LACY Secretary of State: J. BRYAN GRIMES Superintendent of Public Instruction: J. Y. JOYNER Commissioner of Labor and Printing: H. B. VARNER Corporation Commissioner: S. L. ROGERS Commissioner of Agriculture: S. L. PATTERSON.

We are informed that in Randolph the republican spell binder speaks from the postoffice steps.

If some of the local republican spell binders we heard in the court house last Saturday would make the same declarations in every township in the county, its dollars to doughnuts the democratic majority this fall would for exceed any in previous years.

The democratic primaries will meet in the various precincts next Saturday at three o'clock. It is important that you attend your primary. Go out and take a part in the selection of the men to fill the various offices.

Mr. Wiley M. Rogers, one of the best known newspapermen in North Carolina, who for many years has been connected with the business management of the News and Observer and who has been influential in extending the wide circulation of that paper, died at his home in Raleigh last Friday. Mr. Rogers was well known in Randolph and had many friends among both business men and farmers.

In the death of Hon. Kerr Craig, of Salisbury, the State loses one of its most valued and highly esteemed citizens. He was a Confederate soldier and a man of the highest integrity. His mind and actions were controlled by noble impulses. He was a lawyer of ability and as a politician no corruption ever stuck to his fingers. He was gentle and kind in his home life. He was modest, but when confronted by a foe no braver ever lived. North Carolina has suffered severely in the death of her distinguished son.

Republicans should be the last people to accuse any body or any other party of fraudulent elections, says Editor London in the last issue of the Pittsboro Record. He calls attention to the fact that the republicans stole the presidency in 1876 and by the most glaring frauds stole the whole States. It is a matter of history that by the grossest frauds Tilden was counted out and the electoral vote of South Carolina, Florida and Louisiana was stolen for Hayes.

The largest republican State in this Union is Pennsylvania and it is conceded that the most corrupt and fraudulent elections held in any State are those held in Pennsylvania.

Coming to North Carolina attention is called to republican methods as follows:

The only Republican Governor of this State since 1876 was nominated by fraud and corruption. Now, this is not a "democratic lie" but it is proved by Republican witnesses that Russell was nominated by the Republican State convention held at Raleigh, May, 1896. In proof of this we copy from Butler's own paper (The Catawban), published the week after that convention, the following extract:

"The Republicans have been 'whooping her up' for honest elections; have been crying out for an honest ballot and a fair count, and yet the first thing they did in their convention was to begin to slob and steal votes from among themselves. Lord deliver us from any such honest ballot and fair count system as this."

The idea of Republicans who "slob and steal votes from among themselves" posing as or pretending to be a party in favor of "a free ballot and fair count"

In further proof of how Russell was fraudulently nominated for Governor we cite the evidence of Capt. Frank D. Jones, who is now and has been for several years chairman of the Republican executive committee of this Congressional district. In a letter from him published in the Record of May 25, 1896, was the following strong language:

"The Republican party has always charged the Democratic party with being the party of fraud, corruption, ballot-box stuffing, etc., and yet I venture to say that the Democratic party, in its worst days, never was guilty of such corruption, vote stuffing and fraud as were the Republicans at that convention, on Friday last."

Now, is not this pretty strong language for a prominent Republican to use when his own party and after their stealing from their own party are not the Republicans now believe in as pretending to be "election reformers."

NOTES AND COMMENTS.

Mr. Harris, the republican candidate for Governor of North Carolina, when interviewed in Washington the first of the week, admitted that he would be defeated by from 50 to 75,000 majority, in the coming election.

The two negroes Sellars and Brown arrested for the murder of Mrs. Parker in Bladen county have been taken to Raleigh for safe keeping, under protection of the Wilmington Light Infantry. This is one of the blackest crimes on record.

"A class of professional non-combatants is as hurtful to the real healthy growth of a nation as is a class of fire-eaters, for a weakness or folly is nationally as bad as a vice or worse, and in the long run a QUAKER MAY BE QUITE AS UNDESIRABLE AS A CITIZEN AS A DUELIST."—Theodore Roosevelt in life of Benton, page 37.

The Winston Republican in its issue tells of a very unfortunate fire at Davis' School House in Guilford county when Charles Reynolds spoke at that place. Some boys cut and mutilated his buggy to the extent of \$20 damage. Every effort has been made by the authorities to find out and punish the offender. The Republican goes too far when it says, "Some unprincipled democrat" is the guilty party and the offender is caught and it is proven to be a democrat.

One republican commenting on the speech of Mr. Douglas last Saturday said: "His attack on the Watt's Law is not calculated to inspire in the country. Our people believe in temperance and we cannot hope to be successful fighting this measure." Mr. Douglas evidently had been misinformed about the attitude of some republicans unless he would not have attempted to speak for every republican in his hearing as being opposed to the measure. He said the republican party was opposed to any measure that interfered with any privileges "no matter whether they take a man or a community up or down."

Cotton Seed Oil Mill.

A twenty thousand dollar cotton seed oil mill will be operated at Siler City. The concern has been incorporated with a capital of \$20,000. An eight-horse power engine will run the mill. Farmers will find a ready sale for their cotton seed at good prices.

A New Railroad to be Built at Oace.

Capt. M. L. Jones has given out the contract for the grading of his railroad to Denton. The contract for the first section, from Mrs. Lavinia Meyers to the Lexington road west of Hamersville N. Bonds, arrived with his force Wednesday and went into camp on the old Henry Rothrock place. The other contractor will grade that part south of the Lexington road. There has been two or three miles already graded next to town, this part is being leveled up now. Track laying will begin in about three days, and in six weeks a locomotive will arrive and then the completion of the road to Denton will be pushed.—Thomasville News.

Little Ida, the 5-year-old daughter of Mr. and Mrs. J. M. Brewer last Monday accidentally swallowed a three-quarter inch screw and up to this writing it still remains inside of her.

The Republicans are jubilant over their nomination and predicting a regular land slide. We glory in their spunk, but sympathize with them in their misadventure.

A Fought in Pittsboro. Yesterday afternoon a "branded" republican fought as well as he could from the following:

While playing in the field last Friday, August 15th, a flock of 10 eggs. Wishing to know what was on them I took some and to my surprise found them long spring feet and long bills. I struck one as if it was a week old. All the eggs were then broken and each contained a rattlesnake. They tried to escape but all were killed. Each little snake was 1 1/2 inches long.

About New Cotton. The cotton season this year has opened about one week in advance of last year. The price is right around the 12 cent mark. Cotton picking is on in good earnest and the indications are that there will be a good crop. The opening figure is considered good and the price is not likely to decline.

Jailer Attacked. Mr. Jerome May, keeper of Guilford jail was assaulted in the jail corridor one evening last week, says the Daily Record, by four negroes and one white prisoner. They all sprang at Mr. May and succeeded in getting him down and choked him. After regaining consciousness he recovered his pistol from the prisoners.

Attempted Rape. A young man in Transylvania county was the victim of an attempt to assault the 17-year-old daughter of a business man of New Orleans Tuesday of this week. The screams of the girl caused the negro to run away. Officers are not present and the brute will more than likely be caught. Judge Shaw is holding court there now.

Woman Murdered in Virginia. Mrs. J. S. McCoy, wife of Ex-Mayor McDowell, of Charlottesville, Va., was shot and instantly killed in her home by an unknown party last Sunday night after returning home from church. Her husband was just knocked insensible and his gun snatched from him when the burglar fired two shots at Mrs. McCoy.

Vermont 30,000 Republicans. The republican politicians are some what astounded at the returns from Vermont, when it is remembered an unusually large vote was cast. The republican plurality will not exceed 30,000 in the State. Only once in a quarter of a century has a republican president been elected when the majority given in Vermont was so small and that was when Hayes was finally given a majority of the electoral vote.

Warm Times in Asheville. Lively scenes were in Asheville, Tuesday among "de col'd" population when a loaded street car ran over and killed a negro man, who jumped while the car was moving.

In the afternoon Isaac Walker, colored, shot and killed his wife because she upbraided him about another woman.

Late the same afternoon Joseph Suddeth, a white merchant, fired three shots without result at Joe Merrill. Suspicion of an attempt to create domestic infelicity is the supposed cause.

ABOUT POLITICS.

A Letter. To the voters of Randolph county:—I wish to say through the Courier of this week, that the Hamilton convention with Jefferson in hat week's issue, showing the different principles existing in the Democrats and the republican parties, is not the Hamilton that asks your support at the primaries for county surveyor; the Hamilton spoken of in contrast with Jefferson and Lincoln, was Alexander Hamilton who fought a duel with Aaron Burr and not J. J. Hamilton, who has been a democrat all his life. He has no civil war record, only as a fourteen year old boy at the close of the war, having had three brothers in the regular army of Va, his father in the senior reserves and a sixteen year old brother in the junior call. He remembers vividly the casting off of corn, last, filling the soil, helping in many ways to support the war, even to the paying out of tinous and which makes us all just bet to the common honors of that struggle. In 1876 this same Hamilton helped to give Timm and Hendricks a majority of over 250,000 of the popular vote and has helped to fight every democratic battle up to this date, excepting the campaign of 1898 when he was an elected soldier for "doing the war with Spain" and was out of the State. He served in the United States and in Cuba, returning home in 1899, to find that he had a poll on his head during his term of enlistment. In the year that Dr. J. M. Worth and Jonathan Lassiter were elected, this same Hamilton rode sixty miles mule back, from Lileville N. C. to New Hope N. C. just to help gain a democratic victory, returning on the day after election and still thinks he did nothing more than his duty. He now has five sons to vote the democratic ticket and two more coming on that no doubt, will soon do the same thing, following the footsteps politically of their father who is now 83 years old. This same Hamilton believes in stepping down out of the office after two terms of incumbency, unless there are special reasons why the same should hold longer. He pledges his word to the voters that he will not if elected to office as surveyor, ever submit his name to be run for that place after the second term, as others as good by nature, and fully as deserving by practice, may want the place. Young men in the Democratic ranks should be encouraged to aspire to the different offices and older ones should be willing to be a Jeffersonian or a Washington in principle and give others a chance. It is so nice and commendable for a man who has been honored 4 years in office to step out and go to others, "come have my place" when the place is common property to all who are worthy and capable to fill the place. With the above remarks I am respectfully, CITIZEN. Franklinville, Sept. 1st, 1904.

To the Democrats of Randolph:—I think we should nominate the very best men we have and men who are well qualified to represent us in the next Legislature and I believe that no man in the county is better qualified to represent us in the Senate than W. P. Wood, of Asheboro. Again County Commissioners should be men of good financial ability and I think Thos. J. Redding will make a good county commissioner. So far as I know the voters in this township are for the reelection of Broughs, Miller and Finch, to the offices they are now holding. CITIZEN. Franklinville, Sept. 1st, 1904.

Let the democratic convention re-nominate the old county officers, W. H. Watkins for the Senate, W. P. Wood, and T. J. Redding, for Legislature and Hugh Parks, Jr., A. N. Bull, and George Murdoch, for county commissioners. Think of this suggestion before casting your vote. Democrat. Rauldeman, N. C.

A Card of Thanks. I take this means to return the heartfelt thanks of the family to those kind friends who came to my house on Wednesday morning, the 17th of August last, and carried Mrs. L. L. Hackney, of Charlotte, to the train. She being unable to sit up, on last Thursday she underwent an operation for appendicitis and was doing well when last heard from. J. D. HARGREY.

STOMACH DOSING WILL NOT CURE. Only Way to Cure Catarrh is by Breathing Hyomei.

Ask any physician if catarrh is a blood disease and he will tell you that it is a diseased condition of the mucous membrane and that it can not be cured by blood purifiers, pills, tablets, or other forms of stomach dosing. The only sensible and scientific way of curing catarrh is by the use of Hyomei.

Breathed for a few minutes, four or five times a day, through a hard rubber inhaler that is so small that it can be carried in the vest pocket, Hyomei will absolutely destroy all catarrhal germs and cure the disease. Catarrh can never exist where Hyomei is used. It has a two-fold action, destroying the disease germ in the air passages and lungs, and soothing and healing the inflamed mucous membrane.

Asheboro Drug Company, one of the most reliable firms in Asheboro, is giving its personal guarantee with every package of Hyomei it sells, that it will affect a cure or it will return to you your money. This firm has had scores of reports of remarkable cures of both acute and chronic cases of catarrh by Hyomei. The complete Hyomei outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a life time; and additional bottles of Hyomei can be obtained for 50c.
