RALEIGH LETTER.

Receiver for A. & N. C. Railroad—The Contempt Proceedings—Three Men in Jail as Result of Charges Against Judge Peebles—Governatorial Situation, Etc. Raleigh, May 30.—The hearing of the application of John P. Caylor, of New Jersey, a private stockholder, for the appointment of a receiver for the Atlantic & N. C. Railroad, was taken up by Judge Purnell in the U. S. District Court here Saturday.

Conrad for the railroad took an appeal to the Circuit Court and the appeal bond was at once given. Judge Purnell stated that if the stockholders so desired, they could hold a meeting and vote on any proposition to lease the road; that if they vote to accept offer to lease the court and if found satisfactory he would dismiss the receivership and thus the matter stand at this writing.

That is the fatal doctrine that our fathers fell into and lost leadership thereby. It is this doctrine that has cost the Southern States a 100 years of progress, for this is nothing but a sequel of slavery. If every man in the community was trained, you could have your dirt shoveled more cheaply than now. A trained man would drive his scow to your dirt, attach it to an electric wire and shovel your dirt more accurately, more quickly, more cheaply than any negro in Alabama can do.

Mr. Adam S. Hedrick one of Davidson's substantial farmer citizens, was here Saturday exhibiting a pair of bullet moulds, which were enough of a curiosity to cause notice of them. The moulds were made of two pieces of white flat rock. A half of a hole had been drilled in each rock, and the two pieces were fastened together with wooden pegs. Mr. Hedrick says the moulds had been in the possession of his ancestors for more than a hundred years.

EDITOR DANIELS CITED FOR CONTEMPT.

Monday Judge Purnell, of the United States Court, issued a summons to Editor Josephus Daniels, of the News and Observer, to appear in court to answer for alleged contempt of court by reason of certain editorials that appeared in his paper Sunday morning.

People ought to have respect for judicial officers, but judicial officers ought not to be "superstitious and pompous." Vance's administration was assailed by federal interference. The people believe in letting the state manage property belonging to it and they are standing behind Governor Aycock like a stone wall.

Mr. Holtz special says: Mr. S. M. Holtz, ex-chairman of the Republican executive committee in this county and brother of Mr. A. E. Holtz, ex-chairman of the state committee, is heartily in sympathy with the position taken by Judge Bynum at the Greensboro convention. He believes that the judge was right as far as he went, but that he did not go far enough.

Looked at from the point of view of the individual, it is clear, then, that it pays an individual to be trained. But how is it, looked at from the point of view of the whole community? If I want a man to shovel dirt, perhaps I do not need a trained man—I want a man for 70 cents a day, not for \$2.50. If everybody in a community be trained, who will shovel dirt and chop the wood and draw the water? Does not every community require a larger number of untrained, low-priced men?

Mr. D. D. Leach is improving. He can sit up some in a chair. Mr. Archie Beck, who has been sick so long, died Friday morning and was buried Sunday at the Waldell grave yard near Waddell's Ferry. The burial services were conducted by Rev. R. B. Clark and Rev. E. B. Brown. There was a large crowd that attended the funeral and the grave was covered with beautiful flowers by his dear friends.

After having fought with chains for an hour or two the Herrick-Dick faction of Republicans captured the Cleveland, Ohio, convention and drove out the Foraker faction with yells of "Filipinos," "Insurgents," "Traitors." There is anxiety in some quarters lest the Democratic convention at St. Louis may be stamped by a mere incidental mention of the name of Foraker.

These be prophetic terms, according to the traditions of the past. But our national cash balance shrinks every day and there is pretty certain the Democrats should happen to carry the election in November, our Republican friends would, of course, insist that they handled over a big surplus to their successors who had squandered it and ruined the nation into bankruptcy.

It was recorded that Secretary Taft laughed when he heard Senator Tillman was prevented from talking by an attack of toothache. And now Secretary Taft himself, starting out to make campaign speeches, has been attacked with toothache and has taken refuge in the silence of the Adirondacks. Tillman says he is real sorry.

Mr. Roosevelt demands a very short platform at the Chicago Republican convention. Why doesn't he issue a decree that the platform shall consist of a mention of what Congress has done? Senator Fairbanks, of Indiana, is worth \$300,000. If he will put it up where it can be got at, instead of putting it up where it cannot be got at, he can have the office of vice-President with all its emoluments.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

Central Falls Items.

Central Falls, May 30, 1904. Mr. E. R. Brown. There seems to be quite a sensation at Lumberton over the contempt case, and knowing the respondents as I do, personally acquainted with most of them, I will say there is no killing what the termination of that case may end in. Wade Wisard is a son of Col. Wisard, and a better boy never lived. The same can be said of the McLeans and in fact all as far as I know, and no doubt the whole county of Robeson will back them in their undertaking.
