

Race War in the West.

A white man and a negro in Indiana, Ind., disagreed last Thursday on the question of how much education a negro should have. The negro shot the white man, was pursued by a mob and finally shot down. Both will probably recover.

New Idea Woman's Magazine.

The women who clamor for advice—how to turn their time and talents to account—will receive many valuable hints from the series of articles entitled "Profitable Industries for Women," which is begun in the September number of the New Idea Woman's Magazine under the heading of "Poetry-raising," from the pen of Sarah E. Slater. The new department of "Correct Dress for Men," also begun in the September issue and contributed by Hawthorne, a well-known authority in haberdashery, bids fair to be of paramount importance in this periodical, because many women do much of the shopping for the men of their families and are glad to have suggestions. Every item in the September number, either technical or fictional, is of more than passing interest.

Temperance.

The recent growth of the temperance movement in the South emphasizes the wisdom of keeping issues of this sort out of politics. We have had no sounding of trumpets, no special campaigns on temperance. The prohibition candidate for President and other national officers hardly got enough votes to count. The W. C. T. U. has met with scant favor in the South, compared with the interest shown in the organization in other States.

How to Tell Good Farmers.

The men who can make money easiest and quickest in their imagination farming are the ones who do not farm, and you can generally get more free advice about how to farm successfully from the fellows who do not farm than from those who have devoted their lives to that occupation. A certain man had land near town and had money to buy all the fertilizer and labor needed to make a "fine patch." His cotton was fine and those who didn't know what his expenses were, said that "the way to farm." He got a bale per acre, but the public never knew how much profit, if any, he realized. But he got "a bale to the acre," and that was sufficient to give him credit for being a "scientific farmer." If you want to get some real knowledge of successful farming, go to the man who farms exclusively and feeds, clothes and educates his family from the farms, and slowly but steadily gains in property. Such a man as that can give you some valuable pointers on every detail connected with farm management. There is a big difference between farming for pleasure and farming for profit.—Marshville Home.

A Terrible Story.

That was a revolting story that came out of Chicago a few days ago which told how Laura Sticker, in order to save her honor, leaped from a second story window—killing herself in the fall. The details were gruesome—but the man who intended to disgrace her was named William Reed, and at last account he was under arrest. Miss Sticker lived to tell the horrible tale—and then passed out into the darkness of the night. She was a member of the Young Woman's Christian Association and her honor was above reproach. But the lustful brute thought he could accomplish his end by force—and the girl—brave as a tigress in defense of its young—laughed at death in order that she might not be polluted.

The Panama Canal Treaty.

The Panama Canal treaty which has been hanging fire in the Columbian senate so long is now unanimously rejected. There may be an attempt to amend the treaty or President Roosevelt may at his discretion proceed to treat with Costa Rica and Nicaragua and construct a canal by the Nicaragua route.

Murder in Davidson County.

Alice Hoover, a negro woman living at Yadkin College, was found dead in bed Monday morning of last week. Suspicion rests on her husband, Dan Hoover, who, it is said, gave her an unprovoked beating about ten days ago. The officers have a warrant for him but are unable to locate him.

Carriage to have a suspender and garter factory. About the best obituary of this generation was written by a Kansas editor of a deceased Italian. It was as follows: "He will be missed by all who knew his upright honesty. His loads of wood were always large. His cord measured a cord. His bushel had four pecks.—News & Observer.

"Elimating Manor."

Virginians say that Thomas Dixon, Jr., home, "Elimating Manor," at Dismal, Va., on the shores of the Chesapeake bay is one of the most beautiful estates in the State. He has a mile and more of beach on his own place, and it is a drive of two miles from his front gate to his house. There are three hundred large shade trees on his lawn. Although his house has thirty-five rooms, he built a log cabin down near the water that he might have an isolated place to write in. Mr Dixon is one of those fortunate authors who has a large income from his novels, and his new novel, called "The One Woman," though only published a few days ago, promises to be his most successful book in a financial way.

Two Kisses and One Dollar.

On the Kronprinz Wilhelm, one moonlight May night, a young man and a girl were discovered making love. The news of this discovery spread among the passengers and many a joke was cracked. But Senator N B Scott, of West Virginia, said in the smoking room: "There is nothing to laugh at here. Innocent love-making is natural in the young. This fact was well brought out by an adventure that happened to a friend of mine years ago in the mountains of West Virginia. "The young man was hunting. He came to a lonely cabin and stopped at the door for a drink. The drink was handed to him by a girl so charming that, with a smile, he said: "Would you be angry if I should offer you a dollar for a kiss?" "No, sir," the girl answered, with a little blush. "So my friend took the kiss and then he gave the maiden the dollar. She balanced it in her hand a moment. She knitted her pretty brows in perplexity. "What," she asked, "shall I do with all this money?" "Why, anything you please, my dear," said my friend. "Then," she murmured, "I think I'll give it back to you and take another kiss."

Our wheat threshing is over. The crop is generally short, but Providence's crop was good. Corn never looked finer. It will make from 25 to 30 bushels to the acre. We will soon have one of the best country schools in the State. We also have rural free delivery. Any one wishing to buy a farm will do well to price the lands around Providence. We are 6 miles from Randleman and only 14 from Greensboro and we claim to be second to no community in the State.

Slack's Saturday night was well attended by an appreciative crowd. The music was excellent and refreshments were of the best quality. But one of the main features of the occasion was the baby show in which about twenty of the finest babies in the community was exhibited in the north wing of Mr. Slack's residence. The proceeds amounted to about seventeen dollars, which will be divided among the needy. Mrs. J. H.
