Davidson county will have June 1st oleven free rural deliver routes. There are in Randolph county four with one running into Guilford from Liberty. There is an route from Asheboro. It might be well for our people to make an effort to have others. Two or three routes at least should be established raising out from Aebeboro and Raisidleman. There are other places at which routes should be established. This county has not its share and it is probably our own fault in part at least as proper efforts have not been made by the people in sections where these routes are most needed. to have others. Two or three routes these routes are most needed.
