The sick or persons on whom his not operative confers a great boon. The sick and bedridden, who have long been prevented from attending any piace of worship, can now be present, if not in the flesh, in the hearing.—New York Telegram in the flesh, it York Telegram

### Electrical Pilot.

The familiar pilot houses on vessels will soon be a thing of the past. By an ingenius electric device attached to the compass vessels are now automatically steered much more accurately than by band, and held firmly and steadily to a given course. With a correct chart and compass a trip around the world will be an early possibility without other than electric bilotage.—Atlanta Constitution.

the Northwest.

L. T. Lee of Lee Pope, Ga., writes that he is "receiving many letters inquiring about Southern fruit lands, climate, soil, products, etc. A gentlemen from Northern Missouri has just been here looking for a location for stock raising. He was much pleased with the country and people, and left me a proposition for a large tract of land. I am in correspondence with gentlemen in Providence, R. L., about fruit lands, and also with another in Chicago, who, with some associates, will come South in a few days to look over this section. I have also had with me a gentleman from California, who is investigating the fruit growing advantages of this locality. I am in receipt of a letter from a friend who has been in the Northwest for several weeks, and he says there will be more people coming South this winter than year before. He knows of the party people coming South this winter than ever before. He knows of the party of six hundred who will come in Oc-

JAMES BROWN'S MURDERERS.

Two of His Mill Hands Committed the Awful Deed.

STATESVILLE, N. C.—W. H. Deaver a detective from Asheville, N. C., has ferreted out the murderers of James Brown, the manager of the Long Island Cotton Mills at Monbo.

When accused of the crime by the detective Flow Joseph, an operative at

the factory on the night shify, called upon God to witness his innocense, but on the way to Newton Josey said he did not kill Brown but he knew who did do it. "Thomas Covington, a day hand in the mill, and son of the foremand in the mill, and son of the fore-man has a key to the store door. He and I have often gone in the store at night and taken little things; but Thos. Covington went alone the night of the murder. The next day he told me he had to kill old man Brown."

he had to kill old man Brown."

The magistrate sent both men to Nowton jail, their guilt being fully established, and everyindication showing angry and indignant, outraged neighbors who wished to take the law in their own hands.

Elam Josey is 27 years of age and married. Thos. Covington is 22 or 23 years old and is also married.

### Progress of Southern Methodists.

In an address before the General Conference of the Methodist Church in Canada last month the Rev. Dr. E. E. Hoss, fraternal delegate of the M. F. Church South, delivered an eloquent address. He said: "We began with about 500,000 members. When the civil war came in 1861 we had increased to over 700,000, of whom 207,000 were persons of African descent—a larger body of converted heathen than could then be found in all the mission stations of the world. In many communities there was a great preponderance of colored over white members. For ex-ample, Trinity Church, Charleston, S. ample, Trinity Church, Charleston, S. C., reported in 1863 only 385 white members and probationers, against 700 colored; and Bethel Church in the same city reported 383 white, against 1,492 colored. \* \* \* In the States of South Carolina and Georgia alone we had at the latter date sixty picked and capable men—none other were deemed fit—whose sole occupation it was to minister to the religious wants of the colored people."

### Finds Our Section Most Prosperous.

"I travel constantly through Virginia, the Carolinas and Georgia," said P. B. Beard, of Salisbury, N. C., who represents a large Philadelphia wholesale firm, to a Washington Post reporter, "and I do not exaggerate when I say that those States are in a more prosperous condition than they have been at any time since the way. The been at any time since the war farmers are getting out of debt and are raising their own supplies. Most of them have corn enough on hand to last two years.
